The Contractors shall complete the table below and attach specifications, drawings, and warranty documents for each proposed vehicle.

Technical Acceptability

Contractors may propose up to four (4) different models for Ladder/Tower Units. Contractors who propose multiple models will have each model evaluated independently of each other.

*These requirements are defined in Attachment 4 - Specification Document

New Apparatus Certification- The proposed apparatus is new, unused, and of current production manufacture; is not a demonstrator, refurbished, remanufactured, previously owned, titled, registered, leased, or previously placed into emergency service; and will be delivered with full manufacturer warranties.

Specification Requirements	**Model**	**Does the vehicle specification meet or exceed specifications in Attachment 2? (Yes or No)**	**Days needed to deliver vehicle?**	**Have you included the specifications, drawings, and warranties? (Yes or No)**
Ladder/Tower Unit Vehicle				

Note: Two vehicles are needed by September 15, 2026.
