TABLES & CHAIRS
MINIMUM SPECIFICATIONS & REQUIREMENTS

12 June 2026

BACKGROUND

The existing tables and chairs at Volk Field Air National Guard Base (ANGB) Runways Edge all Ranks Facility are approximately 20 years old, and their age is increasingly evident in both appearance and functionality. As these furnishings have exceeded their expected service life, they no longer reflect the modern, professional environment that the facility strives to maintain. Replacing the current furniture with updated, durable, and visually contemporary options will significantly enhance the overall aesthetic of the facility. Modernizing the furnishings will not only improve daily usability and comfort but will also help preserve and elevate the appearance and reputation of Volk Field ANGB. Updated tables and chairs will demonstrate a continued commitment to quality, professionalism, and readiness—attributes essential to the mission and image of the installation.

GENERAL REQUIREMENTS

1. All products shall be manufactured to commercial-grade durability standards suitable for hospitality, restaurant, or high-traffic environments
2. Wood components shall be Oak or Oak-veneered materials
3. All finishes must be consistent across all products
4. All dimensions listed are nominal and must fall within ± 1/8" tolerance unless otherwise stated
5. All upholstery materials must meet minimum 1.2 mm thickness and comply with standard abrasion and wear-resistance requirements

TABLETOPS

A. SQUARE OAK TABLETOPS (Qty: 15 Each)

- Dimensions: 36" × 36"
- Thickness: 2"
- Material: Oak core or engineered substrate with Oak appearance
- Surface Finish: Thermally Fused Laminate (TFL) on both sides
- Edge Profile: Square or eased edge
- Color/Finish: Weather Barnwood Oak tone
- Performance Requirements:
    - Scratch-resistant
    - Heat-resistant
    - Moisture-resistant
    - Suitable for commercial cleaning products

B. ROUND OAK TABLETOPS (Qty: 15 Each)

- Diameter: 36"
- Thickness: 2"
- Material: Oak core or engineered substrate with Oak appearance
- Surface Finish: Thermally Fused Laminate (TFL) on both sides
- Edge Profile: Rounded or eased edge
- Color/Finish: Weather Barnwood Oak tone (matching square tops)
- Performance Requirements:
    - Scratch-resistant
    - Heat-resistant
    - Moisture-resistant
    - Suitable for commercial cleaning products

SEATING

A. OAK TUFTED BUCKET SEAT (Qty: 51 Each)

- Style: Bucket-style seating with tufted upholstery
- Material: Oak frame or Oak-accented frame
- Upholstery: Minimum 1.2 mm thickness
- Padding: High-density foam suitable for commercial seating
- Color: Black
- Performance Requirements:
    - Tear-resistant upholstery
    - Stain-resistant finish
    - Reinforced stitching at tuft points
    - Weight capacity: Minimum 300 lbs. minimum.

B. OAK UPHOLSTERED SWIVEL BAR STOOL (Qty: 51 Each)

- Style: Upholstered swivel bar stool with Oak frame or Oak accents
- Swivel Mechanism: 360° smooth commercial-grade swivel
- Seat Height: Vendor to confirm standard bar height (typically 28–30")
- Upholstery: Commercial-grade fabric or leatherette
- Frame Material: Oak or Oak-finished hardwood
- Color: Black
- Performance Requirements:
    - Reinforced joints for high-traffic use
    - Non-marring floor glides
    - Weight capacity: Minimum 300 lbs. minimum
    - Upholstery must meet commercial abrasion standards

QUALITY & COMPLIANCE REQUIREMENTS

- All items must pass vendor's standard quality inspection prior to shipment.
- All finishes must be uniform across the entire order.
- All seating must meet or exceed standard commercial durability tests (e.g., ANSI/BIFMA where applicable).
- Vendor must provide warranty information for:
    - Structural integrity
    - Upholstery durability
    - Laminate surface performance

PACKAGING & DELIVERY

- All items must be individually protected to prevent damage during transit.
- Tabletops must be edge-protected and wrapped to prevent laminate scratching.
- Seating must be wrapped to prevent upholstery damage.
- Vendor must provide estimated lead time and shipping method.
