5. Rationale Justifying Use of Cited Authority

A/RMC 3

Acquire, for the second or subsequent time, directly from the actual manufacturer.

A/RMSC R

The Government does not own the data or the rights to the data needed to purchase / contract repair of this part from additional sources. It has been determined to be uneconomical to buy the data or rights to the data. It is uneconomical to reverse engineer the part. This code is used when the Government did not initially purchase the data and/or rights. If only one source has the rights or data to manufacture/repair this item, A/RMCs 3, 4, or 5 are valid. If two or more sources have the rights or data to manufacture/repair this item, A/RMCs 1 or 2 are valid.

This acquisition will be solicited to

D B Control (0R856) The Government does not own the data, or the rights to the data needed to openly compete this repair requirement. The only source listed above maintains the design and repairs standards via design drawings, repairs procedures, and quality assurance procedures. The Government does not have the data/or is not authorized to use the data, to approve alternate sources. Without the OEM documentation, in-it-self, creates a safety issue, critical issue, which would develop, into an issue of mission capability. Failure to repair, one or more items properly, would have a severe impact on a ships steerage/maneuvering, and speed capability. An electronic device whose radio frequency input signals control power from a source independent of the input signals and delivers radio frequency output signals of greater amplitude with respect to current and/or voltage.

6. Description of Efforts Made To Solicit Offers From as Many Offerors as Practicable

15 MAR 2019 Class Waiver of the Requirement to Post a Request for Information or Sources Sought Notice applies to this requirement

The proposed contract action was synopsized on the government-wide point of entry on 02/05/2025

and as a result no other offerors expressed interest in the requirements

Market research was conducted in accordance with far part 10. The results of the market research conducted (or the reason(s) market research was not conducted) are as follows

A technical review, which consisted of searching several Government databases including ITIMP, ERP/ORACLE/FMT, ISEA, and NSDER, has been completed on this item. Search criteria included Part Number, Design Control Activity, Cage Code, NSN, Nomenclature, RMC/RMSC, AAC, Criticality Coding, recorded approved sourced of supply, historical sources of supply and past contracts. Based on this market research the contracting officer has determined that the only known repair source is Cage 0R8S6. If a company other than the ones listed, believes they have the capability to repair these items, can submit their company's capabilities to repair within this industry, to NAVSUP WSS Technical, for forwarding to the Program Office. The Program Office will review and evaluate the documentation provided. The Program Office may request further documentation of capabilities. The Program Office may also require a site visit, to evaluate a repair source's capabilities, to adequately accomplish the repairs for these items. Upon qualification, the approved company will be able to participate in future solicitations.

7. Determination of Fair And Reasonable Cost

The contracting officer determines that the anticipated cost to the Government of the supplies covered by this J&A will be fair and reasonable.

8. Actions to Remove Barriers to Future Competition

For reasons set forth in Paragraph (5 & 6), NAVSUP WSS has no plans at this time to compete future contracts for the subject item covered by this document. If another potential manufacturing source emerges, NAVSUP WSS will assess whether competition for future requirements is feasible. Also, future requirements will be advertised on the government-wide point of entry.
