1. Please confirm the required number of security officers per shift and whether multiple posts must be staffed simultaneously.

Answer: A minimum of one (1) security officer is required per shift. There is not a post, the entire cemetery will need to be patrolled.

2. Please clarify the required frequency of patrols during each shift, such as hourly, every two hours, random patrols, or another required interval.

Answer: Patrols should be random but the entire cemetery shall be patrolled at least once per hour.

3. Is a contractor-furnished patrol vehicle required under this contract? If so, is the vehicle required throughout the entire shift or only during designated patrol periods?

Answer: Yes. A contractor-furnished patrol vehicle is required during the entire shift.

4. Are officers expected to conduct foot patrols, vehicle patrols, or a combination of both?

Answer: Most patrols will be vehicle patrols. There will be times when the security officer will be required to exit the vehicle. Examples are when checking buildings and the perimeter, security issues, or interacting with visitors.

5. What has been the historical staffing level under the incumbent contract, including the number of guards assigned per shift and whether patrol vehicles were utilized?

Answer: Currently, one security officer utilizing a patrol vehicle is assigned per shift.

6. Are military funeral honors, ceremonial events, and other special events included within the fixed-price scope of work, or would these be considered additional services?

Answer: These are not additional services. The security patrol will be required to work during funeral honors, ceremonial events, and special events. The duties of the

security officer will not change during these events but may also include pedestrian management and traffic control, as assigned by the COR.

7. Is a dedicated onsite supervisor required during operating hours, or is offsite supervisory oversight acceptable?

Answer: The supervisor is not required to be on site.

8. Is an electronic guard tour/GPS checkpoint system required, or are manual patrol logs acceptable?

Answer: Manual patrol logs are acceptable.

9. Please clarify the required reporting deliverables, including Daily Activity Reports, Incident Reports, and required submission timelines.

Answer: Daily Activity Reports shall be submitted the next business day via email. Incident Reports shall be submitted within two (2) hours post incident.

10. Will post orders be made available prior to award, or will they be provided during the post-award/pre-performance conference?

Answer: Post orders are provided post award.

11. If a patrol vehicle is required, are there any specific requirements regarding markings, equipment, age, condition, or vehicle specifications?

Answer: Patrol vehicles shall display the company logo on the vehicle signifying to staff and visitors the nature of the vehicle. Patrol vehicles shall be clean and always maintained in good working condition.

12. If only one officer is assigned to a shift, what are the Government's expectations regarding meal and rest break coverage?

Answer: Meals and rest breaks are at the discretion of the contractor with concurrence from the COR. This detail will be addressed during the post-award/kick-off meeting.

13. Please confirm the minimum insurance requirements applicable to this contract.

Answer: Patrol vehicles will maintain, at a minimum, insurance in accordance with California state requirements.

14. The SF-1449 indicates an offer due time of 4:00 PM PT, while the Instructions to Offerors reference 5:00 PM PST. Please confirm the official proposal submission deadline.

Answer: This amendment 001 will attempt to confirm the deadline for quotes but my contracting office is experiencing software issues with our contract writing software and its interface with Contract Opportunities. As a solution, <u>the CO will accept quotes based on the last date/time stamp published in any of the formats related to 36C78626Q50154, which is currently 5pm PST 07/02/2026.</u> Background information on this technical software issue: the deadline on Contract Opportunities (SAM.GOV) is 1PM CDT on 07/02/2026, the base solicitation (SF1449) states 1600 PT on 07/02/2026, and the Instructions to Offerors states 5pm PST 07/02/2026.

15. Requesting clarification on the number of personnel that would be required to work at this location per shift.

Answer: Since the requirement is a performance work statement, it is the vendor's business decision on the labor effort.

16. Per the SOW (PWS) it states coverages is (16) hours a day - 5am -9pm. Is this (7) days a week or is it (24) hours on Sat / Sun / Holidays?

Answer: The schedule is from 5:00am to 9:00pm, seven (7) days per week

17. Please see the published Excel Spreadsheet labeled, "Additional Answers to Questions," for the continuation of answers to vendors questions.
