GSA - LIMITED SOURCE JUSTIFICATION FOR FSS ORDER BELOW SAT

1. The service or material listed on Radon Detector Procurement is a limited source action to be awarded as a new Federal Supply Schedule order of an existing order for the supplies and or services identified in paragraph (2) below. The placement of a firm fixed price is anticipated.

2. **Limited to the following source(s).**

Dealer / Rep: [redacted] _____

Dealer FSS #: ___[redacted]_____

Dealer / Rep address / phone #: _[redacted]

3. **Identification of the justification rationale.** This acquisition is conducted under the authority of the Multiple Award Schedule Program (Title 41 U.S.C. 152 (3) and Title 40 U.S.C. 501, Services for Executive Agencies). Authority to limit sources to less than those required by FAR 8.405-1 and 8.405-2 is found at FAR 8.405-6. The justification for limiting sources is because the item is peculiar to one manufacturer and will be order under an existing order.

4. **Description of the item or service required, statement that the requested material or service represents the minimum requirements of the government, the estimated cost, and required delivery date or performance period.**

NAVFAC PAC requires 1200 long-term ATF radon detectors for upcoming radon testing work for Naval Support Activity (NSA) Singapore. An analysis of the radon detectors will be gathered after fieldwork.

The Government estimated cost for this contract is [redacted]

[redacted] Multiple Award Schedule contract in GSA is [redacted] and the period of performance for this contract is award plus 6 months. Shipping time frame of product is unknown.

5. **Specific characteristics of the material or service that limit the availability to this/these source(s) (unique features, function of the item, etc.). Describe in detail why only this/these suggested source(s) can furnish the requirements to the exclusion of other sources. Provide a description of the market research conducted among schedule holders and the results OR a statement of the reason market research was not conducted.**

[redacted]'s [redacted] long-term radon detectors best satisfied the requirements of the provided SOW. The [redacted] is an National Radon Proficiency Program (NRPP) certified device and met the long-term requirement listed in the Navy Radon Assessment and Mitigation Program (NAVRAMP) Guidebook. In addition, these detectors reported in the appropriate measurement in pCi/l and PCi*days/l. After conducting market research on AbilityOne, UNICOR, GSA, and SBA, [redacted]'s [redacted] is the only company that meet the requirements of this SOW. They are also a small business and have an existing GSA Contract.

6. **Other information to support a limited source buy:**

7. **TECHNICAL OR REQUIREMENTS CERTIFICATION:**

I certify that the facts and representations under my cognizance which are included in this justification, which form a basis for this justification, are complete and accurate.
