6923G526Q0069 – Eisenhower Lock Tunnel Pressure Grouting
Questions & Answers

#	Question	Answer
1	Is this project considered "Confined Space"? Which could include all the protocols.	The crawl space is considered a non-permit required confined space.
2	Is the contractor allowed to remove the "half wall" to gain a wider access to the crawl space?	Yes, however the half wall will need to be reinstalled after the project.
3	Does the Owner want a separate price for patching ceiling/wall interface and other areas where the concrete is spalled or deteriorated?	See SOW for requirements. Beyond removing packers and patching holes further patching is not required.
4	Are four 15-amp power outlets available to be supplied to the work space by the owner?	Yes
5	Can the contractor work on weekends? If not, what are the work hours?	The contractor may work weekends. Schedules shall be proposed and approved by the GLS COR. Contractor employees will need to pass a background check prior to coming on site.
6	Is the contractor responsible for supplying a toilet trailer? If so, where will it be located?	The contractor is responsible for providing toilets for their employees.
7	Could the Government please clarify how close the contractor will be able to park to the work area, and whether there is a designated staging area for materials, tools, equipment, and injection setup?	The contractors will be able to park on the side of the road at the entrance on both sides of the tunnel. The contractor may use the Northwest corner of the Eisenhower overlook for a staging area provided that the area is kept clean and organized.
8	Could the Government also provide any available pictures, site visit notes, marked-up drawings, or other visual references showing the work areas, access points, cracks, pipe penetrations, utilities, and general site conditions?	The government will not be providing further documents.
9	Additionally, are there any specific safety concerns, access restrictions, confined-space requirements, utility/high-voltage precautions, escort requirements, work-hour limitations, or other site-specific	See previous answers. No escorts will be provided. Contractor employees will need to pass a

	conditions that contractors should account for when preparing their quotes?	background check prior to coming on site.
10	Lastly, please confirm whether there are any additional details or operational constraints that may impact performance of the pressure grouting scope.	The work is not subject to operational constraints.
