4. Statutory Authority Permitting Other Than Full & Open Competition

This J&A is based upon the authority of 10 USC 3204(A) (1), only one or a limited number of responsible sources will satisfy agency requirements, as implemented by FAR 6.302-1

5. Rationale Justifying Use of Cited Authority

A/RMC 3

Acquire, for the second or subsequent time, directly from the actual manufacturer.

A/RMSC B

This part must be acquired from/repaired by a source(s) specified on a source control or selected item drawing as defined by the current version of DoD-STD-100. Suitable technical data, Government data rights, or manufacturing/repair knowledge are not available to permit acquisition from/repair by other sources, nor qualification testing of another part, nor use of a second source part in the intended application. Although, by DoD-STD-100 definition, altered and selected items shall have an adequate technical data package, data review discloses that required data or data rights are not in Government possession and cannot be economically obtained. If one source is available, A/RMCs 3, 4, or 5 are valid. If at least two sources exist, A/RMCs 1 or 2 are valid.

This acquisition will be solicited to

Pacific Scientific Energetic Material Co. (54181) These parts are Critical Safety Items and are source controlled. Manufacture of these parts is highly specialized and requires acquisition from source specified on a source controlled drawing. This acquisition will be solicited to Pacific Scientific Energetic Material Co. (54181). This item is governed by source controlled technical data. Pacific Scientific Energetic Material Co. (54181) is the only source listed on Government Source Control Drawing # 7263959. The Government does not possess sufficient rights in the technical data to distribute them to potential new suppliers of the item. Any additional sources would have to be approved by NSWC Indian Head Division and added to the approved sources listed on the drawing. There are no known distributors.

6. Description of Efforts Made To Solicit Offers From as Many Offerors as Practicable

15 MAR 2019 Class Waiver of the Requirement to Post a Request for Information or Sources Sought Notice applies to this requirement

The proposed contract action was synopsized on the government-wide point of entry on 10/29/2025

and as a result [redacted]

Market research was conducted in accordance with far part 10. The results of the market research conducted (or the reason(s) market research was not conducted) are as follows

An In-Service Engineer Activity (ISEA) technical review was conducted and a source sought notice was published to identify all additional sources or interested vendors. The result of this market research indicates that only the above-name vendor(s) are able to meet the government's requirements. The latest configuration has been checked and all records have been properly aligned, identified, and documented. This item is on Source Controlled Drawing 7263959 owned by the Government listing only Pacific Scientific Energetic Material Co. (54181) as an approved source. The Government does not possess sufficient rights in the technical data. Any additional sources would have to be approved by NSWC Indian Head Division and added to the approved sources listed on the drawing. There are no known distributors.

7. Determination of Fair And Reasonable Cost

The contracting officer determines that the anticipated cost to the Government of the supplies covered by this J&A will be fair and reasonable.

8. Actions to Remove Barriers to Future Competition

To promote competition, NAVSUP WSS will continue to encourage vendors with the expertise to manufacture/repair the subject item to submit a complete technical data package for review and source approval by the appropriate engineering source approval authority per the (WSS) guidelines. Also, future requirements will be advertised on the government-wide point of entry.
