OVERVIEW

This Glenn Research Center (GRC) Center-Level NASA Research Announcement (NRA) is issued in accordance with the NASA Federal Acquisition Regulation (FAR) Supplement (NFS). This Subsonic Vehicle Technologies and Tools (SVTT) Project solicitation seeks an open fan flight demonstration plan with optional accompanying risk reduction activities. Whereas a traditional RFP provides the Government's defined Statement of Work (SOW), this NRA relies on Offerors to submit a Work Plan in the form of a SOW as part of their proposal that, if selected, is intended to become the SOW included in Section C on any awarded contract(s). In addition, this NRA includes a Model Contract (see Attachment A) with all potential clauses that will be included in the final contract(s) to inform Offerors of NASA's expectations to expedite contract award at the conclusion of this NRA.

Upon completion of the NRA proposal evaluations, NASA intends to award hybrid contract(s) (CLIN 01- Firm Fixed Price (FFP) and CLIN 02 – Cost Plus Fixed Fee (CPFF)) to Offerors who best meet the goals set forth in this NRA. A competitive range will not be established, and final proposal revisions shall not be requested/accepted. If an Offeror's proposal is selected at the conclusion of the Final NRA evaluation period, NASA will advise the Offeror that the Government intends on entering into negotiations and will follow up with a contract that includes (if necessary), modifications contemplated in the Offeror's SOW, and request agreement or identification of any exceptions. Any necessary negotiations will be conducted in accordance with FAR Subparts 15.3 and 15.4.

Issuing Office: NASA Glenn Research Center

1. INTRODUCTION

As part of the NASA Advanced Air Vehicles Program (AAVP), the SVTT Project endeavors to advance knowledge, technologies, and concepts that enable accelerated introduction of radical aircraft and engine technologies across a range of vehicle classes. The SVTT portfolio consists of technology maturation activities applicable to a broad range of vehicles, including commercial subsonic aircraft of various classes and vertical lift vehicles as an emerging transportation mode. The portfolio also covers technology target entry-into-service (EIS) opportunities for the 2030s as well as those in the 2040s. SVTT seeks to increase the Technology Readiness Level (TRL) of technologies to accelerate the rate of implementation by U.S. industry. This is achieved through partnerships with industry to ensure that these technologies are applicable to planned products to increase the chances of inclusion in future aircraft systems.

This NRA solicits proposals for providing an open fan flight demonstration plan with optional accompanying risk reduction activities. The flight demonstration plan will inform SVTT of the scope of a possible future flight demonstration and provide insight into the roadmap, risk reduction areas, and areas of potential investment.

[End of Section]

2. BACKGROUND

The Research and Technology Mission Directorate (RTMD) (formerly, the Aeronautics Research Mission Directorate (ARMD)) has reorganized with new projects to align with revised priorities for future aircraft technology. A new SVTT Project has been established within NASA's AAVP. The SVTT Project consolidates select elements of three previous NASA Projects: Revolutionary Vertical Lift Technology (RVLT), Advanced Air Transport Technology (AATT), and the Hybrid Thermally Efficient Core (HyTEC). SVTT intends to advance knowledge, technologies, and concepts that enable accelerated introduction of radical aircraft and engine technologies across a range of vehicle classes. Research activities are applicable to a broad range of vehicles, including commercial subsonic aircraft of various classes and vertical lift vehicles and will cover a wide range of TRL and EIS vehicle opportunities. The diverse portfolio is envisioned to include conceptual development of future vehicles, disruptive emerging technology, as well as technology development activities for nearer-term vehicles. The higher TRL areas will likely focus primarily on vehicles intended for EIS in the 2030s, and the lower TRL, paradigm shifting technology, will be focused for 2040s EIS and beyond. Conceptual vehicle studies will be performed in parallel that incorporate advanced technologies to inform future aircraft configurations. This solicitation is targeting higher TRL and the 2030s timeframe and is specific to the flight demonstration and integration of an open fan propulsor.

[End of Section]

3. OPEN FAN FLIGHT DEMONSTRATION PLAN DEVELOPMENT

Open fan propulsors promise substantial fuel-burn reduction and increased efficiency for single-aisle aircraft. Accurately predicting integrated/installed benefits is a significant barrier because open fans strongly couple aerodynamics, acoustics, structures, and aircraft configuration and current ground and wind tunnel tests cannot fully capture all installation and operational effects. As a result, well instrumented flight testing is essential to validate models, derisk certification, and quantify real world performance and noise. The objective is to develop a comprehensive plan that defines the requirements, scope, and feasibility of an open fan flight demonstration. The deliverables will address technical, operational, and certification considerations, including aerodynamic integration, structural impacts, noise and emissions performance, and propulsion system reliability.

The scope is limited to single-aisle class aircraft with the following attributes:

- 150–180 passengers
- 3,500 nm design range; 900 nm economical range
- Cruise Mach 0.78–0.82
- Span at gate fits within 118 ft width constraint

[End of Section]

4. APPROACH

The goal of this solicitation is to obtain an open fan flight demonstration plan that will inform future NASA activities. The period of performance is six (6) months for the Open Fan Flight Demonstration Plan Development and up to twelve (12) months for risk mitigation task to run in parallel. This section contains key tasks to be carried out.

4.1. Project Management

Conduct the project management activities needed to supervise, direct, and manage the development of the flight demonstration plan. Project management and planning tools shall be used to ensure the accomplishment of each work element in a timely manner and within budget constraints. This task includes planning, monitoring, analysis and presentation of Offeror cost, schedule, and technical performance.

4.2. Open Fan Propulsion Flight Demonstration Plan Development Approach

The Open Fan Propulsion Flight Demonstration Plan will inform subsequent phases of technology development and demonstration planning, ensuring alignment with industry needs and regulatory standards. The flight demonstration plan development will include a summary of the findings and an analysis of market offerings. The summary and flight demonstration is

focused specifically on the open fan element of the propulsion system and its efficient integration with the aircraft. The following summarizes the key items to address in this solicitation:

- Address technical, operational, and certification considerations, including aerodynamic integration, structural impacts, noise and emissions, and propulsion system reliability.
- Provide an analysis of market offerings and investment strategies for narrowbody advanced propulsion technologies.
- Provide a summary of findings and recommendations for subsequent technology development and demonstration planning.
- Provide final plan which details findings, investment strategies, and market analysis.

4.2.1. Open Fan Flight Demonstration Plan Development Tasks:

1. Assuming an introduction into the fleet in the 2035 to 2040 timeframe, develop and provide an analysis of the Offeror's next generation single-aisle transport vision system that uses open fan propulsors. This may include vision system configuration and architectures other than traditional tube and wing transports. Provide a detailed description of the preferred vision system and vision system architecture (including 3 view and entry into service date).

2. Develop and provide comprehensive Technology/Configuration/Architecture Development Plans, including use of required ground and flight demonstrations. Ground demonstrations may be needed to advance technology/architecture/configuration readiness and/or may be needed to effectively and safely develop a flight demonstrator. Include starting, intermediate, and finishing TRL levels aligned with ground and flight demonstrations.

3. Develop & provide key performance parameters, technical performance parameters, technical performance indicators associated with Offeror preferred ground and flight demonstrations. Associate and link key performance parameters with the Vision System and associate the Technical Performance parameters with the desired ground and flight demonstrations.

4. Develop and provide system and subsystem requirements for key enabling ground and flight demonstrations.

5. Develop and provide technical, and risk-infused cost and schedule plans for Offeror preferred ground and flight demonstrations. Show costs and schedule tasks for design, fabrication, procurement, assembly, and integration/checkout of each major aircraft and advanced technology subsystem for both ground and flight demonstrations.

6. Describe & provide required partnerships and interfaces for Offeror preferred ground and flight demonstrations. Describe in detail potential cost share or risk strategies and percentages with the U.S. Government.

7. Develop & deliver a System Integration approach for enabling ground and flight demonstrations.

8. Develop & provide a Human System Integration approach for Offeror preferred ground and flight demonstrations.

9. Develop & provide Offeror's concept of operations of the preferred ground and flight demonstrations. Assuming jointly conducted flight test operations with NASA, identify by scenario, team makeup and roles, as well as any needed government furnished hardware or facilities. Identify the major heritage hardware and software assumptions and associated risks with preferred ground and flight demonstrations.

10. Develop & provide detailed risk assessments (technical, cost and schedule) with associated risk mitigation plans for Offeror preferred ground and flight demonstrations. Include a list of the top 10 risks using a 5x5 Likelihood / Consequence scoring method and link the risk mitigation plans and steps to the proposed cost/schedule plans.

4.2.2. Open Fan Flight Demonstration Risk Mitigation Tasks (optional):

Develop and deliver separate technical approaches and cost proposals for up to three risk mitigation task plans to effectively accelerate proposed flight demonstration.

- Risk Mitigation Task 1 (optional)
- Risk Mitigation Task 2 (optional)
- Risk Mitigation Task 3 (optional)

[End of Section]

5. EXPECTED OUTCOMES AND DELIVERABLES

5.1 Technology Plan and Metrics

Offeror shall submit a roadmap to show how the open fan propulsion concept will evolve over time and the path to a potential future vision product. Offeror shall indicate the key technology maturation activities and gaps. The proposal shall define what activities will occur during the contract and what gaps are expected to remain that would need to be addressed in the future.

5.2 Documentation

The Offeror shall use the United States Customary Units (USCU) – length (ft), force (lbf), temperature (deg F), mass (slug), and time (s) as the primary set of units in conjunction with equivalent SI units shown in parentheses.

The Offeror shall use the NASA BOX system for deliverables and exchange of technical material.

The required deliverables of a successfully awarded contract are outlined in Section 7.

All deliverables shall be delivered in the expected period of performance of the contract.

[End of Section]

6. INTELLECTUAL PROPERTY

Data Rights. Normally, the Government has unlimited rights in technical data created under a NASA agreement. Knowledge gained about key parameters related to proposed technology, resulting from the analysis of the test data by NASA researchers, shall become the property of NASA, as long as it does not disclose company proprietary geometry or specific performance parameters. The knowledge gained by NASA shall be publishable and unlimited immediately after the testing and analysis is complete. Delivery or third-party licensing of proprietary software or data developed solely at private expense will not normally be required except as specifically negotiated in a particular agreement to satisfy NASA's own needs or to ensure the commercialization of technology developed under a NASA agreement.

A clear statement is required of what intellectual property is expected to be available to the Government, U.S. Aeronautics Community, and Public at the conclusion of the work. It is NASA's preference that all deliverables under the contract be provided to NASA with unrestricted/unlimited rights; thus, any restrictions must demonstrate a significant net benefit to the Government.

A Model Contract is provided as Attachment A, with a sample Pre-Award Data Rights Assertion Table (DRAT) provided as Attachment 1 to the Model Contract.

Patent Rights. The Government will have certain statutory rights in an invention that is conceived or first actually reduced to practice under a NASA award. 51 U.S.C. 20135 provides that title to such inventions vests in the United States, except where 35 U.S.C. 202 provides otherwise for nonprofit organizations or small business firms. However, NASA may waive all or any part of the rights of the United States subject to certain conditions.

[End of Section]

7. REVIEWS AND DOCUMENTATION

The desired reviews and documentation of a successfully awarded contract include:

Project Coordination

- Technical and schedule progress monthly meeting (or as agreed upon and held remotely) to assess progress
- Mid-point Contract Review
- Final Contract review

Reviews

- Kick-off review
- Mid-point review
- Final Review

Documentation

- Monthly: status of the technical, financial, and schedule progress (Microsoft PowerPoint, limited version only)
- Monthly and Quarterly 533 financial status
- Mid-point contract review presentation (Microsoft PowerPoint, limited version only)
- Final flight demonstration plan (Microsoft Word format, limited and unlimited versions)
    - The plan shall be inclusive of the results of the entire contract, recommendations, and conclusions
    - The plan shall be prepared in accordance with NASA FAR Supplement (NFS) 1852.235-73 (DEVIATION AUG 2025)
- Final Oral Presentation and document (Microsoft PowerPoint, limited and unlimited versions)
    - The final contract review shall consist of a public and Government-only review
    - NASA requires two versions of the presentation, one with non-proprietary content suitable for presenting in a public forum and one for NASA Government review only

Data Rights Identification

Any technical data or computer software developed, delivered, or used under this contract (including reviews and documentation) for which the Offeror anticipates that the Government will receive less than Unlimited Rights must be identified on the Data Rights Assertion Table (See Model Contract Section H for instruction) and appropriately marked at the lowest segregable level. Limited Rights technical data must be identified and marked at the lowest segregable level pertaining to an item, component, or process and Restricted Computer Software data must be identified and marked at the lowest segregable level pertaining to computer software.

[End of Section]

8. ELIGIBILITY INFORMATION

8.1. Eligibility

Participation in this program is open to all categories of U.S. organizations, including educational institutions, industry, and not-for-profit institutions. Historically black colleges and universities, other minority universities, small disadvantaged businesses, veteran-owned small businesses, service-disabled veteran-owned small businesses, historically under-utilized business zone small businesses, and women-owned small businesses are encouraged to apply.

Participation by non-U.S. organizations is not permitted.

The contract type is Hybrid. CLIN 01 will be FFP and CLIN 02 will be CPFF (see Section 9 regarding eligibility).

8.2. Number of Proposals and Teaming Arrangements

NASA recognizes and supports the benefits of having diverse and inclusive scientific, engineering, and technology communities and fully expects that such values will be reflected in the composition of all panels and teams, including peer review panels (science, engineering, and technology), proposal teams, science definition teams, and mission and instrument teams.

There is no restriction on the number of proposals that an organization may submit to this solicitation or on the teaming arrangements for any one proposal. However, each must have a separate SOW, schedule, and cost document for evaluation purposes.

NASA reserves the right to select only part of a proposed activity, often at a level of support reduced from that requested in the original proposal, and/or may select a combination of proposals that best meets the objectives of this NRA. NASA also reserves the right to select only those portions of any proposal that align with these objectives. Offerors should specify if a proposal is offered as a nonseparable package of work. Additionally, NASA may decide to award an effort for less than the full period of performance. In these cases, the Offeror will be given the opportunity to accept or decline such selection. If the Offeror accepts such an offer, a revised budget and SOW may be required before funding action on the proposal can be initiated. If the Offeror declines the offer of a partial selection, or participation in a joint investigation, the offer of selection may be withdrawn in its entirety by NASA.

To assist determining prices/costs for a partial award, the Price/Cost Proposal shall be split into separate CLINs and SLINs. See Section 9 for more details.

Teaming Arrangements with non-U.S. organizations is not permitted. NASA funding through this NRA may not be used to support research and development efforts by non-U.S. organizations at any level.

8.3. Programmatic Considerations

Currently, the total Government estimate for the NRA is anticipated to be $5.0M, dependent upon NASA funding profiles. The actual number and value of the awards will depend on the quality and cost of the proposals received and the availability of Government funds.

[End of Section]

9. PROPOSAL AND SUBMISSION INFORMATION

9.1. Electronic Submission of Proposals – Proposal Marking and Delivery Through NASA's EFSS Box (MAY 2026)

Proposals shall be submitted and received by August 3, 2026, by 5:00 p.m. EDT

(a) The offeror must submit its proposal via NASA's Enterprise File Sharing and Sync Box (EFSS Box), a FedRAMP Moderate certified platform. Electronic submissions must not contain hidden formulas, tables, be locked, be password protected, or contain links to data not included in the electronic copy. All electronic submissions should be searchable and should not contain scanned documents, except those documents that must be provided in their native format (e.g., signature pages, prior award fee letters for past performance, DCAA/DCMA approval letters, as applicable). The offeror must ensure documents are free from viruses and malware, as documents determined by NASA to contain a virus or malware will not be opened or evaluated. Subcontractors may submit their required proposal information separately using the instructions in this provision. The offeror must ensure subcontractor submissions are made no later than the date and time specified for proposal submission and comply with all solicitation instructions.

(b) Prior to the submission of proposal files, offerors interested in submitting a proposal in response to this solicitation should notify both *Contract Specialist, Hunter Butkovic, and Contracting Officer, Brianna Lindsey* of their intent to submit a proposal at least 48 hours prior to the intended submission date, at the following email address(es): hunter.c.butkovic@nasa.gov and brianna.lindsey@nasa.gov.

Offerors, especially those that have not previously submitted a proposal utilizing NASA's EFSS Box, should coordinate the submission of a test file with both hunter.c.butkovic@nasa.gov and brianna.lindsey@nasa.gov no less than five (5) days in advance of the proposal due date specified in the solicitation to allow time to work through any submission issues.

(c) The offeror must submit all proposal files to: https://nasagov.app.box.com/f/7c27eb3190154e6d8959528542087dc1. The offeror must follow instructions regarding proposal submission found at https://www.hq.nasa.gov/office/procurement/other/EFSS-Box-Offeror-Proposal-Submission-Instructions.pdf.

(d) Offerors should electronically submit their proposals not later than 5:00 p.m. EDT one working day prior to the date specified for receipt of proposals, if offerors seek to coordinate with the contracting specialist/officer regarding the proposal's receipt. NASA is not required to verify proposal receipt prior to the submission deadline.

(e) Offerors are encouraged to include all individual proposal files within a single .zip file. Electronic file names must be limited to letters, numbers, dashes, and single spaces, except for the period that is required before the file extension (e.g., .zip, .pdf), in order to successfully upload and download files from the EFSS Box system. The offeror must not use special characters "/" or "\" in file names. The offeror must sequentially number each file and clearly label the contents of the file and include the name of the offeror and subcontractor name (if applicable) in the individual file name. Examples of acceptable individual file names are as follows (not specific to this solicitation):

For Proposal File Submissions:

1. Offeror name 80GRC026R0002 Technical Topic - Past Experience.pdf
2. Offeror name 80GRC026R0002 Technical Topic - Technical Approach and Capabilities.pdf
3. Offeror name 80GRC026R0002 Technical Topic - Proposed Statement of Work
4. Offeror name 80GRC026R0002 Technical Topic - Price/Cost Volume
5. Offeror name 80GRC026R0002 Technical Topic - Business Volume.pdf
6. Offeror name 80GRC026R0002 Technical Topic - Signed Model Contracts and Provisions
7. Offeror name 80GRC026R0002 Technical Topic - Eligibility Certification and Supplemental Information Form

Note: Regarding Price/Cost Volume: Financial data and other numerical figures may also be provided in Excel format and labeled clearly.

Individual files cannot exceed 150GB per file. Submitted files must not include password protection. Unless specifically authorized by the solicitation instructions, alternate proposal submissions must not be submitted.

(f) Immediately after all files have been uploaded and the proposal has been submitted in its entirety, the offeror is requested to notify both *Contract Specialist, Hunter Butkovic, and Contracting Officer, Brianna Lindsey* at the following email address(es) hunter.c.butkovic@nasa.gov and brianna.lindsey@nasa.gov with a listing of all documents by filename that were submitted via EFSS Box. If any problems are experienced with the EFSS Box system (e.g., login, file transfer), please contact *Contract Specialist, Hunter Butkovic, and Contracting Officer, Brianna Lindsey* via e-mail as soon as possible.

(g) The offeror is responsible for ensuring its proposal reaches the Government office designated in the solicitation by the date and time specified in the solicitation. The Government

is not responsible for any failure attributable to the transmission or receipt of documents. Please note that uploading documents via EFSS Box and the transmission of the files from the offeror to the Government may not be instantaneous. To ensure timely delivery, the offeror is encouraged to submit its proposal at least 24 hours prior to the due date specified in the solicitation. The electronic submission of the proposal must contain all information required by the solicitation to be determined responsive.

(End of text)

The following two sub-sections will describe in more detail the technical and cost sections of the proposal.

9.1.1. Technical Content

The proposal format and content requirements are outlined below in Table 1. Summary of Proposal Content. The below noted sections of the proposal must be submitted as one searchable, unlocked PDF file with edit permissions enabled, with the exception of Section V – Price/Cost Volume, which will be submitted via Attachment B to this NRA. The Offeror's Price/Cost Volume proposal shall include completed Price/Cost Volume exhibits in Microsoft Office Excel format with working cell formulas. Offerors must comply with the format and page limit requirements as described below.

1852.215-81 Proposal Page Limitations (APR 2015)

The following page limitations are established for each portion of the proposal submitted in response to this solicitation.

Table 1. Summary of Proposal Content

Section No.	Title	Page Limit
	Title Page	1
I	Executive Summary	2
II	Past Experience	3
III	Technical Approach and Capabilities, Risk Mitigation Tasks (optional)	5, 1 per task
IV	Proposed Statement of Work (Work Plan), Risk Mitigation Tasks (optional)	10 each, 2 per task
V	Price/Cost Volume	Must not exceed 500 pages
VI	Business Volume Approved Cost Accounting System Letter (or documentation in lieu of Approved Accounting System), Summary of Exceptions, Contract Administration, and Waiver of Rights Inventions	No Page Limit

NRA Attachment A	Signed Model Contract(s), and Section 11 Provisions	No Page Limit
NRA Attachment C	Eligibility Certification and Supplemental Information Form	No Page Limit

A page is defined as one side of a sheet, 8 1/2" x 11", with at least one-inch margins on all sides, using not smaller than 12-point type. Use by offerors of smaller font sizes for non-standard text (e.g. graphics, tables, charts, figures, captions) is permitted, if appropriate. However, such fonts must be no smaller than 8-point, must be used only where appropriate, as determined by the Government, in its sole discretion, and must not be used to circumvent RFP proposal page limitations. Foldouts count as an equivalent number of 8 1/2" x 11" pages. The metric standard format most closely approximating the described standard 8 1/2" x 11" size may also be used.

Pages submitted in excess of the limitations specified in this section will not be evaluated by the Government.

(End of Provision)

Title Page

This section shall include the following:
Include any notice of restriction on use and disclosure of proposal information.

- An optional graphic image may be included.
- The Offeror's name of the proposal or proposed project
- Date of the proposal
- The title and solicitation number
- Organization name and address and CAGE code
- Offeror's point of contact name, title, e-mail address, and phone number
- Type of organization (e.g. other than small, educational, small business, minority, women-owned, etc.)
- Proposal validity period (minimum of 90 days from proposal submission)

Section I - Executive Summary

The Offeror shall describe the proposal's prominent and distinguishing features. The executive summary shall provide an overview that is suitable for release through a publicly accessible archive should the proposal be selected.

Section II - Past Experience

The Offeror shall describe experience providing goods and services performed in the past three (3) years that are of a similar size, scope, and complexity to the proposed work. Include any work related to the proposed technology area such as current and pending support.

Section III – Technical Approach and Capabilities

a. Overall Approach:

The Offeror shall describe the technical approach. The description shall include the anticipated key technical challenges and risks and an assessment of the approach and credibility of the flight demonstration plan.

b. Technology Roadmap

The Offeror shall provide a summary of relevant current capabilities and how they fit into the roadmap for the proposed flight demonstration plan, including technology development steps and any supporting risk reduction activities.

c. Key Personnel:

The Offeror shall describe the qualifications of the principal investigator and key team members. The description shall include the experience and breadth of the team, experience related to the technical topic, experience in advanced technology development for aviation, experience advanced composite materials or propulsion airframe integration development, and the ability to offer innovative approaches. The Offeror shall discuss how those qualifications will enable the team to successfully perform the proposed work.

d. Risk Reduction Activities (Optional)

The Offeror shall describe any risk reduction activities proposed that support the associated flight demonstration plan and the value that they add.

Section IV - Proposed Statement(s) of Work

a. Overall SOW:
   The Offeror shall provide the Work Plan(s) written as a SOW to perform the proposed contribution or development. The Work Plan(s) shall include the proposed schedule for meeting the objectives, management approach, and the use of the Offeror's resources. Although not required it is advised the Offeror follows the format in the provided SOW Template (Attachment D).

b. Intellectual Property:
   Identify intellectual property that will be limited and publicly available at the conclusion of the work. Data Rights Assertions shall be captured and included as an attachment to the Offeror's submitted model contract. An example of the format for the Data Rights Assertions Table can be found as Attachment 1 of the Model contract.

c. Deliverables:
Within the requested Work Plan, written as a SOW, the Offeror shall describe the topic-oriented outcomes and data and/or information which will be produced and incorporated into the appropriate deliverable.

Section V – Price/Cost

The proposal shall provide a budget justification for each CLIN/SLIN/year and be supported by appropriate details by cost category. Attachment B of this Announcement shall be used for the price/cost proposal submittal and contains required price/cost proposal. Offerors may add or remove CLINs/SLINs to Attachment B, based upon proposed CLIN structure. Attachment B, Price/Cost Proposal shall identify the Offeror's price/estimated costs.

It is anticipated that adequate price competition may be obtained under this solicitation. Therefore, the submission of certified cost or pricing data is not required pursuant to FAR 15.403-1(b)(1).

This price/cost section shall encompass all costs associated with the requirements of the proposed contract and comply with applicable NFS regulations. As applicable, include separate estimates for salaries and wages; fringe benefits; equipment; materials and supplies; services; travel; subcontract; other miscellaneous identifiable direct costs; and indirect costs.

To facilitate partial awards, the following CLIN structure is requested. Offerors shall clearly document all proposed activities in Section B of the Model Contract. Each proposal shall be separated into two CLINs, one for the flight demonstration plan portion of the proposal and one for any optional risk reduction activities. Furthermore, activities shall be proposed and priced separately as a subcontract line item (SLIN) as shown below:

Example CLIN/SLIN Structure:

CLIN 01: Open Fan Flight Demonstration Plan Development
- SLIN 001: Task 1
- SLIN 002: Task 2
- SLIN 003: Task 3
- SLIN 004: Task 4
- SLIN 005: Task 5
- SLIN 006: Task 6
- SLIN 007: Task 7
- SLIN 008: Task 8
- SLIN 009: Task 9
- SLIN 010: Task 10

CLIN 02: Open Fan Flight Demonstration Risk Mitigation Tasks
- SLIN 001: Risk Reduction Activity 1

SLIN 002: Risk Reduction Activity 2
SLIN 003: Risk Reduction Activity 3

Section VI – Business Volume

Offeror shall provide the below information:

1. Business Systems

State whether all business systems, including but not limited to accounting, property control, purchasing, estimating, and employee compensation, which require Government acceptance or approval (as applicable) are currently accepted/approved without condition.

Provide the date of acceptance/approval for each system and the cognizant contract administration office. Explain any existing conditional acceptances/approvals and the compliance status of any system(s) for which acceptance or approval is currently withheld.

To receive a cost-reimbursement contract (CLIN 02), FAR 16.204-3 requires that a contractor's accounting system be adequate for determining costs applicable to the contract prior to the award of a cost-reimbursement contract. Accordingly, the contractor MUST provide evidence of an adequate accounting system as determined by the cognizant administrative office for accumulating and reporting incurred costs. If relying on the accounting system adequacy of a Joint Venture team member, sister company, or any other affiliated company's accounting system, demonstrate a convincing basis for using that system as a basis for determining adequacy. A cost-type contract can only be awarded to an offeror that has been determined to have an adequate accounting system.

If proposing to CLIN 02 and do not have an approved accounting system pursuant to FAR 16.301-3(a)(2), the Offeror shall submit a completed Standard Form (SF) 1408 or a completed DCAA Pre-Award Accounting System Survey Checklist along with the Offeror's accounting system policies and procedures as part of their proposal.

Offerors may employ, based on their sole discretion, and at no cost to the Government a Certified Public Accountant (CPA) who is in good standing, who should prepare and execute an audit program designed for the evaluation of the Offeror's accounting system pursuant to Generally Accepted Accounting Principles (GAAP) and the requirements identified on SF 1408 'PreAward Survey of Prospective Contractor Accounting System.' A properly executed SF 1408 signed in block 3 by the auditor should be included in the Offeror's proposal.

In lieu of submitting SF 1408 as outlined above, the Offeror may submit a completed DCAA Pre-Award Accounting System Survey Checklist. If submitting the Checklist, the Offeror shall also provide their accounting system policies and procedures as part of their proposal.

For Offerors who do not have an approved accounting system and opt to submit the DCAA Pre-Award Accounting System Survey Checklist in lieu of the SF 1408, completed by a CPA firm, the determination of eligibility to receive a cost type contract will be made be by the NASA Cognizant Federal Agency (CFA) office only for apparent successful Offeror(s).
The Offeror shall also provide an explanation of all changes to its accounting system since the last audit/review or approval by the cognizant Government Audit Agency (GAA) or Administrative Contracting Officer (ACO). If the most recent GAA or ACO audit or review expressed an inadequate determination of the accounting system, the Offeror shall provide a detailed explanation of the status of the corrective action plan and any corrective actions that have been taken to date.

2. Summary of Exceptions
Include a statement of acceptance or list all specific exceptions to any terms and conditions included in the model contract and all contract attachments.

Include the reason for any exception, new terms, conditions, and/or clauses, including any proposed benefit to the Government. This list must include all exception(s), deviation(s) and/or conditional assumptions taken and be supported by sufficient justification to permit evaluation.

3. Contract Administration
Furnish the information listed below:

a. Cognizant Government audit agency with mailing address, email address, telephone number, and fax number.
b. Cognizant Government inspection agency with mailing address, email address, telephone number, and fax number.
c. Cognizant Government Administrative Contracting Officer by name with mailing address, email address, telephone number, and fax number.

4. Waiver of Rights to Inventions
This solicitation contains NFS clause 1852.227-70, "New Technology—Other than a Small Business Firm or Nonprofit Organization" and NFS provision 1852.227-71, "Request for Waiver to Rights to Inventions". Any petitions for advance (prior to contract execution) waiver of rights to inventions shall be included in this volume.

5. Subcontracting Plan
In accordance with FAR 52.219-9, a subcontracting plan shall be required for the apparent successful Offeror(s) with any proposal over $900,000 unless a small business is proposing as a prime contractor. If no subcontracting opportunities exist, the Offeror shall provide a detailed statement as to why no such opportunities exist. Subcontracting Plan, if required, will be requested during negotiations.

NRA Attachment A - Signed Model Contract(s)

A Model Contract is provided in Attachment A of this announcement. A Model Contract shall be provided for each proposal, signed by an official authorized to contractually bind the Offeror. This can be done by signing the attached SF33 on the first page of the Model Contract. Please be advised that all sections designated with the text [OFI] represent "Offeror Fill-Ins". Offerors shall fill in [OFI]'s and submit as part of the signed Model Contract with the proposal submittal. Additionally, sections designated with the text [TBD] stand for "To Be Determined". Offerors should not fill in the [TBD]'s. The Government will update these prior to contract award. Offerors may take exception to, or have unique interpretations of, any Model Contract clauses. These exceptions and/or unique interpretations shall be listed clearly in the Summary of Exceptions, noted within item No. 2 above. Note, taking exception to, or having unique interpretations of any required clauses MAY have a negative impact on potential selection. Each proposal shall provide a Data Rights Assertions Table as an attachment to the Model Contract.

NRA Attachment C - Eligibility and Compliance Certification
The Eligibility and Compliance Certification Questionnaire File shall be completed by the Offeror and each of the Offeror's partners listed in the proposal's Teaming Approach (see Section 8 above) that will be supporting the partner's research and technology development efforts.

Oral Presentation
All Offerors who are determined to be eligible based off the administrative review and past experience will be invited to give a Technical Oral Presentation via Microsoft Teams Meeting. The Oral Presentation is for technical proposal summarization and clarification purposes only. No material changes to the proposal can be made during the Oral Presentation. If there is a material discrepancy between the written proposal and the Oral Presentation the written proposal shall prevail. Any material changes or supplemental information will not be considered.

Oral presentation should summarize the technical portion of the proposal and shall be no longer than 10 minutes and an additional 15 minutes will be allotted for any clarifying technical questions from NASA. However, NASA reserves the right to adjust the time allotted based on the quantity and/or quality of proposals received.

The Technical Oral Presentation will be recorded for documentation purposes.

[End of Section]

10. PROPOSAL REVIEW INFORMATION

Each proposal will be evaluated by a NASA panel to assess the proposal's intrinsic scientific and technical merit, its relevance to the SVTT objectives, and its cost realism and price reasonableness. These factors will also go into evaluating the proposal's best value to the agency and SVTT Project. Each proposal will be evaluated and scored on its own merits using the criteria described below.

Administrative Review

Proposals that are submitted late or fail to meet the minimum administrative requirements may be rejected without further review. Proposals are reviewed to determine if they meet the minimum administrative requirements. These requirements include but are not limited to these factors:

- Proposal was submitted by due date and time;
- Offeror is eligible to submit a proposal
- Proposal meets the page, font, and spacing limits; and
- Proposal was submitted with a SIGNED Model Contract.

10.1. Evaluation Criteria

10.1.1 Technical Evaluation

Section I – Executive Summary
This section will not be evaluated.

Section II – Past Experience (Acceptable/Unacceptable)
NASA will evaluate the proposals to determine the relevance of the Offeror's past experience relative to the SVTT Development Plan for Open Fan Flight Demonstration Expected Outcomes and Deliverables in Section 5. Failure to show experience performed in the past three (3) years that is of a similar size, scope and complexity relevant to the technology development proposed will receive an "unacceptable" rating and the proposal will be disqualified from any further evaluation for contract award.

Rating	Description
Acceptable	Based on the Offeror's performance record, NASA has a reasonable expectation that the Offeror will successfully perform the required tasks.
Unacceptable	Based on the Offeror's performance record, NASA has no reasonable expectation that the Offeror will successfully perform the required tasks.

Section III – Technical Merit

<u>Overall Merit</u>
The Government will evaluate the proposal to determine the overall scientific or technical merit of the proposal/plan, including the credibility of unique and innovative methods, approaches, or concepts.

<u>Relevance to NASA's Expected Outcomes:</u>
The Government will evaluate the proposal to determine if there is a clear and significant connection between the proposed work and the Expected Outcomes and Deliverables defined in Section 5.

Potential for Success:
The Government will evaluate the proposal to determine credibility of the potential for success given the key technical challenges, risks and means to address them, and the Offeror's capabilities, related experience, facilities, techniques, or unique combination of these which are integral factors for achieving the proposal's objectives.

Overall Approach:
The Government will evaluate the proposal to determine the credibility, feasibility, and comprehensiveness of the proposed technical approach to address the items outlined in Section 4 while providing a comprehensive understanding of current state-of-the-art capabilities and methods to overcoming identified technical challenges and risks.

Ambition and Innovation:
The Government will evaluate the proposal and assert a higher value on plans that provide more ambitious or innovative (but still credible) efforts to their technical approach. Examples of this more ambitious approach:

- Open fan flight demonstration that implements a coupled airframe propulsion installation representative of an Offeror's vision aircraft versus using a flying test bed to simply carry an open fan propulsor.

Key Personnel:
The Government will evaluate the proposal to determine the suitability of the proposed team based on their qualifications and assess their potential for success in the proposed work.

Risk Reduction Activities (Optional)
The government will evaluate Risk Reduction Activities included within the proposal to determine their credibility, effectiveness, and value in overcoming the technical challenges and risks.

Section IV – Price/Cost
Although the Price/Cost Factor is not numerically scored nor receives an adjectival rating, it is important in determining that the Offeror understands the solicitation and the resources required. The Price/Cost factor is used to determine what the Offeror's proposal will likely cost the Government should it be selected for award.

The price/proposed cost will be assessed to determine reasonableness and cost realism, as well as form the basis for selection. The evaluation will be conducted in accordance with FAR 15.404.

A cost realism analysis will be conducted to ensure that a realistic price is determined and considered by the Government. Offerors should refer to FAR 2.101 for a definition of "cost realism" and to FAR 15.404-3(b) for a discussion of "probable cost". As noted in FAR 15.404-3(a), the cost realism analysis consists of "independently reviewing and evaluating specific

elements of each Offeror's proposed cost estimate to determine whether the estimated proposed cost elements are realistic for the work to be performed; reflect a clear understanding of the requirements; and are consistent with the unique methods of performance and materials described in the Offeror's technical proposal." A lack of resource realism may adversely affect the Offeror's Technical Merit findings and scores and may result in cost realism adjustments under the price/cost factor.

The total price/probable cost will be presented to the Source Selection Authority, as well as any cost assessment associated with the proposal.

Section V- Business Volume

Although the Business Volume is not numerically scored nor receives an adjectival rating, it is important in determining that the Offeror understands SVTT's goals of the Development Plan for Open Fan Flight Demonstration. Risks identified from the Business Volume evaluation will be presented to the Source Selection Authority (SSA) for consideration in making the source selection decision.

Oral Presentation

Although the Oral Presentation is not numerically scored nor receives an adjectival rating, it will be the Offeror's opportunity to present its summary of its proposal(s) to NASA. NASA will use the Oral Presentation for any technical clarifications NASA may require. No material changes to the proposal can be made during the oral presentation. If there is a material discrepancy between the written proposal and the Oral Presentation the written proposal shall prevail.

Any written material (slide decks for example) will not be evaluated and will not be considered as part of the proposal.

Evaluation Process

Each of the Technical Merit sub-factors will be evaluated based on the criteria in Table 2.

Based on the cumulative sub-factor evaluation, an adjectival rating will be given to each proposal for the Technical Merit Factor, based on the adjectival scale in Table 3. The Technical Merit Factor will not be numerically scored. Each proposal will be evaluated on its own individual merits after consideration of the evaluation results.

Table 2. Definitions of Strengths, Weaknesses, and Deficiencies

Ratings	Definition
Significant Strength	An aspect of the proposal that greatly enhances the potential for successful contract performance
Strength	An aspect of the proposal that will have some positive impact on the successful performance of the contract

Weakness	A flaw in the proposal that increases the risk of unsuccessful contract performance.
Significant Weakness	A flaw that appreciably increases the risk of unsuccessful contract performance
Deficiency	Any part of an offer that does not conform to a material requirement of a RFP. A material requirement is one that affects price, quantity, quality, or delivery, or that the RFP requires to be met at the time of proposal submission.

Table 3. Adjectival Scale for Evaluation

Ratings	Definition
Excellent	A comprehensive and thorough proposal of exceptional merit with one or more significant strengths. No deficiency or significant weakness exists.
Very Good	A proposal having no deficiency and which demonstrates overall competence. One or more significant strengths have been found, and strengths outbalance any weaknesses that exist.
Good	A proposal having no deficiency which shows a reasonably sound response. There may be strengths or weaknesses, or both. As a whole, weaknesses not offset by strengths do not significantly detract from the offeror's response.
Fair	A proposal having no deficiency and which has one or more weaknesses. Weaknesses outbalance any strengths.
Poor	A proposal that has one or more deficiencies or significant weaknesses that demonstrate a lack of overall competence or require a major proposal revision to correct.

10.1.2. Overall Evaluation for Award

In deciding which offer(s) represents the best overall value to NASA, price/cost and other factors will be considered. The SVTT project will consider technical merit to be significantly more important than evaluated cost. The best value selection decision will be made with these considerations:

If there are significant differences in technical merit among competing proposals, a more expensive proposal may be selected for award if the value of the selected proposal is deemed to be worth the price/cost differential.

Conversely, as technical scores become closer, differences in price/cost increases in importance. Total evaluated price/cost will be the determining factor for award where all proposals are considered equal from a technical merit standpoint.

NASA reserves the right to make award to other than lowest priced Offeror(s) or the highest rated Offeror(s), if deemed to be in the best interest of NASA.

NASA reserves the right to select for award one, multiple, or none of the proposals received in response to this NRA.

10.2. Partial Awards and Participation with Others

NASA reserves the right to select only a portion of a proposed activity, usually at a level of support reduced from that requested in the original proposal. Offerors should specify if a proposal is offered as a non-separable package of work. Additionally, NASA may decide to award an effort for less than the full period of the proposal. In these cases, the Offeror will be given the opportunity to accept or decline such selection. If the Offeror accepts such an offer, a revised budget and SOW may be required before funding action on the proposal can be initiated. If the Offeror declines the offer of a partial selection, or participation in a joint investigation, the offer of selection may be withdrawn in its entirety by NASA.

[End of Section]

11. PROVISIONS

A subset of provisions within this Section are incorporated by reference, with the same force and effect as if they were given in full text. Provisions incorporated by reference which require a fill-in by the Government include the text of the affected paragraph(s) only. This does not limit the provision to the affected paragraph(s). The Offeror is responsible for understanding and complying with the entire provision. The full text of the provision is available at the addresses contained in provision 52.252-1, Solicitation Provisions Incorporated by Reference.

FEDERAL ACQUISITION REGULATION (48 CFR CHAPTER 1):

52.203-11 CERTIFICATION AND DISCLOSURE REGARDING PAYMENTS TO INFLUENCE CERTAIN FEDERAL TRANSACTIONS. (SEP 2024)

52.203-18 PROHIBITION ON CONTRACTING WITH ENTITIES THAT REQUIRE CERTAIN INTERNAL CONFIDENTIALITY AGREEMENTS OR STATEMENTS-REPRESENTATION. (JAN 2017)

52.204-5 WOMEN-OWNED BUSINESS (OTHER THAN SMALL BUSINESS). (OCT 2014)

52.204-7 SYSTEM FOR AWARD MANAGEMENT—REGISTRATION. (SEP 2025) (DEVIATION)

52.209-2 PROHIBITION ON CONTRACTING WITH INVERTED DOMESTIC CORPORATIONS-REPRESENTATION. (DEC 2025) (DEVIATION)

52.214-34 SUBMISSION OF OFFERS IN THE ENGLISH LANGUAGE. (APR 1991)

52.214-35 SUBMISSION OF OFFERS IN U.S. CURRENCY. (APR 1991)

52.215-16 FACILITIES CAPITAL COST OF MONEY. (JUN 2003)

52.215-22 LIMITATIONS ON PASS-THROUGH CHARGES—IDENTIFICATION OF SUBCONTRACT EFFORT. (DEC 2025) (DEVIATION)

52.222-56 CERTIFICATION REGARDING TRAFFICKING IN PERSONS COMPLIANCE PLAN. (DEC 2025) (DEVIATION)

52.225-2 BUY AMERICAN CERTIFICATE. (OCT 2022)

52.233-2 SERVICE OF PROTEST. (SEP 2025) (DEVIATION)

52.240-90 SECURITY PROHIBITIONS AND EXCLUSIONS REPRESENTATIONS AND CERTIFICATIONS. (DEVIATION SEP 2025)

(End of FAR by reference provisions)

NASA FAR SUPPLEMENT (48 CFR CHAPTER 18) PROVISIONS:

1852.227-71 REQUESTS FOR WAIVER OF RIGHTS TO INVENTIONS. (JAN 2026) (DEVIATION)

1852.227-84 PATENT RIGHTS CLAUSES. (APR 2015)

1852.228-80 INSURANCE-IMMUNITY FROM TORT LIABILITY. (SEP 2025) (DEVIATION)

1852.233-70 PROTEST TO NASA. (SEP 2025) (DEVIATION)

1852.235-72 INSTRUCTIONS FOR RESPONDING TO NASA RESEARCH ANNOUNCEMENTS. (AUG 2025) (DEVIATION)

(End of NFS by reference provisions)

52.216-1 TYPE OF CONTRACT (DEC 2025) (DEVIATION)

The Government contemplates award of Hybrid contract resulting from this solicitation.
CLIN 01 – Firm Fixed Price
CLIN 02 – Cost Plus Fixed Fee

(End of provision)

52.219-1 SMALL BUSINESS PROGRAM REPRESENTATIONS. (FEB 2026) (DEVIATION)

(a) *Definitions*. As used in this provision-

Economically disadvantaged women-owned small business (EDWOSB) concern means a small business concern that is at least 51 percent directly and unconditionally owned by, and the management and daily business operations of which are controlled by, one or more women who are citizens of the United States and who are economically disadvantaged in accordance with 13 CFR part 127, and the concern is certified by SBA or an approved third-party certifier in accordance with 13 CFR 127.300. It automatically qualifies as a women-owned small business concern eligible under the WOSB Program.
HUBZone small business concern means a small business concern that meets the requirements described in 13 CFR 126.200, is certified by the Small Business Administration (SBA) and designated by SBA as a HUBZone small business concern in the Small Business Search (SBS) (13 CFR 126.103).
Service-disabled veteran-owned small business (SDVOSB) concern eligible under the SDVOSB Program means an SDVOSB concern that is designated in the System for Award Management (SAM) as certified by the Small Business Administration (SBA) in accordance with 13 CFR 128.300.
Small business concern—

(1) Means a concern, including its affiliates, that is independently owned and operated, not dominant in its field of operation, and qualified as a small business under the criteria in 13 CFR part 121 and the size standard in paragraph (b) of this provision.
(2) *Affiliates*, as used in this definition, means business concerns, one of whom directly or indirectly controls or has the power to control the others, or a third party or parties control or have the power to control the others. In determining whether affiliation exists, consideration is given to all appropriate factors including common ownership, common management, and contractual relationships. SBA determines affiliation based on the factors set forth at 13 CFR 121.103.

Small disadvantaged business concern means a small business concern that-

(1) Is at least 51 percent unconditionally and directly owned (as defined at 13 CFR 124.105) by one or more socially disadvantaged (as defined at 13 CFR 124.103) and economically disadvantaged (as defined at 13 CFR 124.104) individuals who are citizens of the United States, and
(2) The management and daily business operations of which are controlled (as defined at 13 CFR 124.106) by individuals who meet the criteria in paragraph (1) of this definition.

Women-owned small business (WOSB) concern eligible under the WOSB Program (in accordance with 13 CFR part 127) means a small business concern that is at least 51 percent directly and unconditionally owned by, and the management and daily business operations of which are controlled by, one or more women who are citizens of the United States, and the concern is certified by SBA or an approved third-party certifier in accordance with 13 CFR 127.300.

(b)

(1) The North American Industry Classification System (NAICS) code for this acquisition is 541715.
(2) The small business size standard is 1,500.
(3) The small business size standard for a concern that submits an offer, other than on a construction or service acquisition, but proposes to furnish an end item that it did not itself manufacture, process, or produce (*i.e.*, nonmanufacturer), is 500 employees, or 150 employees for information technology value-added resellers under NAICS code 541519, if the acquisition—

(i) Is set aside for small business and has a value above the simplified acquisition threshold;
(ii) Uses the HUBZone price evaluation preference regardless of dollar value, unless the offeror waives the price evaluation preference; or
(iii) Is an 8(a), HUBZone, service-disabled veteran-owned, economically disadvantaged women-owned, or women-owned small business set-aside or sole-source award regardless of dollar value.

(c) *Representations.*

(1) The offeror represents as part of its offer that—

(i) it □ is, □ is not a small business concern; or
(ii) It □ is, □ is not a small business joint venture that complies with the requirements of 13 CFR 121.103(h) and 13 CFR 125.8(a) and (b). [*The offeror shall enter the name and unique entity identifier of each party to the joint venture:* __.]

(2) [*Complete only if the offeror represented itself as a small business concern in paragraph (c)(1) of this provision.]* The offeror represents that it □ is, □ is not a women-owned small disadvantage business concern.
(3) *Women-owned small business (WOSB) joint venture eligible under the WOSB Program.* The offeror represents as part of its offer that it □ is, □ is not a joint venture that complies with the requirements of 13 CFR 127.506(a) through (c). [*The offeror shall enter the name and unique entity identifier of each party to the joint venture:* __.]
(4) *Economically disadvantaged women-owned small business (EDWOSB) joint venture.* The offeror represents as part of its offer that it □ is, □ is not a joint venture that complies with the requirements of 13 CFR 127.506(a) through (c). [*The offeror shall enter the name and unique entity identifier of each party to the joint venture:* __.]
(5) *SDVOSB joint venture eligible under the SDVOSB Program*. [*Complete only if the offeror is certified as a SDVOSB concern*]. The offeror represents as part of its offer that it □ is, □ is not a SDVOSB joint venture eligible under the SDVOSB Program that complies with the requirements of 13 CFR 128.402. [*The offeror shall enter the name and unique entity identifier of each party to the joint venture:*__.]

(6) *HUBZone joint venture eligible under the HUBZone Program.* [*Complete only if the offeror is a HUBZone small business concern.*] The offeror represents, as part of its offer, that it □ is, □ is not a HUBZone joint venture that complies with the requirements of 13 CFR 126.616(a) through (c). [*The offeror shall enter the name and unique entity identifier of each party to the joint venture:* __.] Each HUBZone small business concern participating in the HUBZone joint venture must be certified as a HUBZone concern.

(d) *Notice.* Under 15 U.S.C. 645(d), any person who misrepresents a firm's status as a business concern that is small, HUBZone small, small disadvantaged, service-disabled veteran-owned small, economically disadvantaged women-owned small, or women-owned small eligible under the WOSB Program in order to obtain a contract to be awarded under the preference programs established pursuant to section 8, 9, 15, 31, and 36 of the Small Business Act or any other provision of Federal law that specifically references section 8(d) for a definition of program eligibility, will be—

(1) Punished by imposition of fine, imprisonment, or both;

(2) Subject to administrative remedies, including suspension and debarment; and

(3) Ineligible for participation in programs conducted under the authority of the Act.

(End of provision)

52.226-2 HISTORICALLY BLACK COLLEGE OR UNIVERSITY AND MINORITY INSTITUTION REPRESENTATION. (OCT 2014)

(a) *Definitions.* As used in this provision -

Historically black college or university means an institution determined by the Secretary of Education to meet the requirements of 34 CFR 608.2.

Minority institution means an institution of higher education meeting the requirements of Section 365(3) of the Higher Education Act of 1965 (20 U.S.C. 1067k), including a Hispanic-serving institution of higher education, as defined in Section 502(a) of the Act (20 U.S.C. 1101a).

(b) *Representation.* The offeror represents that it -

[ ] is [ ] is not a historically black college or university;

[ ] is [ ] is not a minority institution.

(End of provision)

52.227-15 REPRESENTATION OF LIMITED RIGHTS DATA AND RESTRICTED COMPUTER SOFTWARE. (DEC 2007)

(a) This solicitation sets forth the Government's known delivery requirements for data (as defined in the clause at 52.227-14, Rights in Data - General). Any resulting contract may also provide the Government the option to order additional data under the Additional Data Requirements clause at 52.227-16, if included in the contract. Any data delivered

under the resulting contract will be subject to the Rights in Data - General clause at 52.227-14 included in this contract. Under the latter clause, a Contractor may withhold from delivery data that qualify as limited rights data or restricted computer software, and deliver form, fit, and function data instead. The latter clause also may be used with its Alternates II and/or III to obtain delivery of limited rights data or restricted computer software, marked with limited rights or restricted rights notices, as appropriate. In addition, use of Alternate V with this latter clause provides the Government the right to inspect such data at the Contractor's facility.

(b) By completing the remainder of this paragraph, the offeror represents that it has reviewed the requirements for the delivery of technical data or computer software and states [*offeror check appropriate block*] -

( ) None of the data proposed for fulfilling the data delivery requirements qualifies as limited rights data or restricted computer software; or

( ) Data proposed for fulfilling the data delivery requirements qualify as limited rights data or restricted computer software and are identified as follows:

_____

_____

_____

(c) Any identification of limited rights data or restricted computer software in the offeror's response is not determinative of the status of the data should a contract be awarded to the offeror.

(End of provision)

52.252-1 SOLICITATION PROVISIONS INCORPORATED BY REFERENCE (FEB 1998)

This solicitation incorporates one or more solicitation provisions by reference, with the same force and effect as if they were given in full text. Upon request, the Contracting Officer will make their full text available. The Offeror is cautioned that the listed provisions may include blocks that must be completed by the Offeror and submitted with its quotation or offer. In lieu of submitting the full text of those provisions, the Offeror may identify the provision by paragraph identifier and provide the appropriate information with its quotation or offer. Also, the full text of a solicitation provision may be accessed electronically at this/these address(es):

For Federal Acquisition Regulation (FAR) provisions, see
https://www.acquisition.gov/far-overhaul/far-part-deviation-guide/far-overhaul-part-52

For NASA FAR Supplement (NFS) provisions, see
http://www.hq.nasa.gov/office/procurement/regs/NFS.pdf

(End of provision)

52.252-5 AUTHORIZED DEVIATIONS IN PROVISIONS. (NOV 2020)

(a) The use in this solicitation of any Federal Acquisition Regulation (48 CFR Chapter 1) provision with an authorized deviation is indicated by the addition of "(DEVIATION)" after the date of the provision.
(b) The use in this solicitation of any NASA FAR Supplemental (NFS) (48 CFR Chapter 18) provision with an authorized deviation is indicated by the addition of "(DEVIATION)" after the name of the regulation.

(End of provision)

1852.225-72 RESTRICTION ON FUNDING ACTIVITY WITH CHINA. (DEC 2025) (DEVIATION)

(a) Definition - “China” or “Chinese-owned” means the People’s Republic of China, any company owned by the People’s Republic of China, or any company incorporated under the laws of the People’s Republic of China.
(b) Public Laws 112-10, Section 1340(a) and 112-55, Section 536, restrict NASA from contracting to participate, collaborate, or coordinate bilaterally in any way with China or a Chinese-owned company with funds appropriated on or after April 25, 2011. Contracts for commercial and non-developmental items are excepted from the prohibition as they constitute purchase of goods or services that would not involve participation, collaboration, or coordination between the parties.
(c) Representation. By submission of its offer, the offeror represents that the offeror is not China or a Chinese-owned company.

(End of provision)

1852.245–80 GOVERNMENT PROPERTY MANAGEMENT INFORMATION (DEC 2025) (DEVIATION)

(a) The offeror must identify the industry leading or voluntary consensus standards, and/or the industry leading practices, that it intends to employ for the management of Government property under any contract awarded from this solicitation.
(b) The offeror must provide the date of its last Government property control system analysis along with its overall status, a summary of findings and recommendations, the status of any recommended corrective actions, the name of the Government activity that performed the analysis, and the latest available contact information for that activity.
(c) The offeror must identify any property it intends to use in performance of this contract from the list of available Government property in the provision at 1852.245-81, List of Available Government Property.
(d) The offeror must identify all Government property in its possession, provided under other Government contracts that it intends to use in the performance of this contract. The offeror must also identify: The contract that provided the property, the responsible Contracting Officer, the dates during which the property will be available for use (including the first, last, and all intervening months), and, for any property that will be used concurrently in performing two or more contracts, the amounts of the respective uses in sufficient detail to support prorating the rent, the amount of rent that would

otherwise be charged in accordance with FAR 52.245–9, Use and Charges, and the contact information for the responsible Government Contracting Officer. The offeror must provide proof that such use was authorized by the responsible Contracting Officer.
(e) The offeror must disclose cost accounting practices that allow for direct charging of commercially available equipment, when commercially available equipment is to be used in performance of the contract and the equipment is not a deliverable.
(f) The offeror must identify, in list form, any equipment that it intends to acquire and directly charge to the Government under this contract. The list must include a description, manufacturer, model number (when available), quantity required, and estimated unit cost. Equipment approved as part of the award need not be requested under NFS clause 1852.245-70.
(g) The offeror must disclose its intention to acquire any parts, supplies, materials or equipment, to fabricate an item of equipment for use under any contract resulting from this solicitation when that item of equipment—
Will be titled to the government under the provisions of the contract; is not included as a contract deliverable; and the Contractor intends to charge the costs of materials directly to the contract. The disclosure must identify the end item or system and must include all descriptive information, identification numbers (when available), quantities required and estimated costs.
(h) Existing Government property may be reviewed at the following locations, dates, and times: N/A

(End of provision)

[End of Section]

12. Representations and Certifications

Offeror is responsible for filling-in applicable provisions below and providing with Model Contract.

52.203-2 CERTIFICATE OF INDEPENDENT PRICE DETERMINATION. (APR 1985)

(a) The offeror certifies that-

(1) The prices in this offer have been arrived at independently, without, for the purpose of restricting competition, any consultation, communication, or agreement with any other offeror or competitor relating to-

(i) Those prices;

(ii) The intention to submit an offer; or

(iii) The methods or factors used to calculate the prices offered.

(2) The prices in this offer have not been and will not be knowingly disclosed by the offeror, directly or indirectly, to any other offeror or competitor before bid opening (in the case of a sealed bid solicitation) or contract award (in the case of a negotiated solicitation) unless otherwise required by law; and

(3) No attempt has been made or will be made by the offeror to induce any other concern to submit or not to submit an offer for the purpose of restricting competition.

(b) Each signature on the offer is considered to be a certification by the signatory that the signatory-

(1) Is the person in the offeror's organization responsible for determining the prices being offered in this bid or proposal, and that the signatory has not participated and will not participate in any action contrary to paragraphs (a)(1) through (a)(3) of this provision; or

(2)(i) Has been authorized, in writing, to act as agent for the following principals in certifying that those principals have not participated, and will not participate in any action contrary to paragraphs (a)(1) through (a)(3) of this provision _____ [insert full name of person(s) in the offeror's organization responsible for determining the prices offered in this bid or proposal, and the title of his or her position in the offeror's organization];

(ii) As an authorized agent, does certify that the principals named in subdivision (b)(2)(i) of this provision have not participated, and will not participate, in any action contrary to paragraphs (a)(1) through (a)(3) of this provision; and

(iii) As an agent, has not personally participated, and will not participate, in any action contrary to paragraphs (a)(1) through (a)(3) of this provision.

(c) If the offeror deletes or modifies subparagraph (a)(2) above, the offeror must furnish with its offer a signed statement setting forth in detail the circumstances of the disclosure.

(End of provision)

52.209-5 CERTIFICATION REGARDING RESPONSIBILITY MATTERS. (DEC 2025) (DEVIATION)

(a) (1) The Offeror certifies, to the best of its knowledge and belief, that—

(i) The Offeror and/or any of its Principals—

(A) Are □ are not □ presently debarred, suspended, proposed for debarment, or declared ineligible for the award of contracts by any Federal agency;

(B) Have □ have not □, within a three-year period preceding this offer, been convicted of or had a civil judgment rendered against them for: commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (Federal, State, or local) contract or subcontract; violation of Federal or State antitrust statutes relating to the submission of offers; or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, tax evasion, violating Federal criminal tax laws, or receiving stolen

property (if offeror checks "have", the offeror shall also see 52.209-7, if included in this solicitation);

(C) Are □ are not □ presently indicted for, or otherwise criminally or civilly charged by a governmental entity with, commission of any of the offenses enumerated in paragraph (a)(1)(i)(B) of this provision; and

(D) Have □, have not □, within a three-year period preceding this offer, been notified of any delinquent Federal taxes in an amount that exceeds the threshold at 9.104-5(a)(2) for which the liability remains unsatisfied. Federal taxes are considered delinquent if both of the following criteria apply:

(*1*) *The tax liability is finally determined*. The liability is finally determined if it has been assessed. A liability is not finally determined if a pending administrative or judicial challenge remains. In the case of a judicial challenge to the liability, the liability is not finally determined until all judicial appeal rights have been exhausted.

(*2*) *The taxpayer is delinquent in making payment*. A taxpayer is delinquent if the taxpayer has failed to pay the tax liability when full payment was due and required. A taxpayer is not delinquent in cases where enforced collection action is precluded.

(ii) The Offeror has □ has not □, within a 3-year period preceding this offer, had one or more contracts terminated for default by any Federal agency.

(2) "Principal," for the purposes of this certification, means an officer, director, owner, partner, or a person having primary management or supervisory responsibilities within a business entity (*e.g.*, general manager; plant manager; head of a division or business segment; and similar positions).

(b) The Offeror shall provide immediate written notice to the Contracting Officer if, at any time prior to contract award, the Offeror learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.

(c) A certification that any of the items in paragraph (a) of this provision exists will not necessarily result in withholding of an award under this solicitation. However, the Government will consider the certification in connection with a determination of the Offeror's responsibility. Failure of the Offeror to furnish a certification or provide such additional information as requested by the Contracting Officer may render the Offeror nonresponsible.

(d) This provision does not require establishment of a system of records in order to render, in good faith, the certification required by paragraph (a). The knowledge and information of an Offeror is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

(e) The certification in paragraph (a) of this provision is a material representation of fact upon which reliance was placed when making award. If the Government later determines that the Offeror knowingly rendered an erroneous certification, in addition to other remedies available to the Government, the Contracting Officer may terminate the contract resulting from this solicitation for default.

(End of provision)

52.209-7 INFORMATION REGARDING RESPONSIBILITY MATTERS. (DEC 2025) (DEVIATION)

(a) Definitions. As used in this provision—

Administrative proceeding means a non-judicial process that is adjudicatory in nature in order to make a determination of fault or liability (e.g., Securities and Exchange Commission Administrative Proceedings, Civilian Board of Contract Appeals Proceedings, and Armed Services Board of Contract Appeals Proceedings). This includes administrative proceedings at the Federal and State level but only in connection with performance of a Federal contract or grant. It does not include agency actions such as contract audits, site visits, corrective plans, or inspection of deliverables.

Federal contracts and grants with total value greater than $10,000,000 means—

(1) The total value of all current, active contracts and grants, including all priced options; and

(2) The total value of all current, active orders including all priced options under indefinite-delivery, indefinite-quantity, 8(a), or requirements contracts (including task and delivery and multiple-award Schedules).

Principal means an officer, director, owner, partner, or a person having primary management or supervisory responsibilities within a business entity (e.g., general manager; plant manager; head of a division or business segment; and similar positions).

(b) The Offeror ___ has ___ does not have current active Federal contracts and grants with total value greater than $10,000,000.

(c) If the Offeror checked "has" in paragraph (b) of this provision, the Offeror represents, by submission of this offer, that the information it has entered in the Federal Awardee Performance and Integrity Information System (FAPIIS) is current, accurate, and complete as of the date of submission of this offer with regard to the following information:

(1) Whether the Offeror, and/or any of its principals, has or has not, within the last five years, in connection with the award to or performance by the Offeror of a Federal contract or grant, been the subject of a proceeding, at the Federal or State level that resulted in any of the following dispositions:

(i) In a criminal proceeding, a conviction.

(ii) In a civil proceeding, a finding of fault and liability that results in the payment of a monetary fine, penalty, reimbursement, restitution, or damages of $5,000 or more.

(iii) In an administrative proceeding, a finding of fault and liability that results in–

(A) The payment of a monetary fine or penalty of $5,000 or more; or

(B) The payment of a reimbursement, restitution, or damages in excess of $100,000.

(iv) In a criminal, civil, or administrative proceeding, a disposition of the matter by consent or compromise with an acknowledgment of fault by the Offeror if the proceeding could have led to any of the outcomes specified in paragraphs (c)(1)(i), (c)(1)(ii), or (c)(1)(iii) of this provision.

(2) If the Offeror has been involved in the last five years in any of the occurrences listed in (c)(1) of this provision, whether the Offeror has provided the requested information with regard to each occurrence.

(d) The Offeror shall post the information in paragraphs (c)(1)(i) through (c)(1)(iv) of this provision in FAPIIS as required through maintaining an active registration in the System for Award Management, which can be accessed via https://www.sam.gov (see 52.204-7).

(End of provision)

52.209-11 REPRESENTATION BY CORPORATIONS REGARDING DELINQUENT TAX LIABILITY OR A FELONY CONVICTION UNDER ANY FEDERAL LAW. (DEC 2025) (DEVIATION)

(a) As required by sections 744 and 745 of Division E of the Consolidated and Further Continuing Appropriations Act, 2015 (Pub. L. 113-235), and similar provisions, if contained in subsequent appropriations acts, the Government will not enter into a contract with any corporation that -

(1) Has any unpaid Federal tax liability that has been assessed, for which all judicial and administrative remedies have been exhausted or have lapsed, and that is not being paid in a timely manner pursuant to an agreement with the authority responsible for collecting the tax liability, where the awarding agency is aware of the unpaid tax liability, unless an agency has considered suspension or debarment of the corporation and made a determination that suspension or debarment is not necessary to protect the interests of the Government; or

(2) Was convicted of a felony criminal violation under any Federal law within the preceding 24 months, where the awarding agency is aware of the conviction, unless an agency has considered suspension or debarment of the corporation and made a determination that this action is not necessary to protect the interests of the Government.

(b) The Offeror represents that -

(1) It is [ ] is not [ ] a corporation that has any unpaid Federal tax liability that has been assessed, for which all judicial and administrative remedies have been exhausted or have lapsed, and that is not being paid in a timely manner pursuant to an agreement with the authority responsible for collecting the tax liability; and

(2) It is [ ] is not [ ] a corporation that was convicted of a felony criminal violation under a Federal law within the preceding 24 months.

(End of provision)

52.215-6 PLACE OF PERFORMANCE. (DEC 2025) (DEVIATION)

(a) The offeror or respondent, in the performance of any contract resulting from this solicitation, □ intends, □ does not intend [*check applicable block*] to use one or more plants or facilities located at a different address from the address of the offeror or respondent as indicated in this proposal or response to request for information.

(b) If the offeror or respondent checks "intends" in paragraph (a) of this provision, it shall insert in the following spaces the required information:

Place of performance (street address, city, state, county, zip code)	Name and address of owner and operator of the plant or facility if other than offeror or respondent

(End of provision)

52.227-15 REPRESENTATION OF LIMITED RIGHTS DATA AND RESTRICTED COMPUTER SOFTWARE. (DEC 2007)

(a) This solicitation sets forth the Government's known delivery requirements for data (as defined in the clause at 52.227-14, Rights in Data - General). Any resulting contract may also provide the Government the option to order additional data under the Additional Data Requirements clause at 52.227-16, if included in the contract. Any data delivered under the resulting contract will be subject to the Rights in Data - General clause at 52.227-14 included in this contract. Under the latter clause, a Contractor may withhold from delivery data that qualify as limited rights data or restricted computer software, and deliver form, fit, and function data instead. The latter clause also may be used with its Alternates II and/or III to obtain delivery of limited rights data or restricted computer software, marked with limited rights or restricted rights notices, as appropriate. In addition, use of Alternate V with this latter clause provides the Government the right to inspect such data at the Contractor's facility.

(b) By completing the remainder of this paragraph, the offeror represents that it has reviewed the requirements for the delivery of technical data or computer software and states [*offeror check appropriate block*] -

( ) None of the data proposed for fulfilling the data delivery requirements qualifies as limited rights data or restricted computer software; or

( ) Data proposed for fulfilling the data delivery requirements qualify as limited rights data or restricted computer software and are identified as follows:

[Offeror Shall Identify Any Such Data in accordance with clause IDENTIFICATION AND REPRESENTATION OF LIMITED RIGHTS DATA AND RESTRICTED COMPUTER SOFTWARE of the Model Contract]

(c) Any identification of limited rights data or restricted computer software in the offeror's response is not determinative of the status of the data should a contract be awarded to the offeror.

(End of provision)

52.230-1 COST ACCOUNTING STANDARDS NOTICES AND CERTIFICATION. (JAN 2026) (DEVIATION)

Note: This notice does not apply to small businesses or foreign governments. This notice is in three parts, identified by Roman numerals I through III.

Offerors shall examine each part and provide the requested information in order to determine Cost Accounting Standards (CAS) requirements applicable to any resultant contract.

If the offeror is an educational institution, part II does not apply unless the contemplated contract will be subject to full or modified CAS coverage pursuant to 48 CFR 9903.201-2(c)(5) or 9903.201-2(c)(6), respectively.

I. Disclosure Statement-Cost Accounting Practices and Certification

(a) Any contract in excess of the lower CAS threshold specified in Federal Acquisition Regulation (FAR) 30.205(b) resulting from this solicitation will be subject to the requirements of the Cost Accounting Standards Board (48 CFR chapter 99), except for those contracts which are exempt as specified in 48 CFR 9903.201-1.

(b) Any offeror submitting a proposal which, if accepted, will result in a contract subject to the requirements of 48 CFR chapter 99 must, as a condition of contracting, submit a Disclosure Statement as required by 48 CFR 9903.202. When required, the Disclosure Statement must be submitted as a part of the offeror's proposal under this solicitation unless the offeror has already submitted a Disclosure Statement disclosing the practices used in connection with the pricing of this proposal. If an applicable Disclosure Statement has already been submitted, the offeror may satisfy the requirement for submission by providing the information requested in paragraph (c) of part I of this provision.

Caution: In the absence of specific regulations or agreement, a practice disclosed in a Disclosure Statement shall not, by virtue of such disclosure, be deemed to be a proper, approved, or agreed-to practice for pricing proposals or accumulating and providing contract performance cost data.

(c) Check the appropriate box below:

(1) □ *Certificate of Concurrent Submission of Disclosure Statement*. The offeror hereby certifies that, as a part of the offer, copies of the Disclosure Statement have been submitted as follows:

(i) Original and one copy to the cognizant Administrative Contracting Officer (ACO) or cognizant Federal agency official authorized to act in that capacity (Federal official), as applicable; and

(ii) One copy to the cognizant Federal auditor.
(Disclosure must be on Form No. CASB DS-1 or CASB DS-2, as applicable. Forms may be obtained from the cognizant ACO or Federal official.)
Date of Disclosure Statement: _____ Name and Address of Cognizant ACO or Federal Official Where Filed: _____
The offeror further certifies that the practices used in estimating costs in pricing this proposal are consistent with the cost accounting practices disclosed in the Disclosure Statement.

(2) □ *Certificate of Previously Submitted Disclosure Statement*. The offeror hereby certifies that the required Disclosure Statement was filed as follows:
Date of Disclosure Statement: _____ Name and Address of Cognizant ACO or Federal Official Where Filed: _____
The offeror further certifies that the practices used in estimating costs in pricing this proposal are consistent with the cost accounting practices disclosed in the applicable Disclosure Statement.

(3) □ *Certificate of Monetary Exemption*. The offeror hereby certifies that the offeror, together with all divisions, subsidiaries, and affiliates under common control, did not receive net awards of negotiated prime contracts and subcontracts subject to CAS totaling $50 million or more in the cost accounting period immediately preceding the period in which this proposal was submitted. The offeror further certifies that if such status changes before an award resulting from this proposal, the offeror will advise the Contracting Officer immediately.

(4) □ *Certificate of Interim Exemption*. The offeror hereby certifies that (i) the offeror first exceeded the monetary exemption for disclosure, as defined in (3) of this subsection, in the cost accounting period immediately preceding the period in which this offer was submitted and (ii) in accordance with 48 CFR 9903.202-1, the offeror is not yet required to submit a Disclosure Statement. The offeror further certifies that if an award resulting from this proposal has not been made within 90 days after the end of that period, the offeror will immediately submit a revised certificate to the Contracting Officer, in the form specified under paragraph (c)(1) or (c)(2) of part I of this provision, as appropriate, to verify submission of a completed Disclosure Statement.

Caution: Offerors currently required to disclose because they were awarded a CAS-covered prime contract or subcontract of $50 million or more in the current cost accounting period may not claim this exemption (4). Further, the exemption applies only in connection with proposals submitted before expiration of the 90-day period following the cost accounting period in which the monetary exemption was exceeded.

II. Cost Accounting Standards-Eligibility for Modified Contract Coverage

If the offeror is eligible to use the modified provisions of 48 CFR 9903.201-2(b) and elects to do so, the offeror shall indicate by checking the box below. Checking the box below shall mean that the resultant contract is subject to the Disclosure and Consistency of Cost Accounting Practices clause in lieu of the Cost Accounting Standards clause.
□ The offeror hereby claims an exemption from the Cost Accounting Standards clause under the provisions of 48 CFR 9903.201-2(b) and certifies that the offeror is eligible for use of the Disclosure and Consistency of Cost Accounting Practices clause because during the cost accounting period immediately preceding the period in which this proposal was submitted, the offeror received less than $50 million in awards of CAS-covered prime contracts and subcontracts. The offeror further certifies that if such status changes before an award resulting from this proposal, the offeror will advise the Contracting Officer immediately.
Caution: An offeror may not claim the above eligibility for modified contract coverage if this proposal is expected to result in the award of a CAS-covered contract of $50 million or more or if, during its current cost accounting period, the offeror has been awarded a single CAS-covered prime contract or subcontract of $50 million or more.

III. Additional Cost Accounting Standards Applicable to Existing Contracts
The offeror shall indicate below whether award of the contemplated contract would, in accordance with paragraph (a)(3) of the Cost Accounting Standards clause, require a change in established cost accounting practices affecting existing contracts and subcontracts.

□ Yes □ No

(End of provision)

52.230-7 PROPOSAL DISCLOSURE—COST ACCOUNTING PRACTICE CHANGES (APR 2005)

The Offeror shall check "yes" below if the contract award will result in a required or unilateral change in cost accounting practice, including unilateral changes requested to be desirable changes.

□ Yes □ No

If the Offeror checked "Yes" above, the Offeror shall-

(1) Prepare the price proposal in response to the solicitation using the changed practice for the period of performance for which the practice will be used; and
(2) Submit a description of the changed cost accounting practice to the Contracting Officer and the Cognizant Federal Agency Official as pricing support for the proposal.

(End of provision)

13. SUMMARY OF KEY INFORMATION

Expected budget for awards	~$5.0M (May Be Spread Across Multiple Awards)
Maximum duration of award	12 months
Final day to submit clarifying questions	5:00 PM EDT June 27, 2026
Submission due date	5:00 PM EDT August 3, 2026
Submission of proposals sent via email to:	See Section 9 for NASA Box Submittal Instructions
Award type	Contract- Hybrid FFP and CPFF
NASA points of contact (POC) NASA will post any Q&A on Sam.gov so that all Offerors will have access to the same information.	Email Questions to: hunter.c.butkovic@nasa.gov brianna.lindsey@nasa.gov Written responses will be posted on the www.sam.gov
