Required Delivery Date	07/09/2027	**Option**	N	**Option %**	**Days**
Estimated Value	[redacted]				
Ship To					

Period of Performance: Expected Final Delivery Date

Line of Accounting	97 00 XX XX 4930 NC1A 000 81004 0 050120 7R 000000 8PMF00000000 SHIP TO W25G1U QTY 200
List of Items/Item Description	

4. Statutory Authority Permitting Other Than Full & Open Competition

This justification is based upon the statutory authority of 41 U.S.C. 1901.

5. Rationale Justifying Use of Cited Authority

A/RMC 3

Acquire, for the second or subsequent time, directly from the actual manufacturer.

A/RMSC R

The Government does not own the data or the rights to the data needed to purchase / contract repair of this part from additional sources. It has been determined to be uneconomical to buy the data or rights to the data. It is uneconomical to reverse engineer the part. This code is used when the Government did not initially purchase the data and/or rights. If only one source has the rights or data to manufacture/repair this item, A/RMCs 3, 4, or 5 are valid. If two or more sources have the rights or data to manufacture/repair this item, A/RMCs 1 or 2 are valid.

This acquisition will be negotiated with

General Electric Company - (CAGE 07482) is the only known source that has/owns the data, and it has been deemed uneconomical to pursue the acquisition of the data because the data and its content are not available. There are no authorized substitutes of this item as this is the only item known to meet performance and compatibility requirements within the higher assembly. Furthermore, there is no data to support an open and full competition.

6. Description of Efforts Made To Solicit Offers From as Many Offerors as Practicable

The proposed contract action will be synopsized in the government-wide point of entry

The following sources have expressed an interest, in writing, in this acquisition

7. Determination of Fair And Reasonable Cost

The contracting officer determines that the anticipated cost to the Government of the supplies covered by this J&A will be fair and reasonable. A price analysis will be conducted using historical pricing, the Producer Price Index (PPI), and learning curve analysis. The offeror(s) may be requested to submit information other than cost or pricing data for determining price reasonableness. Based on the above techniques, the Contracting Officer anticipates the costs to the Government will be fair and reasonable. The buyer will review the purchase history for the NSN and if needed a comparison with similar items. The NSN will not be awarded unless a fair and reasonable determination can be made on pricing.

8. Actions to Remove Barriers to Future Competition

To promote competition, NAVSUP WSS will continue to encourage vendors with the expertise to manufacture/repair the subject item to submit a complete technical data package for review and source approval by the appropriate engineering source approval authority per the (WSS) guidelines. Also, future requirements will be advertised on the government-wide point of entry. For reasons set forth in Paragraph (5 & 6), NAVSUP WSS has no plans at this time to compete future contracts for the subject item covered by this document. If another potential manufacturing source emerges, NAVSUP WSS will assess whether competition for future requirements is feasible. Also, future requirements will be advertised on the government-wide point of entry.
