Compliance requirements (Part 2): Ensuring the website meets all federal and legal standards for security, accessibility, privacy, and digital service delivery.

Automatic registration readiness capabilities (Part 3): Integrates the website with SSS web applications to support automatic registration and streamline workflows.

User Acceptance Testing (UAT) and Project Oversight (Part 4): Test all website features and integrations in a controlled environment to confirm functionality, mission alignment, and readiness for launch as well as ensure project oversight.

Operations and Sustainment (Part 5):

Provide ongoing collaborative support to SSS through operational assistance, training, documentation, and communication to ensure effective and successful service delivery.

Operations Testing Program (Part 6 – Optional CLIN):

Provide an operations testing platform to support secure experimentation and operational evaluation activities. This is an optional requirement at a later date and is dependent on future mission requirements and funding availability.

Note: The contractor shall deliver a final Project Plan to SSS within 10 calendar days of contract award (*See sections 7.1 and 7.2 for complete list of milestones and deliverables*).

Part 2 – Compliance Requirements:

2.1 Cloud Infrastructure and Hosting

The Contractor shall:

- Provide a FedRAMP-authorized cloud Azure infrastructure supporting multi-AZ/high availability architecture.
- Create a virtual Private Cloud (VPC) configuration.
- Build in web Application Firewall (WAF)VPN access for secure administrative operations.
- Create an automated code build and deployment pipelines.
- Users with a secure website login page (Username and password, with authentication requirements).
- Implement URL redirection to preserve legacy links and ensure smooth navigation and user experience.
- Build in security controls monitored to protect against unauthorized activity and emerging threats.
