Excavation Permit Application Instructions

Complete the yellow highlighted areas and attach a drawing/map displaying the exact location you intend to dig.

When completed, send request to the following email address: excavationpermits@inframap.net.

Once we receive the permit, you will be provided with a permit number to be used for tracking during the permit processing.

When the permit is completed and approved, a final copy of the permit will be sent via email.

Note that an approved APG DPW IJO request number or an approved APG DPW Service Order (S.O.) request number is required. **No work on APG can commence without an approved IJO or S.O. per AR 420.1.**
