Purpose: The Department of Veterans Affairs (VA) is seeking to identify contractors capable of performing the specified requirement below:

Requirement: Eastern Oklahoma VA Health Care System (EOVAHCS) requires a Contractor to provide full leasing, preventative maintenance, and repair services for scopes for surgical use. The objective of this scope of work is to define the requirements, responsibilities, and expectations involved in the acquisition and use of Urology ENT equipment. The goal is to ensure the safe, effective, and standardized deployment of Urology ENT.

Location: Tulsa Oklahoma VA Medical Center.

GENERAL REQUIREMENTS

Firms responding shall specify they can meet the required specifications:

- See Statement of Work

Contractors shall provide:

- A completed copy of Business information listed below with a capabilities statement.

For a contract of this size, scope and complexity, the successful Contractor must provide products and perform in a professional manner and quality as recognized by commercial industry standards as good to excellent. Contractor must provide to the COR and CO, and maintain for the life of the contract, written certification from the Original Equipment Manufacturer (OEM) that authorizes the Contractor to provide and assemble the products, as detailed in the Contractor's quote and identified in this SOW.

The Contractor shall have the ability to repair/service the equipment per the Original Equipment Manufacturers (OEM) specifications in order to not void the leased equipment's warranty. The

Contractor shall provide full preventative maintenance and repair service coverage for all contracted equipment. The preventative maintenance and repair services shall be completed by OEM certified service personnel. The contractor shall submit equipment service reports to the Contracting Officer's Representative (COR), confirming completion of said repair/maintenance service that was provided. Contract performance shall be

monitored using this report, indicating the timeliness of the repair, the completion of the services provided, and shall act as a guide for confirming that the repaired equipment is operational.
