Section M – Evaluation Factors for Award

M.1 Basis of Award.

M.1.1 The basis of award will be the best value to Government. The Government will evaluate each submission as a whole and make an award to the entity that, in the Government's estimation, provides the greatest overall benefit in response to the requirement considering price and non-price factors combined.

M.1.2 The total price, for the base period and each option period combined, will be evaluated by the Government. The Government may determine that an offer is unacceptable if the option prices are mathematically and materially unbalanced. Evaluation of options shall not obligate the Government to exercise the option(s). ***As part of price evaluation, the Government will evaluate its option to extend services (FAR Clause 52.217-8) by adding one-half of the offeror's final option period prices to the quoter's total price. Thus, the quoter's total price for the purpose of evaluation will include the base period, 1st option, 2nd option, 3rd option, 4th option, and 1/2 of the 4th option.*** As indicated in FAR 52.217-8 the Government will have the option to extend the performance of the purchase order up to an additional 6 months when the Contractor is provided written notice.

M.1.3 Award may be made to other than the lowest priced quote if the Government determines that a price premium is warranted due to technical merit.

M.1.4 The Government intends to evaluate all submissions and make an award without further communications with submitters. The Government reserves the right to conduct further communications if the Contracting Officer later determines them to be necessary.

M.1.5 The Government intends to make a single award resulting from this solicitation.

M.2 Order of Importance. Factor 1, Qualifications of Proposed Key Personnel, and Factor 2, Relevant Corporate Experience, are the most important factors and together are more important than Factor 3, Past Performance. When combined, the non-price factors are more important than price.

M.3 Non-Price Evaluation Factors.

M.3.1 Factor 1: Contractor Compliance with the Statement of Work. The Government will evaluate the responses provided in Attachment J-2, Contractor Compliance with Statement of Work, for compliance with the requirements identified in solicitation Attachment J-1, Section C, Statement of Work, and compliance with any other solicitation requirements included in Attachment J-1

M.3.2 Factor 2: Relevant Corporate Experience. The Government will assess the extent and nature of experience of the submitter in providing project(s) that are similar in size, scope, and complexity to the work identified in solicitation Attachment J-1, Section C, Statement of Work.

M.3.3 Factor 3: Past Performance.

M.3.3.1 An assessment of the Quoter's past performance will be evaluated for projects that are considered similar in size, scope, and complexity with regard to:

a. Quality and timeliness of deliverables and services;
b. Effective management of subcontractors, if any;
c. Cost control;
d. Business relations (how well the submitter responds to customer and effectiveness of response);
e. Proactive management; and
f. Customer satisfaction.

M.3.3.2 The assessment of the Quoter's past performance is based on:

a. The Government's review of past performance information submitted via any timely received past performance questionnaires or completed CPARS evaluations for prime contractor and subcontractor projects submitted under Factor 2, Relevant Corporate Experience;

b. The outcome of any contact made with any references included in any information submitted in response to this solicitation; and/or

c. Any other past performance information obtained by the Government from other sources the Government deems appropriate.

M.3.3.3 If any subcontractors are proposed, the same assessment identified above for each subcontractor will be performed.

M.4 Price.

M.4.1 The submitter's total price will be evaluated for completeness and reasonableness in relation to the solicitation requirements. All prices for all CLINs will be added to arrive at a total evaluated price. Proposed prices must be entirely compatible with the technical submission.

M.4.2 Evaluation of options shall not obligate the Government to exercise the option(s). ***As part of price evaluation, the Government will evaluate its option to extend services (FAR Clause 52.217-8) by adding one-half of the quoter's final option period price to the quoter's total price. Thus, the quoter's total price for the purpose of evaluation will include the base period, 1st option, 2nd option, 3rd option, 4th option, and 1/2 of the 4th option.*** As indicated in FAR 52.217-8 the Government will have the option to extend the performance of the award up to an additional 6 months when the Contractor is provided written notice. ***The Contractor is not required to provide pricing in its quote submission for the optional six-month extension period authorized by FAR 52.217-8.***

M.4.3 In addition to the above, the Contractor's quote will be evaluated for compliance regarding the submission of ***all information required by the cover letter identified in solicitation Attachment J-6.***
