TABLES & CHAIRS
MINIMUM SPECIFICATIONS & REQUIREMENTS

12 June 2026

BACKGROUND

The existing tables and chairs at Volk Field Air National Guard Base (ANGB) Runways Edge all Ranks Facility are approximately 20 years old, and their age is increasingly evident in both appearance and functionality. As these furnishings have exceeded their expected service life, they no longer reflect the modern, professional environment that the facility strives to maintain. Replacing the current furniture with updated, durable, and visually contemporary options will significantly enhance the overall aesthetic of the facility. Modernizing the furnishings will not only improve daily usability and comfort but will also help preserve and elevate the appearance and reputation of Volk Field ANGB. Updated tables and chairs will demonstrate a continued commitment to quality, professionalism, and readiness—attributes essential to the mission and image of the installation.

GENERAL REQUIREMENTS

1. All products shall be manufactured to commercial-grade durability standards suitable for hospitality, restaurant, or high-traffic environments
2. Wood components shall be Oak or Oak-veneered materials
3. All finishes must be consistent across all products
4. All dimensions listed are nominal and must fall within ± 1/8" tolerance unless otherwise stated
5. All upholstery materials must meet minimum 1.2 mm thickness and comply with standard abrasion and wear-resistance requirements

TABLETOPS

A. SQUARE OAK TABLETOPS (Qty: 15 Each)

- Dimensions: 36" × 36"
- Thickness: 2"
- Surface Finish: Thermally Fused Laminate (TFL) on both sides
- Edge Profile: Square or eased edge
- Color/Finish: Weather Barnwood Oak tone
- Performance Requirements:
    - Scratch-resistant
    - Heat-resistant
    - Moisture-resistant
    - Suitable for commercial cleaning products

B. ROUND OAK TABLETOPS (Qty: 15 Each)

- Diameter: 36"
- Thickness: 2"
- Surface Finish: Thermally Fused Laminate (TFL) on both sides
- Edge Profile: Rounded or eased edge
- Color/Finish: Weather Barnwood Oak tone (matching square tops)
- Performance Requirements:
    - Scratch-resistant
    - Heat-resistant
    - Moisture-resistant
    - Suitable for commercial cleaning products
