Relevant Experience

The purpose of this form is for the offeror to list projects (preferably performed during the past five (5) years) that are similar to the work described in this solicitation. The number of projects listed shall not exceed ten (10) and shall be numbered consecutively, beginning with the most recent project. Use this form to address your familiarity with the Scope of Work described in the plans and specifications and with the capability criteria described in the Request for Proposal. Include area codes with all telephone numbers. Type or print legibly.

The Government may contact the entities listed herein to obtain past performance reviews of the offeror's team. Past performance is a measure of the degree to which the Offeror satisfied its customers in the past and complied with federal, state, and local laws and regulations. The past performance of the offeror, key personnel (if applicable), and proposed subcontractors on projects similar in scope and complexity (i.e. relevant to the current project) will be evaluated in the areas of quality, timeliness, and business relations. It is especially important that the offeror disclose instances in which their past performance may be considered by others to be less than fully satisfactory. The offeror should tell their side of the story and describe remedial corrective action that has been taken or will be taken to correct the deficiency. Failure to do so may result in a determination that an offeror has been less than candid with the Government, which could result in an unfavorable assessment of the offeror's past performance record.
