Evaluation Factors for Award

52.212-2 Evaluation--Commercial Products and Commercial Services Addendum.

(a) The Government will award a contract resulting from this solicitation to the responsible offeror whose offer conforming to the solicitation will be most advantageous to the Government, price and other factors considered. The following factors shall be used to evaluate offers:

1. Lowest Price Technically Acceptable.

*Technical Acceptability is achieved when offeror provides proof, in the form of a technical narrative, that the offeror meets the minimum standards of the requirement identified in the Attachment 1 - Statement of Work dated May 7, 2026. Each offeror's technical narrative (no more than 5 pages) will receive a rating (acceptable/ unacceptable).

Note: Failure to provide a technical approach will prevent the Government from being able to evaluate an offeror's technical acceptability resulting in an "unacceptable" rating. Additionally, the Government will arrange quotation from lowest total price to highest price, then the Government will evaluate the first 3 offers for acceptability. If adequate competition exists, no further quotation will be evaluated. Evaluation will continue in blocks of 3 if adequate competition is not received.
