6. The Government intends to make an award based on initial quotations, without conducting post submittal-inquiries. Therefore, it is critical that Quoters submit all required information with their initial quote. The Government reserves the right, but is not obligated, to contact a Quoter to remedy a failure to provide administrative information (e.g., product literature or photographs) or to address clerical errors. This process, if used, is not a quote revision and will not be used to allow a Quoter to change the substance of its quote.

Evaluation Criteria

RFO provision 52.212-2, Evaluation - Commercial Products and Commercial Services, applies to this acquisition.

As prescribed in RFO 12.205(a)(2), the following addendum is provided for this solicitation and hereby amends any language therein:

Request for Quotation

(a) The Government intends to award a single, firm, fixed price purchase order to the responsible Quoter whose quote conforming to the solicitation represents the Best Value to the Government, price and other factors considered. The following factors will be used to evaluate quotes: **(i) Technical Capability, (ii) Price, and (iii) Past Performance.** Technical capability is pass/fail. To be considered for award, a quote must be rated technically acceptable. When conducting the Best Value determination, past performance is approximately equal in importance to price.

TECHNICAL CAPABILITY: A Quoter's quotation will be considered technically acceptable if it meets all the specifications in Attachment 1 – Salient Characteristics. To demonstrate technical compliance, Quoters must submit product literature and clear photographs for each unique item. For clarity, the literature/photography requirement applies to each distinct product type, not to the total quantity being procured. The Government will use this information to validate the technical requirements. Quotations that do not meet all technical requirements will be considered unacceptable and will not be considered for award.

PRICE: Price will be evaluated on a comparative basis amongst all received quotations and the Government's estimate. Pricing must be submitted on Attachment 2 - Price Schedule FA452826RBO001. Quotes that do not use the provided Price Schedule may be considered unacceptable and may be ineligible for award.

PAST PERFORMANCE: Past Performance will be considered for award. This may include reviewing performance information reported to the Contractor Performance Assessment Reporting System, as well as other relevant sources of information.
