EVALUATION FACTORS AND CRITERIA

1. Factor Identification - The Government will evaluate the offerors using the following factors.

- Factor 1 – Technical Specification
- Factor 2 – Delivery Plan
- Factor 3 – Price

2. Order of Importance - Factor 1, Technical Specification is the most important factor, and more important than Factor 2, Delivery Plan. The non-price factors 1 and 2 combined are more important than factor 3, Price.
3. Basis of Award - Award will be made based upon the offeror's proposal that provides the best value to the Government using the evaluation factors and tradeoff process. All evaluation factors other than price, when combined, are more important than price.

PROPOSAL INSTRUCTIONS:

1. **Technical Proposal**

A. Factor 1 – Technical Specification
The offerors shall demonstrate at meeting the technical specifications for both forklifts (**Crown Mono-lift RMD-6025-32 Double Reach Mono Lift and Crown Mono Lift RMD-6025-45 Single Reach Forklift)** as outlined in the two (2) Statement of Work documents, section 3.1 (Technical Evaluating Factors)

[1] In this document, citations to Revolutionary FAR Overhaul (RFO) Part 12, are citations specifically to Federal Acquisition Regulation (FAR) Class Deviation 25-21, which was issued as part of the Revolutionary FAR Overhaul (RFO), which was implemented in response to Executive Order 14275, Restoring Common Sense to Federal Procurement, signed April 15, 2025.

2. Non-Technical Proposal

A. Factor 3 – Price

EVALUATON METHODOLOGY:

1. Technical Proposal Evaluation

A. Technical Evaluation Ratings and Definitions – Each offeror's technical proposal will be evaluated for completeness and to determine whether the proposed approach meets the requirement and criteria as specified in the SOW. The table below provides definitions of the adjectival ratings to be used in evaluating each offeror's technical proposal for Factors 1 and 2.

RATING	DESCRIPTION
High Confidence	The Government has high confidence that the Offeror understands the requirement, proposes a sound approach, and will be successful in performing the contract with little or no Government intervention.
Some Confidence	The Government has some confidence that the Offeror understands the requirement, proposes a sound approach, and will be successful in performing the contract with some Government intervention.
Low Confidence	The Government has low confidence that the Offeror understands the requirement, proposes a sound approach, or will be successful in performing the contract even with Government intervention.

B. Factor 1 – Technical Specification
The technical specification will be evaluated to determine whether the offeror's proposed items meet the minimum technical specificities outlined in the SOW section 3.1 (Technical Evaluating Factors)

C. Factor 2 – Delivery Plan
The Delivery Plan will be evaluated for the earliest and reasonable dates, considering weather and transportation available considerations.

2. Price Proposal Evaluation

A. Price proposal evaluation will not receive an adjectival rating.

B. The Government will perform price evaluation to determine whether proposed prices are fair and reasonable. For the price to be reasonable in its nature and amount, it should not exceed that which would be incurred by a prudent person in the conduct of a competitive business. Offerors are cautioned that unreasonably high prices may cause your proposal to be deemed not fair and unreasonable.

A. The Government reserves the right to also perform price evaluation to determine whether the proposed prices are realistic. For the price to be realistic, it should not

be overly optimistic and impractically low. Offerors are cautioned that unrealistically low prices, as to pose a risk to the completion of the work, may cause your proposal to be deemed unrealistic and do not pose clear understanding of the scope.

B. In evaluating price, the Government will utilize one or more proposal analysis techniques from FAR 15.404-1. Examples of such techniques include, but are not limited to the following:

- Comparison of proposed prices received in response to the solicitation.
- Comparison of proposed prices to historical prices paid, whether by the Government or other than the Government, for the same or similar items.
- Comparison with competitive published price lists, published market prices of commodities, similar indexes, and discount or rebate arrangements.
- Comparison of proposed prices with independent Government cost estimates.
- Comparison of proposed prices with prices obtained through market research for the same or similar services.

Quotes shall be in accordance with this section. Failure to submit quotes according to the Instructions provided within the solicitation may result in the respondent's quote not being considered for award. All interested parties shall be registered in the System for Award Management (SAM) at time an offer or quotation is submitted.

(4) Information necessary to evaluate the factors contained in the provision at 52.212-2 or as described in the solicitation;
(5) Responses to provisions that require Offeror completion of information, representations, and certifications (other than those collected via the System for Award Management (SAM)); and

(b) Period for acceptance of offers. The Offeror agrees to hold the prices in its offer firm for 60 calendar days from the date specified for receipt of offers, unless another time period is specified in an addendum to the solicitation.

(c) Late submissions, modifications, revisions, and withdrawals of offers.

(1) Offerors are responsible for submitting offers and any modifications or revisions to the Government office designated in the solicitation by the time specified in the solicitation.
(2) Any offer, modification, or revision received after the time specified for receipt of offers is “late” and will not be considered unless it is received before award is made and the Contracting Officer determines that accepting the late offer would not unduly delay the acquisition. However, a late modification of an otherwise successful offer that makes its terms more favorable to the Government will be considered at any time it is received Page 51 of 465 and may be accepted.
(3) If an emergency or unanticipated event interrupts normal Government processes so that offers cannot be received at the Government office designated for receipt of offers by the exact time specified in the solicitation, and urgent Government requirements preclude amendment of the solicitation or other notice of an extension of the closing date, the time specified for receipt of offers will be deemed to be extended to the same time of day specified in the solicitation on the first work day on which normal Government processes resume.
(4) Offerors may withdraw their offers by written notice to the Government received at any time before award.

(d) Contract award (not applicable to Invitation for Bids). The Government intends to evaluate offers and award a contract without discussions with Offerors. Therefore, the Offeror’s initial offer should contain the Offeror’s best terms. However, the Government reserves the right to conduct discussions, if necessary. The Government may reject any or all offers if such action is in the public interest, accept other than the lowest offer, and waive informalities and minor irregularities in offers received.
