Section L

FAR 52.212-1 Addendum:
Instructions, Conditions, & Notices to Offerors or Quoters

Offerors shall comply with all instructions contained in FAR 52.212-1, Instructions to Offerors Commercial Items, and the following addendum instructions to FAR 52.212-1:

a) *Submission of offers*. Submit signed and dated proposals in electronic format to Kayla Corsi (kayla.corsi@us.af.mil) and Laura Burnette (laura.burnette@us.af.mil) by the due date specified on page 1 of the SF 1449. Be advised that all correspondence sent via email shall contain a subject line that reads "FA8626-26-R-B001, Engine Water Wash" and that if you send attachments with email, ensure only .pdf, .docx, or .xlsx documents are sent. Note: .zip or .exe files are not allowable attachments and may be deleted. It is the contractor's responsibility to follow up with the listed POC to ensure their proposal and any attachments are received on time. Since award will be based on initial responses, offerors are highly encouraged to quote their most advantageous pricing in their initial response.

b) *Period for acceptance of offers*. The offeror agrees to hold the prices in its offer firm for 120 calendar days from the date specified on page 1 of the SF 1449 for receipt of offers.

c) Tailoring of FAR 52.212-1(e) *Multiple offers*, is hereby deleted from this solicitation and that paragraph is marked RESERVED.

d) The offeror shall provide two separate volumes with minimal cross-referencing:

a. Volume I - Technical Capability, Page limit - 20 pages maximum

i. Subfactor 1 - Schedule and Wash Effectiveness (PWS 1.1.1, 1.1.2, 1.2.1,1.3.1.1, 1.4)

Description: The offeror shall provide a detailed approach for effectively washing the engine core. At a minimum:

1. Provide a plan to support no less than two locations in each region simultaneously regardless of engine type at contract award. The approach shall describe the quantity of wash equipment and number of personnel available to support these wash locations simultaneously. The plan shall demonstrate ability to support all five regions within two weeks of contract award.

2. An approach to provide mobile, direct core, self-contained water wash system that utilizes heated, deionized water plus detergent and volume for each

specific engine to wet the compressor blade and turbine airfoil surfaces. At a minimum, the approach shall describe make and model of equipment, detergent type, water volume capacity and adjustments required to accommodate the different engine washes.

ii. Subfactor 2 - Environmental Plan (PWS 1.1.1.2, 1.6.1)

Description: The offeror shall provide an environment plan to collect and recycle for reuse or dispose of engine wash effluent. The approach must address how the offeror will comply with all federal, state and local environmental laws and regulations.

iii. Subfactor 3 - Equipment Procedures (PWS 1.3.3.2, 1.5.1.2)

Description: The offeror shall provide an approach for procedures. At a minimum, the approach shall:

1. Describe a safety plan to include contractor vehicle operation/positioning and how wash equipment installation/operation is completed safely and without damage or harm to Government equipment and personnel. The description shall address how the equipment is Foreign Object Damage (FOD) free, to include design and procedures showing how the equipment is mounted using damage free mounting hardware. Offeror shall provide pictures and diagrams. Offeror shall also include a formal risk assessment of their equipment and mounting procedures along with a Risk Mitigation Plan to address any potential FOD hazards.

2. Provide an approach to operate on USAF flightline with Consolidated Tool Kit procedures.

iv. Subfactor 4 - Subcontractor Management & Small Business Participation (PWS 1.8.5)

Description: The offeror shall:

1. Provide a plan for subcontractor management and shall ensure compliance with FAR 52.219-8, Utilization of Small Business Concerns. If the offeror is a large business, the offeror shall also submit a subcontracting plan in compliance with FAR 52.219-9, Small Business Subcontracting Plan.

2. Submit Attachment 2, Small Business Participation Commitment Document (SBPCD), which specifies the Offeror's level of commitment to small business utilization for the effort to be performed. A SBPCD is required from all Offerors, to include small businesses. This also applies to companies with commercial plans and comprehensive subcontracting plans. The winning Offeror's SBPCD will be incorporated as an attachment to the awarded contract.

Note: The SBPCD is separate from the Subcontracting Plan required by FAR 19.704, which Small Businesses are exempt from, but Large Businesses are not.

v. Subfactor 5 - Prior Experience

Description: This subfactor will evaluate the offeror's prior experience for a minimum of one relevant water wash contract/job performed within five years of the issue date of the solicitation that were similar in type and scale to those described in the PWS. Offerors shall:

1. Provide evidence of current or recent experience in performing the services, either from a current contract or one performed within five years from the date of this solicitation release, that are similar in scope and magnitude to the services described in the PWS. This narrative shall include details of services recently being performed (within five (5) years of the solicitation issue date) by the offeror as a prime contractor or a subcontractor of a Government contract. Contract numbers, issuing departments/agencies, and contract award dates shall be included.

2. If a subcontractor/partnership agreement is proposed, the prime contractor will provide a written narrative specifying the proposed work and prior experience for each subcontractor that is similar in scope and magnitude to the services described in the PWS. This narrative shall include details of services recently being performed, or that have been performed within five (5) years of the solicitation issue date, by the subcontractor as a prime contractor or a subcontractor on a Government contract. Contract numbers, issuing departments/agencies, and contract award dates shall be included.

b. Volume II - Price Proposal and Contract Documentation - Page limit - Unlimited

Description: The offeror shall provide:

i. Provide a completed Attachment 6, Pricing Matrix.

ii. A completed copy of the Standard Form (SF)1449. The offeror shall complete blocks 17a, 26, 30a, 30b, and 30c of the SF1449 cover sheet. For purposes of proposal submission, ignore the entry '(For Govt. Use Only)' in block 26. All 'fill-in' provisions included in the SF 1449 shall be completed prior to proposal submission. The offeror shall enter unit prices and extended prices for all CLINs. **State all prices in United States Currency (USD) using only whole dollar amounts.** Signature by the offeror on the SF 1449 constitutes an offer, which the Government may accept.

iii. Provide completed Representations & Certifications. The Government's preference is that representations and certifications, required by the solicitation, are completed online. However, if offerors have not completed representations and certifications required by the solicitation online and/or not all of the provisions are certified online, then they must submit a hard copy of the applicable representations and certifications with their proposals in the same form as incorporated into the solicitation.

e) Notice to Offeror(s)/Supplier(s): Funds are not presently available for this effort. No award will be made under this solicitation until funds are available. The Government reserves the right to cancel this solicitation, either before or after the closing date. In the event the Government cancels this solicitation, the Government has no obligation to reimburse an offeror for any costs.

(End of Provision)

Section M
FAR 52.212-2 Addendum:
Evaluation Factors for Award

Offerors shall comply with FAR 52.212-2, Evaluation - Commercial Products and Commercial Services and the following addendum instructions to FAR 52.212-2:

(a) The Government will use FAR Part 13 Simplified Acquisition Procedures vs. FAR 15.3 Source Selection to evaluate offers submitted in response to the solicitation. The factors that shall be used to evaluate proposals are **Technical Capability** and **Price**. A proposal is unawardable at any price if, after final evaluation, the Technical Capability Evaluation Factor receives a rating of "Unacceptable". The evaluation permits tradeoffs between price and technical risk. Technical Capability is significantly more important than Price. The Government will award a contract resulting from this solicitation which provides the best value. The following factors shall be used to evaluate offers:

i. Factor 1 - Technical Capability

a. Subfactor 1 - Schedule and Wash Effectiveness (Technical Acceptable/Unacceptable Rating Method)
b. Subfactor 2 - Environmental Plan (Technical Acceptable/Unacceptable Rating Method)
c. Subfactor 3 - Equipment Procedures (Step 1: Technical Acceptable/Unacceptable Rating Method and Step 2: Technical Risk Rating Method)
d. Subfactor 4 - Subcontractor Management & Small Business Participation (Technical Acceptable/Unacceptable Rating Method)
e. Subfactor 5 - Prior Experience (Technical Acceptable/Unacceptable Rating Method)

ii. Factor 2 – Price

See *FAR 52.212-1 Addendum: Instructions, Conditions, & Notices to Offerors or Quoters paragraph d)* for required submissions for each Evaluation Factor and subfactors.

Definitions for evaluation are below:

Table 1: Technical Acceptable/Unacceptable Rating Method	
Rating	**Description**
Acceptable	Proposal clearly meets minimum requirements of the solicitation. This is accomplished by demonstrating an adequate approach and understanding of the requirements, small business objectives, and/or providing all required information.
Unacceptable	Proposal does not meet requirements of the solicitation and, thus, contains one or more deficiencies and is un-awardable and/or does not meet small business objectives.

Table 2: Technical Risk Rating Method	
Low	Proposal may contain weakness(es) which have little potential to cause disruption of schedule or degradation of performance. Normal contractor effort and normal Government monitoring will likely be able to overcome any difficulties.
Moderate	Proposal contains a significant weakness or combination of weaknesses which may potentially cause disruption of schedule or degradation of performance. Special contractor emphasis and close Government monitoring will likely be able to overcome difficulties.
High	Proposal contains a significant weakness or combination of weaknesses which is likely to cause significant disruption of schedule or degradation of performance. Is unlikely to overcome any difficulties, even with special contractor emphasis and close Government monitoring.
Unacceptable	Proposal contains a material failure or a combination of significant weaknesses that increases the risk of unsuccessful performance to an unacceptable level.

(b) Options. The Government will evaluate offers for award purposes by adding the total price for all options to the total price for the basic requirement. The Government may

determine that an offer is unacceptable if the option prices are significantly unbalanced. Evaluation of options shall not obligate the Government to exercise the option(s).

(c) A written notice of award or acceptance of an offer, mailed or otherwise furnished to the successful offeror within the time for acceptance specified in the offer, shall result in a binding contract without further action by either party. Before the offer's specified expiration time, the Government may accept an offer (or part of an offer), whether or not there are negotiations after its receipt, unless a written notice of withdrawal is received before award.

(End of provision)
