As the Original Equipment Manufacturer (OEM) of the above item, Elbitamerica, Inc. (Cage Code 0WEC9), owns all rights to the technical data, specifications, and drawings required for manufacture. The item to be manufactured is complex and must meet critical operational and reliability requirements, the achievement of which requires unique production techniques and extensive and/or sophisticated testing. The Government does not own or possess any rights to the technical data, specifications, and drawings required to manufacture this item and it has been determined that it is uneconomical to purchase it. This component is the only one approved by the USCG's Aircraft Configuration Control Board for use on the MH-60T helicopter. In addition, USCG Aviation Engineering has assigned the item an Acquisition Method Code (AMC) of 3.
