SOLICITATION NO.: SPE7MX26R0038

The use of the authority at 10 U.S.C. 3204(a)(1) is based on:
[**X**] AMC 3. Acquire, for the second or subsequent time, directly from the manufacturer.

The following AMSC descriptions are-available in DFARS PGI 217.7506 Part 2.

[**X**] AMSC D. The data needed to acquire this part competitively is not physically available, it cannot be obtained economically, nor is it possible to draft adequate specifications or any other adequate, economical description of the material for a competitive solicitation. AMCS 3, 4, or 5 are valid.

Companies listed at table in paragraph 5 are the only approved manufacturing sources by the design control activity. This manufacturer retains data rights, or technical data that are not economically available to the Government, and the data or knowledge is essential to maintaining the quality of the part. Although DLA does not possess adequate data, lacks rights to data, and/or has no record of an alternate Design Control Activity approved source. The data presently available reflects the minimum needs of the Government. Also, it was indicated that there is no outstanding DLA Form 339 request for additional sources.

On **2/9/2026**, the Product Specialist of record certified the accuracy of the approved source(s) and applicable AMC/AMSC codes. A copy of the certificate is attached.

6. The following efforts are being made to ensure that offers are solicited from as many sources as practicable:

[**X**] A sources sought notice was posted on SAM.gov from 2/25/26 to 3/4/2026. There were no responses received.

7. I hereby determine that the anticipated cost to the Government will be fair and reasonable.

A price analysis will be conducted based on a comparison of proposed prices received in response to the solicitation and/or a comparison of proposed prices to historical prices paid. Certified cost or pricing data, when required by FAR 15.403-4, and data other than certified cost or pricing data, will be requested and obtained as necessary to establish a fair and reasonable price, and a cost analysis may be performed on the data submitted.
