MEMORANDUM TO THE FILE FOR
AMS PID: 104-0091

Subject: DECISION TO RESTRICT COMPETITION FOR COMMERCIAL ACQUISITION UNDER THE SIMPLIFIED ACQUISITION THRESHOLD (SAT)

IDENTIFICATION OF SOURCE -
Vendor Name: Online Resources INC and All Authorized Distributors
Vendor City/State: Lebanon, IN
CAGE Code: 59NR7

[redacted]: [redacted]

RFO FAR 12.102(a) authorizes the use of restricting competition for acquisitions of commercial products and commercial services not exceeding the SAT when the Contracting Officer determines that only one source is reasonably available due to circumstances such as urgency, exclusive licensing, brand-name requirements, or industrial mobilization.

In accordance with RFO FAR 12.102(a), this memorandum documents the absence of competition for this commercial acquisition. Only one source will be solicited for this requirement (or a portion thereof), and the total value is not expected to exceed the SAT.

I. DESCRIPTION OF ITEM OR SERVICE:

Provide a description of the item or service required, to include its intended use, the name of the required source or brand name, and the required delivery date/period of performance.

Requirement is for Geomagic software to support NSWC Crane [redacted] for standardized engineering toolset offerings across base.

Design X/Control X Inspection Suite Maintenance Renewal Qty 4
Geomagic Control X Professional Maintenance Renewal - NWA Qty 1
Geomagic Design X Maintenance Renewal - NWA Qty 3
Geomagic Control X Professional Maintenance Renewal - NWA Qty 1
Geomagic Design X Maintenance Renewal - NWA Qty 3

II. THE DETERMINATION FOR USE OF RESTRICTING COMPETITION IS BASED ON THE FOLLOWING: <*Select applicable sole-source rationale category*>

[X] **ONLY ONE RESPONSIBLE SOURCE (select all that apply):**

[ ] **RESTRICTIVE RIGHTS.** The source has established proprietary rights, limited rights in data, patent rights, copyrights or secret processes in the item or service required.

[ ] **EXCLUSIVE LICENSING AGREEMENTS.** The item or service is only available from the Original Equipment Manufacturer (OEM), or there is only one authorized distributor or technical representative for the OEM.

[ ] **OTHER REASONS.** Other reasons not identified above. Provide details on mission impact if requirement is not solicited from only one source.

[■] **BRAND NAME**. Item required must be a brand name product, or feature of a product, particular to one manufacturer.

Geomagic Design X software is used to generate parametric models from point clouds collected by digital measurement equipment including Coordinate Measurement Machines (CMM) and laser scanning devices. The software interfaces with NSWC Crane [redacted] existing digital measurement equipment as well as NX modeling software. NSWC Crane engineering personnel are formally trained on this software and have been utilizing it as our primary means of point cloud metrology analysis for almost four years. The efficiency of model generation using the various tools built into the software, as well as the increased accuracy made possible by the Accuracy Analyzer feature in this software, have led to an increase in requests for the [redacted] to provide these services.

Maintenance of these seats cannot be performed by anyone other than 3D Systems Inc. If maintenance is not renewed, technical support and software updates will no longer be available. This will result in a degradation of this capability and increased cost and delays to mission support.

[redacted]

Geomagic Design X and Geomagic Control X are both 3D Systems products. The OEM is the only source that can provide maintenance for their software. As part of this maintenance, 3D Systems will provide critical software updates and technical support for user issues.

☐ **UNUSUAL AND COMPELLING URGENCY**. The supplies or services are of such unusual and compelling urgency that the Government would be seriously injured unless the agency is permitted to limit the number of sources from which it solicits, bids, or proposals. Urgent requirements are supplies or services that will result in a work stoppage or are mission critical, and the routine processing time would result in injury to the Government. The determination that the procurement for the above product/service requires unusual and compelling urgency is based on the following:

1. Date on which the requirement was first identified:

2. Required delivery date/period of performance:

3. Explanation of why delivery/commencement of services by the date mentioned above is required:

4. If appropriate, include any additional pertinent information.

III. CERTIFICATION/APPROVALS:

Technical/Requirements Certifications: I certify that the facts and representation under my cognizance which are included in this justification are complete and accurate to the best of my knowledge and belief.

[redacted]

Certification/Approval

I, as the Contracting Officer, based on the certification above, have determined that only one source is reasonably available for this procurement, precluding competition in accordance with RFO FAR 12.102(a) and RFO DFARS 212. An acquisition limiting competition is therefore justified.
