G-216-H003 ORDERING PROCESS FOR MULTIPLE AWARD CONTRACTS (MAC - NAVSEA) (MAY 2019) (May 2019)

(a) General. One or more orders may be issued during the performance period of this contract. The Contractor agrees to accept and perform orders issued by the Contracting Officer within the scope and within the maximum value of this contract. It is understood and agreed that the Government has no obligation to issue any orders except the minimum order. In the event of any inconsistency between any order and the contract, the contract shall take precedence.

(b) Fair Opportunity

(1) All Orders in excess of $3,500 to be awarded under this MAC will be competed per FAR 16.505(b)(1)(i), Fair Opportunity, and DFARS 216.505-70, Ordering Under Multiple Award Contracts, unless one of the exceptions to fair opportunity in FAR 16.505(b)(2)(i) applies. Per FAR 16.505(b)(1) and DFARS 216.505-70, Orders will be tailored to specific project requirements and awarded per the evaluation criteria established in the Order solicitation. Exceptions to fair opportunity will be processed per FAR 16.505(b)(2(ii).

(2) During the Fair Opportunity Process, the Government may: elect to conduct a restricted or an unrestricted competition. The Government may elect to restrict competition for Orders, either totally or in part, to Small Businesses or other available Small Business Administration (SBA) small business designations (i.e., 8(a), HubZone, Service Disabled Veteran Owned Small Business (SDVOSB), Economically Disadvantaged Women-Owned Small Business (EDWOSB). The Order solicitation will notify Offerors if the Order will be solicited on a restricted or an unrestricted basis.

(3) In order to be eligible as a Small Business or as a specific SBA small business designation during the competitive ordering process, the Offeror must have had that status at the time of proposal submission that resulted in the award of the Base IDIQ contract award. For competitive order solicitations that are restricted to Small Business, 8(a) ,HubZone, SDVOSB, EDWOSB, or WOSB, the Prime Contractor agrees:

(a) For services, at least 50 percent of the cost of contract performance incurred for personnel shall be expended for employees of the prime or other business with the same SBA small business designation; and,

DRAFT

(b) For supplies (other than acquisition from a non-manufacturer of the supplies), the prime or other business with the same SBA small business designation shall perform work for at least 50 percent of the cost of manufacturing the supplies, not including the cost of materials. (See FAR 52.219-3, FAR 52.219-14, FAR 52.219-27, FAR 52.219-29, FAR 52.219-30).

(c) Competitive Ordering Process.

(1) Pre solicitation and solicitation. All IDIQ holders will receive notification of the posting at the time a proposed Order is posted to the SeaPort portal. All proposed Orders will incorporate all terms of the IDIQ contract unless otherwise specified in the proposed Order. IDIQ holders will be provided a reasonable response period to prepare and submit proposals based on the estimated dollar value and complexity of the proposed Order. If less than 30 days' response time was allowed and only one offer was received, the Order shall be resolicited per DFARS 215.371-2 except as provided in DFARS 215.371-4 and 215.371-5.

(a) The due date will be set forth in each solicitation.

(b) For each solicitation for which the Contractor chooses to submit a proposal, before the closing date and time specified in the solicitation, the Contractor and its subcontractors shall sign their proposal and submit it through the SeaPort portal.

(c) Proposals received from IDIQ holders not eligible to participate will not be considered.

(2) Evaluation. The Government will evaluate responses against selection criteria contained in the RFP. At a minimum, evaluation criteria will include:

(a) Price/Cost: For Cost Plus Fixed Fee Orders, the Offeror's proposal shall include a detailed cost proposal addressing all elements of cost and the applicable fixed fee for all resources required to accomplish the requirement as set forth in the RFP. For Firm Fixed Price Orders, only the firm fixed price needs to be submitted, unless otherwise specified in the RFP.

(b) Conflict of interest information, if applicable

(c) Past Performance information

(d) Other selection criteria relevant to particular Order (e.g., technical approach, technical capability, key personnel, staffing, etc.)

(e) Relative importance of the selection criteria

(f) For each individual Order requiring data deliverables, the contractor shall identify and receive written Government approval from the Contracting Officer prior to committing to the use of any privately developed items, components, processes, computer software, and/or technical data which they:

i. intend to deliver with limited rights

ii. intend to deliver with restricted rights

iii. have not yet determined if such rights should apply.

(g) Small business participation objectives will be identified in each solicitation. The objective for individual requirements may differ from the 20% small business participation objective at the basic contract level.

(3) Order Execution/Award. Upon completion of evaluations, the Contracting Officer will issue an Order to the awardee whose proposal is most advantageous to the Government under the selection criteria set forth in the RFP. The Government reserves the right to award one, more than one, or no orders following completion

of evaluations. The Contracting Officer will notify the IDIQ holders of the selection decision. All Orders will be issued electronically via the SeaPort portal, including those issued under an exception to fair opportunity.

(d) Electronic Processes

(1) General. The SeaPort Portal is accessible through the NAVSEA professional support services web site (www.seaport.navy.mil). SeaPort establishes a system in which electronic signatures, transactions, contracts, and records have the same legal effect as their paper-based counterparts, per the "Electronic Signatures in Global and National Commerce Act" (ESIGN) (Public Law 106-229; codified at 15 USC 7001-7006) and the "Government Paperwork Elimination Act" (GPEA) (Public Law 105-277; codified at 44 USC 3504 Note):

(a) Only authorized persons are permitted to engage in legally binding electronic activities, such as signing/submitting a proposal, and signing/awarding the Order. The SeaPort system requires user accounts having predetermined authority requirements (i.e., authority to legally bind the user's organization), and having username and password controls. Contractors shall only have access to the contractor side of the portal. The Contractor shall identify at least one employee, and alternate employees, having the authority to sign legally binding documents, including proposals, on behalf of the Contractor. Order Contracting Officers authorized to sign and award legally binding Orders shall be identified.

(b) The authorized user is required to confirm the intention to engage in any legally binding electronic action. The SeaPort Portal will display a notice that the user has requested a legally binding activity and shall require an affirmative/confirming response before the system will permit the requested action. The affirmative/confirming response serves as the electronic signature event.

(c) When an authorized user requests and confirms a binding action, the system automatically and securely records that event and stores the legally binding event related to that action, including (i) the authorized user (account) that requested/confirmed the binding action; (ii) the date and time the binding event occurred; and (iii) a final or "locked down" copy of the information, documents, or other materials associated with the binding event (e.g., a copy of the proposal or Order).

(d) Once the information related to a legally binding event is stored by the system, that information (i) cannot be altered or modified by any user--including the authorized user who initiated and confirmed the action; and, (ii) remains accessible and retrievable by the parties throughout the records retention period required by law.

(2) Order Solicitations: The Contracting Officer for the Order logs in to the SeaPort Portal and electronically generates and releases the Order solicitation. The binding version of the Order solicitation is posted to the SeaPort Portal in Portable Document Format (PDF)

(3) Electronic Offers/Proposals:

(a) For each Order solicitation that the Contractor chooses to submit a proposal, before the closing date and time specified in the Order solicitation, an authorized, Contractor-designated, officer or employee with authority to bind the company logs on to the SeaPort system and generates/uploads the proposal materials.

(b) When the authorized user indicates that the proposal is ready for submission, the system prompts the user to confirm the intent to electronically sign and submit the proposal materials. Entering an affirmative /confirmatory response to this prompt is an electronic signature on the proposal materials, and constitutes the electronic submission of a legally binding offer by the Contractor. It is noted that in the event that an amendment is issued to a solicitation after a proposal has been submitted, the proposal will need to be uploaded again in the system.

DRAFT

(c) Once electronically signed/submitted, the proposal materials cannot be modified except by submitting a new, amended proposal using the same signing/submission process (prior to the closing date/time).

(d) In the event the SeaPort system is not operational, experiences technical difficulties, or a contractor is temporarily unable to access or use the system, the Contractor shall immediately notify the Contracting Officer prior to the closing time of the solicitation. The Contracting Officer will provide specific instructions regarding submission of proposals. Absent technical difficulties, all proposals shall be submitted electronically per the procedures set forth in this text.

(4) Order Execution/Award:

(a) Upon receipt of the offers, proposals will be evaluated per the evaluation criteria set forth in the Order solicitation. When the evaluation has been completed and a contractor has been selected for award of the Order, the Contracting Officer logs on to the SeaPort Portal and generates/uploads the Order materials, including information provided by the successful Offeror (e.g., price/cost information) as well as all other terms and conditions of the binding Order.

(b) When the Contracting Officer indicates the Order is ready for award, the system issues the prompt to confirm the intent to electronically sign and award the Order. Entering an affirmative/confirmatory response to this prompt is the Contracting Officer's electronic signature on the Order, constitutes the electronic award of the Order; and generates a final PDF version of the Order. This PDF version is treated as the legally binding, executed, version of the Order and a copy of the awarded Order will be forwarded electronically to the successful contractor.

(c) Once awarded, the Order cannot be modified except by the Contracting Officer by electronically signing/awarding an Order modification using the processes.

(5) Consent to access. The administration of this contract will entail the use of the web-based portal described in paragraph D.1. The contractor agrees that use of the portal is to be considered authorization to allow the contractor retained for the purpose of operating and maintaining the portal access to any data submitted (including cost and pricing data, data the contractor might otherwise consider proprietary and data that meets the definition of "trade secret" as used in the context of 18 USC 1905). The consent to access that is to be inferred for the use of the portal shall also be granted by any subcontractor or team member who makes a direct submission of information to the Government. The Government shall consider submission of data via the portal to be consent to access only by the portal administrative contractor. The current portal administrative contractor is C[illegible] Consult[illegible]

(e) Orders. Each individual Order may include cost reimbursable, fixed price (FP), or any combination of the two types of line items (CLINs). For example, an Order may request a Cost Plus Fixed Fee (CPFF) proposal for the first year of the Order with any subsequent year to be offered as FP. Individual Orders may contain positive or negative financial incentives for technical, schedule or cost performance. The FP Orders shall include specific metrics and quality assurance plans. Orders and revisions thereto shall be made in writing and be signed by the Contracting Officer. Each Order shall, as appropriate:

(g) Ombudsman Description. The Order Ombudsman is available to the Contractor to assist in the resolution of complaints arising under the issuance of any Order under this contract. Utilization of the Ombudsman process is optional. In the case of Orders valued in excess of $25 million, the Contractor may either go to the Ombudsman or to the GAO, but not both. Per FAR 16.505(a)(10)(i)(B), no protest under FAR Subpart 33.1 is authorized in connection with the issuance or proposed issuance of an Order valued at $25 million or less under this contract, including Contracting Officer decisions regarding fair opportunity, except for a protest on the grounds that an Order increases the scope or maximum value of this contract. If a Contractor elects to utilize the Order Ombudsman process, the Contractor is instructed to first contact the Contracting Officer for issue resolution. If the issue is not able to be resolved, it shall then be elevated to the Order Ombudsman. The Order Ombudsman is identified in Section G of the contract. The Government reserves the unilateral right to change Ombudsman at any time. The contractor will be notified of any such change. The Contractor authorizes the Ombudsman to disclose to other parties or nonparties any information submitted to the Ombudsman that, in the judgment of the Ombudsman, must be disclosed within Government channels to the extent deemed necessary by the Ombudsman to facilitate understanding of the issue or issues. The Contractor also authorizes the Ombudsman to disclose to other parties or to nonparties any information submitted to the Ombudsman that, in the judgment of the Ombudsman, must be disclosed to prevent or investigate fraud, waste, abuse, criminal activity or imminent physical harm. Per FAR 16.505(a)(10)(i)(B) protests of Orders valued in excess of $25 million may only be filed per the procedures at FAR 33.104. 52.229-11 Tax on Certain Foreign Procurements-Notice and Representation. (Jun 2020)

TAX ON CERTAIN FOREIGN PROCUREMENTS-NOTICE AND REPRESENTATION (JUN 2020)

(a) *Definitions*. As used in this provision-

Foreign person means any person other than a United States person.

Specified Federal procurement payment means any payment made pursuant to a contract with a foreign contracting party that is for goods, manufactured or produced, or services provided in a foreign country that is not a party to an international procurement agreement with the United States. For purposes of the prior sentence, a foreign country does not include an outlying area of the United States.

United States person as defined in 26 U.S.C. 7701(a)(30) means

(1) A citizen or resident of the United States;

(2) A domestic partnership;

(3) A domestic corporation;

(4) Any estate (other than a foreign estate, within the meaning of 26 U.S.C. 7701(a)(31)); and

(ii) One or more United States persons have the authority to control all substantial decisions of the trust.

(b) Unless exempted, there is a 2 percent tax of the amount of a specified Federal procurement payment on any foreign person receiving such payment. See 26 U.S.C. 5000C and its implementing regulations at 26 CFR 1.5000C-1 through 1.5000C-7.

(c) Exemptions from withholding under this provision are described at 26 CFR 1.5000C-1(d)(5) through (7). The Offeror may claim an exemption from the withholding by using the Department of the Treasury Internal Revenue Service (IRS) Form W-14, Certificate of Foreign Contracting Party Receiving Federal Procurement Payments, available at www.irs.gov/w14. Any exemption claimed and self-certified on the IRS Form W-14 is subject to audit by the IRS. Any disputes regarding the imposition and collection of the 26 U.S.C. 5000C tax are adjudicated by the IRS as the 26 U.S.C. 5000C tax is a tax matter, not a contract issue. The IRS Form W-14 is provided to the acquiring agency rather than to the IRS.

(d) For purposes of withholding under 26 U.S.C. 5000C, the Offeror represents that

(1) It ☐ is ☐ is not a foreign person; and

(e) If the Offeror represents it is a foreign person in paragraph (d)(1) of this provision, then-

(1) The clause at FAR 52.229-12, Tax on Certain Foreign Procurements, will be included in any resulting contract; and

(2) The Offeror shall submit with its offer the IRS Form W-14. If the IRS Form W-14 is not submitted with the offer, exemptions will not be applied to any resulting contract and the Government will withhold a full 2 percent of each payment.

(f) If the Offeror selects "is" in paragraph (d)(1) and "partial or no exemption" in paragraph (d)(2) of this provision, the Offeror will be subject to withholding in accordance with the clause at FAR 52.229-12, Tax on Certain Foreign Procurements, in any resulting contract.

(g) A taxpayer may, for a fee, seek advice from the IRS as to the proper tax treatment of a transaction. This is called a private letter ruling. Also, the IRS may publish a revenue ruling, which is an official interpretation by the IRS of the Internal Revenue Code, related statutes, tax treaties, and regulations. A revenue ruling is the conclusion of the IRS on how the law is applied to a specific set of facts. For questions relating to the interpretation of the IRS regulations go to https://www.irs.gov/help/tax-law-questions.

c) In requesting proposals from prospective subcontractors, the Contractor shall provide all necessary information for the requirement. The Government will not advise subcontractors as to the requirements for their transactions with the Prime Contractor, nor will the Government respond to direct inquiries from prospective subcontractors concerning clarifications of specifications or solicitation requirements. L-209-H009 NOTIFICATION OF POTENTIAL ORGANIZATIONAL OR PERSONAL CONFLICT (S) OF INTEREST (NAVSEA) (APR 2022) (Apr 2022)

(a) Offerors are reminded that certain existing contractual arrangements may preclude, restrict or limit participation, in whole or in part, either as a subcontractor or as a prime contractor under this competitive procurement. Of primary concern are those contractual arrangements in which the Offeror provides support to _____ , or related laboratories (if applicable), in support of operation of the office or any of its programs. General guidance may be found in FAR 9.505; however, this guidance is not all-inclusive. The Offeror's attention is directed to the "Organizational Conflict of Interest" (OCI) or similar requirement which may be contained in current or completed contract(s) which prohibits the prime or subcontractor from providing certain supplies or services to the Government as described above during the period of the current "support" contract(s) or for a period after completion of the "support" contract(s). Notwithstanding the existence or non-existence of an OCI or similar requirement in current or completed contract(s), the Offeror shall comply with FAR subpart 9.5 and identify whether an OCI exists and not rely solely on the presence of an OCI or similar requirement.

(b) Offerors also are reminded that certain potential conflicts of interest may arise where an Offeror has unequal access to nonpublic information about a competitor that may provide the Offeror with an unfair competitive advantage and preclude, restrict or limit participation, in whole or in part, either of the individual, subcontractor or prime contractor under this competitive procurement. For example, a potential conflict may arise if former Department of Navy employee(s), subcontractors, or teaming partners of the Offeror may have gained access to nonpublic information about a competitor through participation in previous or ongoing performance or during the solicitation development/source selection process associated with this competitive procurement, and then participates in the formation of the Offeror's proposal. Other potential conflicts of interest may arise where either the former Department of Navy employee(s), subcontractors, or teaming partners of the Offeror under this competitive procurement set the ground rules for competition; for example, by drafting specifications or assisting in the drafting of the statement of work. General guidance may be found in FAR 3.104 and 9.505; however, this guidance is not all-inclusive.

(c) If an Offeror identifies a potential conflict of interest that exists at the time that Offeror is requested to notify the Contracting Officer within 14 days of the date of this solicitation. The Offeror shall provide: (1) the contract or previous source selection's solicitation number and name and phone number of the Contracting Officer for the contract which gives rise to a potential conflict of interest; (2) a copy of the requirement; (3) the statement of work and technical instruction from the existing contract, as applicable; (4) a brief description of the type of work to be performed by each subcontractor under the competitive procurement; (5) a brief description of the individual's, subcontractor's or teaming partner's unequal access to nonpublic information about a competitor, which may lead to a conflict of interest in the formation of the Offeror's proposal, or establishment of ground rules for this competitive procurement, as applicable; (6) an OCI mitigation plan, as applicable; and (7) any additional information the Contracting Officer should consider in making a determination of whether a conflict of interest exists. The Government may independently verify the information received from the Offeror. The requirement to identify potential conflicts of interest as outlined herein continues until contract award. Notwithstanding the above, the Government reserves the right to determine whether a conflict of interest exists based on any information received from any source.

(d) The Government will notify an Offeror of any conflict of interest within 14 days of receipt of all required information. Those Offerors deemed to have a conflict of interest may be ineligible for award. Failure to provide the information in a timely manner does not waive the Government's rights to make a conflict of interest determination. The Offeror is notified that if it expends time and money on proposal preparation, such expenditure is at its own risk regardless of whether the Government determines a personal or organizational conflict of interest does or does not exist.

(e) Any potential prime contractor which proposes an individual, subcontractor, or teaming partner later determined to have a conflict of interest and deemed ineligible to participate in the current competition, may not be granted the opportunity to revise its proposal to remove the ineligible individual, subcontractor or teaming partner. The Government reserves the right to determine which Offerors remain in the competitive range through the normal source selection process.

(f) If the Offeror determines that a potential organizational and/or personal conflict of interest does not exist at any tier, the Offeror shall include a statement to that effect in its response to this solicitation.

FAR Clauses Incorporated by Full Text

52.212-2 Evaluation-Commercial Products and Commercial Services. (Deviation 2026-O0038) (Feb 2026)

EVALUATION-COMMERCIAL PRODUCTS AND COMMERCIAL SERVICES (FEB 2026) (DEVIATION 2026-O0038)

(a) Evaluation factors. The Government will award a contract resulting from this solicitation to the responsible Offeror whose offer conforming to the solicitation will be most advantageous to the Government, price and other factors considered. The following factors will be used to evaluate offers:

[Insert evaluation factors in the relative order of importance. For requests for proposals, state: Evaluation factors other than price when combined are [significantly more important than price/approximately equal to price/significantly less important] than price. For invitations for bids, list only price and price-related factors.]

Technical Approach, Past Performance, and small business participation plan.

The Technical Approach is more important than the Past Performance and Small Business Participation Plan. The Past Performance factor is more important than the Small Business Participation Plan.

After the Non-Price Factors have been evaluated, a combined overall Non-Price Factor Rating will be assigned using the Technical Rating Table.

All Non-Price factors, when considered together, are significantly more important than Price.

(b) *Options (if applicable)*. The Government will evaluate offers for award purposes by adding the total price for all options to the total price for the basic requirement. The Government may determine that an offer is unacceptable if the option prices are significantly unbalanced. The evaluation of options does not obligate the Government to exercise the option(s).

(c) *Notice of award*. A written notice of award or acceptance of an offer furnished to the successful Offeror within the time for acceptance specified in the offer, shall result in a binding contract without further action by either party. Before the offer's specified expiration time, the Government may accept an offer (or part of an offer), whether or not there are negotiations after its receipt, unless a written notice of withdrawal is received before award.
