For indefinite delivery contracts, the Contractor shall report to both the contracting office for the indefinite delivery contract and the contracting office for any affected order.

As prescribed in 22.1906 , insert the following clause:

Minimum Wages for Contractor Workers Under Executive Order 14026 (Jan 2022)

(a) Definitions. As used in this clause—
United States means the 50 states, the District of Columbia, Puerto Rico, the Northern Mariana Islands, American Samoa, Guam, the U.S. Virgin Islands, Johnston Island, Wake Island, and the outer Continental Shelf as defined in the Outer Continental Shelf Lands Act (43 U.S.C. 1331, et seq.).
Worker –
(1)
(i) Means any person engaged in performing work on, or in connection with, a contract covered by Executive Order 14026, and–
(A) Whose wages under such contract are governed by the Fair Labor Standards Act (29 U.S.C. chapter 8), the Service Contract Labor Standards statute (41 U.S.C. chapter 67), or the Wage Rate Requirements (Construction) statute (40 U.S.C. chapter 31, subchapter IV);

(B) Other than individuals employed in a bona fide executive, administrative, or professional capacity, as those terms are defined in 29 CFR part 541; and

(C) Regardless of the contractual relationship alleged to exist between the individual and the employer.
(ii) Includes workers performing on, or in connection with, the contract whose wages are calculated pursuant to special certificates issued under 29 U.S.C. 214(c).

(iii) Also includes any person working on, or in connection with, the contract and individually registered in a bona fide apprenticeship or training program registered with the Department of Labor's Employment and Training Administration, Office of Apprenticeship, or with a State Apprenticeship Agency recognized by the Office of Apprenticeship.

(2)

(i) A worker performs on a contract if the worker directly performs the specific services called for by the contract; and

(ii) A worker performs in connection with a contract if the worker's work activities are necessary to the performance of a contract but are not the specific services called for by the contract.

(b) Executive Order Minimum wage rate.

(1) The Contractor shall pay to workers, while performing in the United States, and performing on, or in connection with, this contract, a minimum hourly wage rate of $15.00 per hour beginning January 30, 2022.

(2) The Contractor shall adjust the minimum wage paid, if necessary, beginning January 1, 2023, and annually thereafter, to meet the applicable annual E.O. minimum wage. The Administrator of the Department of

Labor's Wage and Hour Division (the Administrator) will publish annual determinations in the Federal Register no later than 90 days before the effective date of the new E.O. minimum wage rate. The Administrator will also publish the applicable E.O. minimum wage on https://www.sam.gov (or any successor website), and a general notice on all wage determinations issued under the Service Contract Labor Standards statute or the Wage Rate Requirements (Construction) statute, that will provide information on the E.O. minimum wage and how to obtain annual updates. The applicable published E.O. minimum wage is incorporated by reference into this contract.

(3)

(i) The Contractor may request a price adjustment only after the effective date of the new annual E.O. minimum wage determination. Prices will be adjusted only for increased labor costs (including subcontractor labor costs) as a result of an increase in the annual E.O. minimum wage, and for associated labor costs (including those for subcontractors).
Associated labor costs shall include increases or decreases that result from changes in social security and unemployment taxes and workers' compensation insurance, but will not otherwise include any amount for general and administrative costs, overhead, or profit.

(ii) Subcontractors may be entitled to adjustments due to the new minimum wage, pursuant to paragraph (b)(2). Contractors shall consider any subcontractor requests for such price adjustment.

(iii) The Contracting Officer will not adjust the contract price under this clause for any costs other than those identified in paragraph (b)(3)(i) of this clause, and will not provide duplicate price adjustments with any price adjustment under clauses implementing the Service Contract Labor Standards statute or the Wage Rate Requirements (Construction) statute.

(4) The Contractor warrants that the prices in this contract do not include allowance for any contingency to cover increased costs for which adjustment is provided under this clause.

(5) A pay period under this clause may not be longer than semi-monthly, but may be shorter to comply with any applicable law or other requirement under this contract establishing a shorter pay period. Workers shall be paid no later than one pay period following the end of the regular pay period in which such wages were earned or accrued.

(6) The Contractor shall pay, unconditionally to each worker, all wages due free and clear without subsequent rebate or kickback. The Contractor may make deductions that reduce a worker's wages below the E.O. minimum wage rate only if done in accordance with 29 CFR 23.230, Deductions.

(7) The Contractor shall not discharge any part of its minimum wage obligation under this clause by furnishing fringe benefits or, with respect to workers whose wages are governed by the Service Contract Labor Standards statute, the cash equivalent thereof.

(8) Nothing in this clause shall excuse the Contractor from compliance with any applicable Federal or State prevailing wage law or any applicable law or municipal ordinance or any applicable contract establishing a minimum wage higher than the E.O. 14026 minimum wage. However, wage increases under such other laws or municipal ordinances are not subject to price adjustment under this subpart.

(9) The Contractor shall pay the E.O. minimum wage rate whenever it is higher than any applicable collective bargaining agreement(s) wage rate.

(10) The Contractor shall follow the policies and procedures in 29 CFR 23.240(b) and 23.280 for treatment of workers engaged in an occupation in which they customarily and regularly receive more than $30 a month in tips.

(c)

(1) This clause applies to workers as defined in paragraph (a). As provided in that definition–

(i) Workers are covered regardless of the contractual relationship alleged to exist between the contractor or subcontractor and the worker;

(ii) Workers with disabilities whose wages are calculated pursuant to special certificates issued under 29 U.S.C. 214(c) are covered; and

(iii) Workers who are registered in a bona fide apprenticeship program or training program registered with the Department of Labor's Employment and Training Administration, Office of Apprenticeship, or with a State Apprenticeship Agency recognized by the Office of Apprenticeship, are covered.

(2) This clause does not apply to–

(i) Fair Labor Standards Act (FLSA)-covered individuals performing in connection with contracts covered by the E.O., i.e. those individuals who perform duties necessary to the performance of the contract, but who are not directly engaged in performing the specific work called for by the contract, and who spend less than 20 percent of their hours worked in a particular workweek performing in connection with such contracts;

(ii) Individuals exempted from the minimum wage requirements of the FLSA under 29 U.S.C. 213(a) and 214(a) and (b), unless otherwise covered by the Service Contract Labor Standards statute, or the Wage Rate Requirements (Construction) statute. These individuals include but are not limited to-

(A) Learners, apprentices, or messengers whose wages are calculated pursuant to special certificates issued under 29 U.S.C. 214(a) ;

(B) Students whose wages are calculated pursuant to special certificates issued under 29 U.S.C. 214(b) ; and

(C) Those employed in a bona fide executive, administrative, or professional capacity (29 U.S.C. 213(a)(1) and 29 CFR part 541).

(d) Notice. The Contractor shall notify all workers performing work on, or in connection with, this contract of the applicable E.O. minimum wage rate under this clause. With respect to workers covered by the Service Contract Labor Standards statute or the Wage Rate Requirements (Construction) statute, the Contractor may meet this requirement by posting, in a prominent and accessible place at the worksite, the applicable wage determination under those statutes. With respect to workers whose wages are governed by the FLSA, the Contractor shall post notice, utilizing the poster provided by the Administrator, which can be obtained at www.dol.gov/agencies/whd/government-contracts, in a prominent and accessible place at the worksite. Contractors that customarily post notices to workers electronically may post the notice electronically provided the electronic posting is displayed prominently on any Web site that is maintained by the contractor, whether external or internal, and customarily used for notices to workers about terms and conditions of employment.

(e) Payroll Records.

(1) The Contractor shall make and maintain records, for three years after completion of the work, containing the following information for each worker:

(i) Name, address, and social security number;

(ii) The worker’s occupation(s) or classification(s);

(iii) The rate or rates of wages paid;

(iv) The number of daily and weekly hours worked by each worker;

(v) Any deductions made; and

(vi) Total wages paid.

(2) The Contractor shall make records pursuant to paragraph (e)(1) of this clause available for inspection and transcription by authorized representatives of the Administrator. The Contractor shall also make such records available upon request of the Contracting Officer.

(3) The Contractor shall make a copy of the contract available, as applicable, for inspection or transcription by authorized representatives of the Administrator.

(4) Failure to comply with this paragraph (e) shall be a violation of 29 CFR 23.260 and this contract. Upon direction of the Administrator or upon the Contracting Officer's own action, payment shall be withheld until such time as the noncompliance is corrected.

(5) Nothing in this clause limits or otherwise modifies the Contractor's payroll and recordkeeping obligations, if any, under the Service Contract Labor Standards statute, the Wage Rate Requirements (Construction) statute, the Fair Labor Standards Act, or any other applicable law.

(f) Access. The Contractor shall permit authorized representatives of the Administrator to conduct investigations, including interviewing workers at the worksite during normal working hours.

(g) Withholding. The Contracting Officer, upon his or her own action or upon written request of the Administrator, will withhold funds or cause funds to be withheld, from the Contractor under this or any other Federal contract with the same Contractor, sufficient to pay workers the full amount of wages required by this clause.

(h) Disputes. Department of Labor has set forth in 29 CFR 23.510, Disputes concerning contractor compliance, the procedures for resolving disputes concerning a contractor's compliance with Department of Labor regulations at 29 CFR part 23. Such disputes shall be resolved in accordance with those procedures and not the Disputes clause of this contract.
These disputes include disputes between the Contractor (or any of its subcontractors) and the contracting agency, the Department of Labor, or the workers or their representatives.

(i) Antiretaliation. The Contractor shall not discharge or in any other manner discriminate against any worker because such worker has filed any complaint or instituted or caused to be instituted any proceeding under or related to compliance with the E.O. or this clause, or has testified or is about to testify in any such proceeding.

(j) Subcontractor compliance. The Contractor is responsible for subcontractor compliance with the requirements of this clause and may be held liable for unpaid wages due subcontractor workers.

(k) Subcontracts. The Contractor shall include the substance of this clause, including this paragraph (k) in all subcontracts, regardless of dollar value, that are subject to the Service Contract Labor Standards statute or the Wage Rate Requirements (Construction) statute, and are to be performed in whole or in part in the United States.

(6) The Contractor recognizes that compliance with the requirements of this clause are material to the Government's payment decisions for purposes of 31 U.S.C. 3729(b)(4).

(c) The Contractor must include the substance of this clause, including this paragraph (c), in subcontracts at any tier, including those for commercial products and commercial services, except those where the place of delivery or performance is outside the United States.

(c) Procedures. (1) The Offeror shall search for the phrase "FASCSA order" in the System for Award Management (SAM)(https://www.sam.gov) for any covered article, or any products or services produced or provided by a source, if there is an applicable FASCSA order described in paragraph (b)(1) of FAR 52.204-30, Federal Acquisition Supply Chain Security Act Orders-Prohibition.

(2) The Offeror shall review the solicitation for any FASCSA orders that are not in SAM, but are effective and do apply to the solicitation and resultant contract (see FAR 4.2303(c)(2)).

(d) Representation. By submission of this offer, the offeror represents that it has conducted a reasonable inquiry, and that the offeror does not propose to provide or use in response to this solicitation any covered article, or any products or services produced or provided by a source, if the covered article or the source is prohibited by an applicable FASCSA order in effect on the date the solicitation was issued, except as waived by the solicitation, or as disclosed in paragraph (e).

L - Instructions, Conditions, and Notices to Bidders

Although brand names may be mentioned in the specifications and drawings of this solicitation, contractors are not mandated to submit only those specific brand names for consideration and are encouraged to submit materials that are equal to those brand names when bidding on this project.

All complete proposal submissions shall include: three (3) sections addressing the factors listed in Section M of the solicitation: Section I-Technical Proposal, Section II-Past Performance, and Section III-Cost Proposal.

Section I: Technical Proposal (Not to exceed 20 pages)

Technical proposal shall address the work to be accomplished in the specifications and address the evaluation criteria (Technical Approach) listed in section M of this solicitation. Offerors shall provide a list of subcontractors planned for use on this project. Offerors should describe the number of years or previous contracts that the offeror and subcontractor(s) have teamed together (state clearly if this is the first time you have teamed together). A technical proposal that is not complete will not be evaluated.

Section II: Past Performance

The offeror should provide **three (3) relevant past performance references** as part of its proposal submission. References must demonstrate experience on projects of similar magnitude and nature, involving comparable technical requirements, disciplines, and performance conditions as described in the specifications for this contemplated contract, and must be completed within five (5) years of the issuance date of this solicitation. At least one reference shall reflect experience performing work in remote geographic locations with logistical complexity requiring coordination with project stakeholders.

For each reference, the offeror shall provide the client/organization name, project title, period of performance, brief description of work performed, and a current point of contact (name, title, phone number,

Offerors are cautioned that in conducting the past performance questionnaire the Government may use data provided in the offerors proposal and data obtained from other sources, such as the Contractor Performance Assessment Reporting System (CPARS) or similar systems. Since the Government may not necessarily interview all the sources provided by the offerors, it is incumbent upon the offerors to explain the relevance of the data provided. Offerors are reminded that while the Government may elect to consider data obtained from other sources, the burden of proving low performance risk rests with the offerors. 31

M - Evaluation Factors for Award

Basis for Contract Award – Proposal Evaluation Criteria

The techniques and procedures described under FAR 15.404-1 will be the primary means of assessing proposal reasonableness. The Government intends to award a contract without discussion with respective offerors to the most suitable contractor per the evaluation process; however, the contracting officer reserves the right to establish a competitive range and open discussions with offerors if it is deemed necessary. The Government's technical evaluation committee will evaluate the proposals submitted against the following evaluation criteria:

Factor A – Technical Approach

Evaluation of this factor will be based on the offeror's description of their technical approach to the project. Offerors are encouraged to provide detailed specific information. Failure to provide sufficient information so that the evaluation team cannot discern if the offeror has a thorough understanding of the work in question may lead to the proposal receiving a lower rating. Information provided in the Technical Proposal should be relevant to the specifications of the project. The Government will evaluate the offeror's means and methods to accomplish the construction project, including selection of subcontractor(s) and their role in the project. Estimated time of completion will also be considered.

Factor B – Past Performance, Experience, and Technical Capability

The Government will evaluate the offeror's past performance based on demonstrated experience performing projects similar in scope, magnitude, and complexity to the requirements of this solicitation. Offerors shall submit descriptions of at least three (3) similar projects completed within the past five (5) years, including project scope, size, location, performance outcomes, and the roles fulfilled by proposed key personnel. References with current client points of contact shall be provided. Projects should demonstrate experience performing culvert or comparable drainage conduit cleaning and inspection work, including performance in remote or logistically complex environments requiring coordination with stakeholders.

The Government may also consider relevant past performance information obtained from other sources. Offerors will be afforded an opportunity to address adverse past performance information to which they have not previously had an opportunity to respond.

Past performance will be evaluated for recency, relevancy, and quality, and confidence ratings will be assigned. In accordance with FAR 15.305(a)(2), an offeror without a record of relevant past performance or for whom information is not available will receive a Neutral confidence rating (neither favorable nor unfavorable). Greater confidence may be assigned to proposals demonstrating highly relevant, successful past performance.

Factor C – Cost Proposals

Evaluation of this factor will be based on the reasonableness of the detailed cost proposal. Cost will be evaluated for reasonableness through a comprehensive comparison of each proposal received. Reasonableness will be determined based on costs submitted by the competition, current market conditions, and comparison to the Government estimate. Offerors must provide a cost breakout to include all costs associated with their proposal.

Each proposal shall be evaluated to ensure that all information provided in the RFP has been addressed, is accurate and complete, and each individual cost category under each division is properly identified (e.g., design, general requirements, concrete, masonry, mechanical, electrical, site work, etc.). Offerors shall identify the subtotal cost for each standard construction division, and the aggregate total cost for each phase of the overall project. The proposed costs will also be evaluated using the cost techniques listed at Federal Acquisition Regulation (FAR) 15.404-1 (b)(2)(i), (b)(2)(v), and (b)(2)(vi). The offeror's total cost shall be identified by divisions as shown in the project specifications schedule.

Relative Weight of Evaluation Criteria

All evaluation factors other than cost, when combined, are "significantly more important" than cost. All non cost factors will be combined and evaluated as an overall technical proposal rating. Thereafter, cost will be considered after each technical proposal has been evaluated and scored. The best value is determined by comparing differences in the value of non-cost features with differences in cost to the Government. In making this comparison, the Government is more concerned with obtaining superior non-cost features than with making an award at the lowest overall cost to the Government.

However, the Government will not make an award at a significantly higher overall cost to achieve slightly superior non-cost features. Therefore, cost is not expected to be the controlling factor in the selection of an Offeror, but the degree of importance of cost as a factor could become greater depending upon the equality of the proposals for other factors evaluated. When competing proposals are determined to be substantially equal after evaluation of all non-cost factors, the cost could become the controlling factor.

Evaluation Standards

Rating: For purposes of this solicitation, ratings will consist of an adjectival rating in conjunction with a narrative.

(1) Technical Ratings. The ratings below include the consideration of risk in conjunction with the strengths, weaknesses, significant weaknesses, uncertainties, and deficiencies in an offeror’s proposal. These shall be used on all technical factors and sub-factors and sufficient documents supporting these ratings shall be included with the ratings:

Adjectival Rating	**Description**
Outstanding	Proposal indicates an exceptional approach and understanding of the requirements and contains multiple strengths, and risk of unsuccessful performance is low.
Good	Proposal indicates a thorough approach and understanding of the requirements and contains at least one strength, and risk of unsuccessful performance is low to moderate.
Acceptable	Proposal meets requirements and indicates an adequate approach and understanding of the requirements. and risk of unsuccessful performance is no worse than moderate.
Marginal	Proposal has not demonstrated an adequate approach and understanding of the requirements, and risk of unsuccessful performance is high. Proposal is unawardable without discussions.
Unacceptable	Proposal does not meet requirements of the solicitation and thus contains one or more

	deficiencies, and risk of unsuccessful performance is unacceptable. Proposal is unawardable without discussions.

(2) Past Performance Evaluations shall address the following three items.

(i) Recency: Recency is generally expressed as a time during which past performance references are considered relevant and is critical to establishing the relevancy of past performance information.

(ii) Relevance: In establishing what is relevant for the acquisition, consideration should be given to those aspects of an offeror's history of contract (or subcontract) performance that would provide the most context and give the greatest ability to measure whether the offeror will successfully satisfy the current requirement. Common aspects of relevancy include, but are not limited to, the following: similarity of product, service, support, complexity, dollar value, contract type, use of key personnel (for services), and extent of subcontracting.

(iii) Quality: The past performance evaluation conducted in support of a current source selection does not establish, create, or change the existing record and history of the offeror's past performance on past contracts; rather, the past performance evaluation process gathers information from customers on how well the offeror performed those past contracts. Requirements for considering history of small business utilization are outlined at FAR 15.304(c)(3)(ii). The Past Performance Evaluation will review all past performance information collected and determine the quality of the offeror's performance, general trends, and usefulness of the information.

Once the past performance evaluation is completed, one of the following ratings shall be assigned.

Performance Confidence Assessments Rating

Rating Adjectival Rating	Description
Substantial Confidence	Based on the offeror's recent performance record, the Government has high expectations that the offeror will successfully perform the required effort.
