STATEMENT OF WORK

1. Objective/Requirements

Maintenance, repair, service, and parts are needed for MTS equipment located in the structures and materials laboratories (buildings 1205 and 1148) within the Research Directorate for the Durability Damage Tolerance and Reliability Branch (DDTRB), Advanced Material Processing Branch (AMPB) and the Structural Mechanics & Concepts Branch (SMCB). MTS equipment is critical to ongoing work in the labs. Re-installation, calibration, annual service, and repair are needed on this equipment distributed across both buildings and organizations to maintain functioning of the laboratories. To meet this objective there are the following requirement:

1)The requirement is an annual service contract for $175,000.00 that will be used to provide, parts, annual services, calibrations and maintenance to existing MTS equipment.

Characteristics, Scope, and Specs

The Contractor shall provide all personnel, equipment, tools, parts, and supervision necessary to perform preventative and remedial maintenance of equipment. Service maintenance and repair tasks shall be in accordance with the procedures recommended by the respective equipment manufacturer.

Task performed under this service contract may include:

- General Labor
- Factory Repair
- Equipment Calibration
- Routine Maintenance
- Engineering Consulting
- Factory Training
- Parts and Equipment as needed

2. Place of Performance

Materials and Structures Research Labs at NASA Langley Research Center in Hampton VA.

3. Period of Performance

From 08.16.26 through 08.15.27.
