Federal Agency: Army
Office: Army Contracting Command-Red River Army Depot (ACC-RRAD)
AoI Title: Supply T-130 Track shoe
CSO AoI Number: A011
AoI Release Date: 11 June 2026
Responses: See W911RQ-26-S-C0001 for Procedure Details

1. General Information

1.1 Introduction

This announcement is the manufacture and supply of new T-130 track shoe block in accordance with TACOM drawing 11646782 – Rev L under the ACC-RRAD Commercial Solutions Opening W911RQ-26-S-C0001-A011. Interested parties are highly encouraged to visit the Government Point of Entry (www.sam.gov) to review the ACC-RRAD CSO special posting in its entirety to obtain more information on the process for submission evaluation of the CSO AoI Responses.

This CSO AoI seeks to solicit solutions that meet the objectives detailed in Sections 1.2 and 1.3.

ACC-RRAD is not obligated to extend a request for proposal or make an award as a result of this CSO AoI; all awards are subject to the availability of funds and successful negotiations. This CSO AoI is not an authorization to begin performance, and in no way obligates the Government for any costs incurred by the Offeror associated with developing a Response. Prior to commencement of any activities associated with performance under this CSO AoI, the Government will issue a written directive or contractual document signed by the Contracting Officer with appropriate consideration established. ACC-RRAD reserves the right to modify the requirements of this CSO AoI.

The authority to issue this CSO AoI is derived from ACC-RRAD Commercial Solutions Opening W911RQ-26-S-C0001-A011, dated 10 Oct 2025. The CSO authority is DoD Class Deviation 2022-O0007.

1.2 AoI Background

Red River Army Depot (RRAD) is responsible for manufacturing and supplying various track systems and road wheels for the U.S Army's continuous track vehicles. The mission of the Rubber Products Branch includes the inspection, removal of existing rubber (rubber denuding), metal cleaning, and application of metal-to-rubber adhesive, vulcanization of new rubber onto the track shoes and road wheels, assembling, final paint, and shipped to various military units. Track systems consist of the M113 personnel carrier, M2 Bradley Fighting Vehicle, and M88 Recovery Vehicle.
Parts required to make a track system consist of track shoe blocks, bushings, pins and other various hardware components. Some of the components are required to be manufactured as new and unrefurbished.
This AoI is seeking commercial solutions for the supply of new manufactured T-130 Track shoe IAW drawing 11646782 – Rev L. Drawing is approved for Public Release, Distribution

Statement A. Manufacturer shall meet quality assurance standards IAW Quality Assurance Provision (QAP) 11646782.
