Section C - Description/Specifications/Statement of Work

STATEMENT OF WORK

1. General Requirements

The Molecular Department of the Biological Defense Research Directorate, Naval Medical Research Center produces reagents for biological defense applications. These reagents are employed by a variety of Navy, Department of Defense, and other US Government agencies for the detection and identification of biological warfare agents. The development process for the production of these reagents included extensive testing of various reagent components to produce the best combination.

The current requirement is for ROX Reference Dye, SSII (SS One Step RT PCR) kits, SSIII 1-Step QRT-PCR kits, Plates and Caps, are essential components of the reagents described above. Each of these must be produced by Life Technologies. Purchasing these reagent components from any other company besides Life Technologies would be unacceptable to the agencies that employ the current reagents. Switching to another vendor would invalidate all previous optimization and evaluations efforts.

The reagent kits are required for an ordering period of five (5) years. The estimated number of tests shall accommodate up to 1200 tests per year with an estimated quantity of reagent 564 units to be ordered to support testing.

All storage, shelf-life, and expiration dates associated with the reagents shall be in accordance with the OEM terms and conditions, as specified in the SOW.

The OEM's reagent product shall not be repackaged by the Offeror unless authorized, as specified in the SOW.

The vendor shall comply with the FDA and Quality Management Documentation, as specified in the SOW.

The vendor shall comply with the Reagent Preparation and Calibration Information, as specified in the SOW.

1.2 Sensitivity and Specificity

1.3 Compliance with Food & Drug Administration (FDA) Requirements

1.3.1 Immunoassay kits are considered medical devices and shall have clearance from the FDA to be marketed. The registration and listing process specified by the FDA shall be followed and the manufacturer shall adhere to good manufacturing processes in the manufacture of the devices. Any mandatory recalls of the kits provided under the resulting contract and any other problems that require notification to the FDA shall be resolved as required by the FDA regulations current at the time. The contractor shall notify the Contracting Officer of any recall or FDA notification within two working days of the event.

1.3.2. Except as provided herein, the reagents supplied throughout the term of this contract shall be identical to the reagents offered by the contractor and accepted by the Government at the time of the contract award. If, during the course of this contract, the manufacturer wishes to change or improve its kit, that product modification shall be proposed in writing to the Contracting Officer for approval prior to its incorporation into the kits to be delivered. The contractor's proposal shall include documentation that demonstrates that the manufacturer has complied with all applicable FDA regulations, including those concerning the filing of a new 510k notice if such action and subsequent FDA clearance are warranted by the nature of the modification.

1.4. Packaging. The reagents provided shall be in volumes and packaging that are convenient and applicable to the sample throughput at the FTDTLs and shall not result in the loss or unnecessary disposal of more than 3% of the working volume of reagent. The contractor shall not be required to provide calibrators/controls. The reagents shall be provided with an instruction sheet that complies with all requirements of the FDA and includes data demonstrating specific performance characteristics, such as accuracy, precision, sensitivity, specificity, cross-reactivity, and safety precautions. The instruction sheet(s) shall include procedures and instrument parameters optimized for FTDTL operations as represented in these specifications and cutoffs as utilized by the DOD. The Government shall not develop procedures or optimize the performance of a kit for the contractor. Offeror shall not repackage or relabel an OEM product unless authorized.

1.5. Shelf Life. The minimum shelf life of any unopened component of the assay shall be at least 180 days from the date of delivery to the FTDTL. All storage, shelf life, and expiration dates associated with the reagents shall be in accordance with the OEM terms and conditions. Once kit container seals are broken and the components are opened, the shelf-life shall be at least 14 days.

1.6. The FTDTLs intend to use the immunoassay kits in a manner consistent with the FDA approval. The package insert and information for the analyzer settings must contain the information necessary for the FTDTLs to use the immunoassay kits consistent with the device's FDA approval. This ensures that the FTDTLs can use the immunoassay kits properly and derive the full benefit of the FDA approval

2. PACKAGING AND MARKING.

2.1. Thermal Protection for Biologic Reagents. The contractor shall ship biologic reagent items used in the reagent kits in insulated thermal containers to ensure protection of the reagents against thermal (heat and cold) damage which would affect reagent performance contained in the Statement of Work of this contract.

2.2. Marking of Shipments (Commercially-Packaged Items). Marking shall be in accordance with ASTM D 3951 15, "Standard Practice for Commercial Packaging."

2.2.1. Additional markings include: Contract Number & Government Delivery Order Number.

This includes administrative proceedings at the Federal and State level but only in connection with performance of a Federal contract or grant. It does not include agency actions such as contract audits, site visits, corrective plans, or inspection of deliverables.

Federal contracts and grants with total value greater than $10,000,000 means-

(1) The total value of all current, active contracts and grants, including all priced options; and

(2) The total value of all current, active orders including all priced options under indefinite-delivery, indefinite-quantity, 8(a), or requirements contracts (including task and delivery and multiple-award Schedules).

Principal means an officer, director, owner, partner, or a person having primary management or supervisory responsibilities within a business entity (*e.g.*, general manager; plant manager; head of a division or business segment; and similar positions).

(b) The offeror ☐ has ☐ does not have current active Federal contracts and grants with total value greater than $10,000,000.

(c) If the offeror checked "has" in paragraph (b) of this provision, the offeror represents, by submission of this offer, that the information it has entered in the Federal Awardee Performance and Integrity Information System (FAPIIS) is current, accurate, and complete as of the date of submission of this offer with regard to the following information:

(1) Whether the offeror, and/or any of its principals, has or has not, within the last five years, in connection with the award to or performance by the offeror of a Federal contract or grant, been the subject of a proceeding, at the Federal or State level that resulted in any of the following dispositions:

(i) In a criminal proceeding, a conviction.

(ii) In a civil proceeding, a finding of fault and liability that results in the payment of a monetary fine, penalty, reimbursement, restitution, or damages of $5,000 or more.

(iii) In an administrative proceeding, a finding of fault and liability that results in-

(A) The payment of a monetary fine or penalty of $5,000 or more; or

(B) The payment of a reimbursement, restitution, or damages in excess of $100,000.

(iv) In a criminal, civil, or administrative proceeding, a disposition of the matter by consent or compromise with an acknowledgment of fault by the Contractor if the proceeding could have led to any of the outcomes specified in paragraphs (c)(1)(i), (c)(1)(ii), or (c)(1)(iii) of this provision.

(2) If the offeror has been involved in the last five years in any of the occurrences listed in (c)(1) of this provision, whether the offeror has provided the requested information with regard to each occurrence.

(d) The offeror shall post the information in paragraphs (c)(1)(i) through (c)(1)(iv) of this provision in FAPIIS as required through maintaining an active registration in the System for Award Management, which can be accessed via https://www.sam.gov (see 52.204-7).

PLACE OF MANUFACTURE (AUG 2018)

(a) *Definitions*. As used in this provision-

Manufactured end product means any end product in product and service codes (PSCs) 1000-9999, except-

(1) FPSC 5510, Lumber and Related Basic Wood Materials;

(2) Product or Service Group (PSG) 87, Agricultural Supplies;

If a product is disassembled and reassembled, the place of reassembly is not the place of manufacture.

(b) For statistical purposes only, the offeror shall indicate whether the place of manufacture of the end products it expects to provide in response to this solicitation is predominantly-

(1) ☐ In the United States (Check this box if the total anticipated price of offered end products manufactured in the United States exceeds the total anticipated price of offered end products manufactured outside the United States); or

52.229-11 Tax on Certain Foreign Procurements-Notice and Representation. (Jun 2020)

TAX ON CERTAIN FOREIGN PROCUREMENTS-NOTICE AND REPRESENTATION (JUN 2020)

(a) *Definitions*. As used in this provision-

Foreign person means any person other than a United States person.

Specified Federal procurement payment means any payment made pursuant to a contract with a foreign contracting party that is for goods, manufactured or produced, or services provided in a foreign country that is not a party to an international procurement agreement with the United States. For purposes of the prior sentence, a foreign country does not include an outlying area of the United States.

United States person as defined in 26 U.S.C. 7701(a)(30) means

(1) A citizen or resident of the United States;

(2) A domestic partnership;

(3) A domestic corporation;

(4) Any estate (other than a foreign estate, within the meaning of 26 U.S.C. 701(a)(31)); and

(5) Any trust if-

(i) A court within the United States is able to exercise primary supervision over the administration of the trust; and

(ii) One or more United States persons have the authority to control all substantial decisions of the trust.

(b) Unless exempted, there is a 2 percent tax of the amount of a specified Federal procurement payment on any foreign person receiving such payment. See 26 U.S.C. 5000C and its implementing regulations at 26 CFR 1.5000C-1 through 1.5000C-7.

(c) Exemptions from withholding under this provision are described at 26 CFR 1.5000C-1(d)(5) through (7). The Offeror may claim an exemption from the withholding by using the Department of the Treasury Internal Revenue Service (IRS) Form W-14, Certificate of Foreign Contracting Party Receiving Federal Procurement Payments, available at www.irs.gov/w14. Any exemption claimed and self-certified on the IRS Form W-14 is subject to audit by the IRS. Any disputes regarding the imposition and collection of the 26 U.S.C. 5000C tax are adjudicated by the IRS as the 26 U.S.C. 5000C tax is a tax matter, not a contract issue. The IRS Form W-14 is provided to the acquiring agency rather than to the IRS.

(d) For purposes of withholding under 26 U.S.C. 5000C, the Offeror represents that

(1) It ☐ is ☐ is not a foreign person; and

(2) If the Offeror indicates "is" in paragraph (d)(1) of this provision, then the Offeror represents that-I am claiming on the IRS Form W-14 ☐ a full exemption, or ☐ partial or no exemption [*Offeror must select one*] from the excise tax.

(e) If the Offeror represents it is a foreign person in paragraph (d)(1) of this provision, then-

(1) The clause at FAR 52.229-12, Tax on Certain Foreign Procurements, will be included in any resulting contract; and

(2) The Offeror shall submit with its offer the IRS Form W-14. If the IRS Form W-14 is not submitted with the offer, exemptions will not be applied to any resulting contract and the Government will withhold a full 2 percent of each payment.

(f) If the Offeror selects "is" in paragraph (d)(1) and "partial or no exemption" in paragraph (d)(2) of this provision, the Offeror will be subject to withholding in accordance with the clause at FAR 52.229-12, Tax on Certain Foreign Procurements, in any resulting contract.

(g) A taxpayer may, for a fee, seek advice from the IRS as to the proper tax treatment of a transaction. This is called a private letter ruling. Also, the IRS may publish a revenue ruling, which is an official interpretation by the IRS of the Internal Revenue Code, related statutes, tax treaties, and regulations. A revenue ruling is the conclusion of the IRS on how the law is applied to a specific set of facts. For questions relating to the interpretation of the IRS regulations go to https://www.irs.gov/help/tax-law-questions.
