Background Checks: Background checks are required to comply with Presidential Directive HSPD-12 that requires "for unescorted entry into a Federally controlled facility, the individual will have a background investigation on file." Within ten calendar days of contract award and a new employee being selected for work on this contract, provide a complete list of the name, address, social security number, date of birth, and work phone of each employee engaged in the performance of this contract. This information shall be provided to the COR in person (NOT VIA EMAIL). **No adjustment in contract price shall be made for the cost of the janitor to drop off background check information or for their time to obtain a LincPass.**

Excessive personnel turnover means more than 3 occurrences within a rolling 12-month performance period. No more than three background investigations will be conducted within a 12-month period at the Governments expense. Additional background investigations, if necessary, will be at the contractor's expense, and will be deducted from final invoice of the current line-item period of performance.
