Capability Statement Questions

1. Describe your company's ability to provide maintenance services for the Northrop Grumman proprietary systems described in the accompanying Statement of Work, as well as your ability to obtain required parts from the original equipment manufacturer. Documentation to the FAA will be required should the contract be awarded to you. See ¶s 1.0, 1.1, 2.1 of the SOW.

2. The FAA requires access to a national telephone hotline service available and ready to respond 24/7, 365 days of the year. Explain your process for how this is accomplished in accordance with ¶ 2.3.1 of the SOW.

3. Delineate your ability to provide a fully-trained and qualified workforce to ensure full and timely support of logistics and component repair service for RDVS as well as maintenance and engineering services for RDVS, ETVS, STVS as stated in ¶s 3.1, 3.6-3.6.3 of the SOW.

4. Elaborate on your on-site rotable spares inventory and supply of consumable parts that will enable you to provide adequate support to the sites maintained on this contract for its lifespan. A complete list of these components and assemblies will be required should the contract be awarded to you. See ¶s 3.3 – 3.4.3 of the SOW.

5. Describe your company's ability to maintain the government-furnished test bed systems as described in ¶s 3.5.3 of the SOW.
