Questions and Answers- Generator Diesel Fuel- RFQ 1305M326Q0253

Q1: Is it just 1 tank we are filling, and tank size would be nice to know.

A1: No, there are 3 tanks. The maximum size of the tanks are 8,100 gallons, but we only require 6,000 gallons between the tanks.

Q2: Is the tank above or underground?

Q2: Above Ground

Q3: Is there a security check in and down time that could lead to a delivery fee?

A3: This is a gated facility, but all that is required is for the driver to state they are here for the delivery and use Doug Fenderson as the POC to get in.

Q4: Window hours for delivery.

A4: 8 am to 3 pm Monday through Friday, except Federal Holidays.

Q5: What is the volume of each of the three generators and what are the size of the fittings for the fill inlet?

A5: We are putting 6,000 gallons between the tanks. The maximum size of the tanks are 8,100 gallons. Standard fittings.

Q6: What is the volume of each of the three generators and what are the size of the fittings for the fill inlet?

A6: Standard fittings.

Q7: After reviewing the documents, we noticed that the tank size of each generator was not included. Kindly assist us with this information as it is important for our quote.

A7: The tanks do not need to be completely filled, we require 6,000 gallons between the tanks. The maximum size of the tanks are 8,100 gallons.

Q8: Additionally, will all 3 generators be filled through a single order/delivery, or would we have to deliver to less than 3 generators at any time?

A8: Yes, all the delivery will be done in one trip. The amount in each tank will be different as it will not simply be 2,000 gallons in each tank. Depending on the date of delivery is when we will know how much fuel will go in each tank.

Amendment 1
