Joint Region Marianas Fire & Emergency Services
Annual Maintenance for Air Compressor Units

Background: Air compressor units provide a safe supply of breathing air to protect fire and emergency services personnel during confined space, firefighting, rescue, hazardous materials incidents, CBRN (Chemical, Biological, Radiological, Nuclear) terrorism incidents, and other types of operations where respiratory hazards can or do exist in accordance with current edition NFPA 1989 (National Fire Protection Association)

Scope of Work: The contractor shall provide all labor, equipment and materials necessary to perform preventative maintenance and repairs on the following six (6) Air Compressor Units:

- Vehicle Mounted Bauer Compressor SN: 110714109A
- Fixed Bauer Compressor SN: 1077897
- Mobile Bauer Compressor SN: 1B9PE1017AN730165
- Mobile Bauer Compressor (RED) S/O: 234278
- Vehicle Mounted Bauer Compressor *new heavy rescue* Resolve Specialty Products LLC

  Model 100A serial # 0328222306A
- Fixed Compressor : Nuvair MCH30 Open Vertical, Model 8042.2, Serial # C-0381625

Requirements: The contractor shall:

- Replacement of Compressor intake filter in accordance with manufacturers recommendation for all 6 compressors
- Replacement of Compressor oil filter in accordance with manufacturers recommendation for all 6 compressors
- Replacement of purification filters as needed, IAW manufacturer recommendation for all 6 compressors
- Change Compressor Oil in accordance with manufacturers recommendation for all 6 compressors
- Calibrate CO (Carbon Monoxide) Monitors and provide calibration gases for all 6 compressors
- Conduct assessment for refurbishment of Mobile Bauer Compressor SN: 1B9PE1017AN730165. The unit requires assessment for trailer repair, fuel support system, air sample, compressor and storage tank function and in-service status. Contractor to provide a report of the assessment.
- Replace fill connectors, replace gauges and fill regulators Fixed Bauer Compressor SN: 1077897
- Provide air sampling certificates and CO calibration report for all 6 compressors. Deliver to Technical Point of Contact quarterly.
- First sample, certificate and report due not later than 30 days after award.

Contractor Minimum Qualifications/Requirements: Breathing air compressor maintenance and repair certification(s)

Period of Performance:

Base Year: 31 August 2026 to 30 August 2027

Option Year 1: 31 August 2027 to 30 August 2028

Option Year 2: 31 August 2028 to 30 August 2029

Option Year 3: 31 August 2029 to 30 August 2030

Option Year 4: 31 August 2030 to 30 August 2031

Service locations:

Equipment will be serviced at the following service locations:

Fire station 1: Building 1575 Main Naval Base Santa Rita Guam 96915
Vehicle Mounted Bauer Compressor SN: 110714109A
Fixed Bauer Compressor SN: 1077897
Mobile Bauer Compressor (RED) S/O: 234278

Fire station Building 121A NCTS Dededo Guam 96915
Mobile Bauer Compressor SN: 1B9PE1017AN730165

Fire station 6 Building 1300 Camp Blaz Dededo Guam 96915
Vehicle Mounted Bauer Compressor *new heavy rescue* Resolve Specialty Products LLC Model 100A serial # 0328222306A

Fixed Compressor Nuvair MCH30 Open Vertical, Model 8042.2, Serial # C-0381625

Access to the compressors/equipment needs to be coordinated with the Technical Point of Contact
