15. Instructions, Provisions, and Evaluation Factors

a. 52.212-1 Instructions to Offerors—Commercial Products and Commercial Services.

(1) The provision at FAR 52.212-1, Instructions to Offerors—Commercial Products and Commercial Services (Feb 2026) apply to this solicitation. In addition, the following addendums identified below applies.

(2) Addendum to FAR 52.212-1(a), Submission of offers.

(3) The Offeror **shall complete and submit** the Contractor Responsibility Verification form (Attachment 2), along with supporting documentations required by the form.

(4) **The Offeror shall submit a Technical Response to the Technical Factors provided in Attachment 3 that strongly supports the contractor's ability to satisfy the contract requirements IAW the PWS**. The information submitted must be sufficient for the Government to assess if your capability will successfully satisfy the requirements of PWS.

(5) The contractor's offer **must meet** the minimum requirements of the solicitation. Unless requested from the Contracting Officer, quote revisions received after the solicitation close date/time will not be accepted. Responses should contain your best terms and conditions. The government reserves the right to evaluate the quotes and award without interchanges.

(6) Addendum to FAR 52.212-1(b) Period for acceptance of offers. The Offeror agrees, by submitting an offer, to hold the prices for **60 calendar days** from the date specified for receipt of offers.

b. 52.212-2 Evaluation—Commercial Products and Commercial Services.

(1) The provision at FAR 52.212-2, Evaluation—Commercial Products and Commercial Services (Feb 2026) apply to this solicitation. In addition, the following addendums identified below applies.

(2) Addendum to FAR 52.212-2(a), Evaluation factors.

(3) Evaluation factors. The Government intends to award to a responsible offeror using the Lowest Price Technically Acceptable approach.

(4) The following factors will be used to evaluate offers:

Technical
Price

(5) **Technical** – Technical capability is evaluated as Acceptable/Unacceptable.

(a) The Government will review the contractor's Technical Response to the Technical Factors provided in Attachment 3 and evaluate if it will successfully satisfy the requirements of PWS. The rating table provided below will be used to evaluate Technical Capability.

Technically Acceptable	Technically Unacceptable
The offeror's technical response to the technical factors will result in	The offeror's technical response to the technical factors will NOT

successful fulfillment of the PWS requirement.	result in successful fulfillment of the PWS requirement.

(6) **Price** - The Government will evaluate offers by adding the total price of CLIN's for all options to the total price for the basic requirement in order to determine the total quoted price for each offer (Base + 4 option years, and 6-month option to extend). Offerors will then be arranged according to price, from lowest priced offer to the highest priced offer. The Government may determine an offer is unacceptable if the option prices are significantly unbalanced. A comparison of proposed prices received in response to the solicitation is the preferred and intended price analysis technique. If not feasible, the government will determine price fair reasonableness by comparing the proposed prices to the result of the government's market research, independent estimate, and/or other reasonable basis. Price must be determined fair and reasonable to be considered for award. Additionally, evaluation of options shall not obligate the Government to exercise the option(s).
