FA442726Q1075 TECHNICAL FACTORS

Instruction: Offerors must provide a response to how the following technical factors/subfactors will be fulfilled. The response must be sufficient to assess the offeror's technical capability in how they will satisfy the requirement of the Regulated Garbage Services at Travis Air Force Base, CA. Response shall not exceed 10 pages.

Factor 1: Service and Operational Capabilities

Subfactors:

1.1. Garbage Pickup: The contractor must be able to pick up USDA-regulated garbage on an as-needed basis, with a minimum of one and a maximum of two pickups per week. This includes handling an estimated 100-300 lbs per pickup (approx. 15,000 lbs annually) and not missing more than one pickup per month (PWS Section 1.4).
1.2. Emergency Services: The ability to provide emergency pickups with 24-hour notice is required, with an estimated four such calls per year (PWS Section 1.7).
1.3. Containers: The contractor is required to provide their own containers for the storage and transport of regulated garbage (PWS Section 1.4).
1.4. Hours of Operation: The contractor must be able to conduct business from 8:00 a.m. to 4:30 p.m., Monday through Friday, excluding federal holidays (PWS Section 2.4).

Factor 2: Compliance and Qualifications

Subfactors:

2.1. USDA and CBP Compliance: The contractor must meet all qualifications specified in the compliance agreement with the USDA and be verified by the US Customs and Border Protection Agency (PWS Section 1.4).
2.2. Treatment and Disposal: The contractor must ensure that all regulated garbage is treated and disposed of according to strict USDA guidelines, either through incineration or sterilization (PWS Section 1.4).
2.3. Driver Licensing: All drivers operating on Travis AFB must possess a valid state driver's license (PWS Section 2.10).

Factor 3: Management and Administrative

Subfactors:

3.1. Quality Control: The contractor must employ a commercial quality control program to identify, prevent, and ensure the non-recurrence of defective services (PWS Section 2.1).
3.2. Key Personnel: The contractor must designate a contract manager and an alternate with full authority to act on behalf of the contractor for all daily contract matters. These personnel must be available during standard business hours (PWS Section 2.13).
3.3. Documentation: The contractor must provide a detailed manifest for each pickup and a monthly invoice that includes weight, number of pickups, and billing totals (PWS Section 1.4 & 1.6).
