ADDENDUM TO FAR 52.212-2 — Evaluation of Commercial Products and Commercial Services

Basis of Award.
This is a **comparative evaluation** conducted in accordance with FAR Part 12, *Acquisition of Commercial Products and Commercial Services*.
The Government intends to award a Firm-Fixed Price (FFP) contract resulting from competitive quotations received in response to this solicitation. Award will be made to the single offeror who:

- Is determined responsible in accordance with FAR Part 9;
- Submits an offer that conforms to all solicitation requirements;
- Meets the specifications of the Performance Work Statement (PWS); and

- Is determined to provide the most advantageous quotation to the Government, **price and other factors considered.**

The Government will evaluate total price to determine whether it is fair and reasonable. The lowest price may or may not receive the award, as overall best value will be determined based on the comparative evaluation of all factors. All offerors are subject to a responsibility review under FAR 9 and consideration of available U.S. Government past performance data.
Past Performance.

Offerors are not required to submit past performance information. The Government will evaluate past performance, when available, from the Supplier Performance Risk System (SPRS) and other internal databases (e.g., CPARS) at its discretion.

The following factors will be used to evaluate offerors:

1. Price
2. Technical Approach
3. Relevant Experience

1. Price
Price is not formally scored. The Government expects competitive quotes to be submitted for this procurement and will use these competitive quotes to determine price reasonableness. Price will be evaluated based on the total cost. If competitive quotes are not received, the Government reserves the right to utilize other methods identified in the FAR to determine price reasonableness. The Government intends to evaluate quotes and award without discussion; therefore, quotes should be the contractor's best pricing. DBA Insurance is an estimated cost and is not evaluated.

Completeness- Each offeror is required to provide complete pricing for each contract line identified. The price quote shall include a unit price for each item and total firm-fixed-price for all line items

Price Reasonableness-The offeror shall ensure prices reflect fair market value and be reasonable when compared to the independent Government estimate, if applicable, and current market prices for same or similar services.
`

2. Technical Approach
Contractor will submit a technical approach that demonstrates clear understanding of the Performance Work Statement and explains in detail how each service or objective in the Order Form will be met in accordance with the terms and conditions of the RFQ. Contractors are encouraged to submit photos of their proposed equipment (tents, generators, vehicles, etc.) to supplement their technical approach. Contractor will submit an itemized component list of the tents that will be provided in order to demonstrate strict compliance with the Berry Amendment (10 U.S.C. 2533a) and DFARS Clause 252.225-7012.

3. Recent and Relevant Experience
Contractor shall demonstrate recent and relevant experience within the last three (3) years for work similar in scope, size, and complexity to the requirements of this acquisition. Quoters shall document this experience by completing and submitting Attachment 01 –Experience Information Sheet as part of their quote. The Government will evaluate no more than three (3) examples of past work experience provided by the Quoter. While Quoters will not be penalized for a lack of recent and relevant experience, they may receive positive consideration for

demonstrating recent and relevant experience.

Recency- The Government will assess whether the past work experience provided is recent. For the purposes of this acquisition, "recent" is defined as performance occurring within three (3) years from the date the RFQ was issued.

Relevancy- The Government will assess whether the past work experience provided is relevant. “Relevant” is defined as work similar in scope, size, and complexity to the services required under this RFQ.

Definitions
Reasonableness: A price that is reasonable if, in its nature and amount, it does not exceed that which would be incurred by a prudent person in the conduct of competitive business.

Past Performance: Quoters need not submit past performance information. The Government will consider past performance information, if available, from the web-enabled Supplier Performance Risk System (SPRS) regarding the Offeror’s past performance history to supplement the technical evaluation.
