INCIDENTAL EQUIPMENT INVENTORY

This listing is provided by the US. Government as an account of asset on hand during contract solicitation. Within 5 days of contract award, the contractor Site Lead and/or Alternate will conduct a joint inventory with the On-Site Contracting Officer Representative (COR). The COR will document the quantity of what is actually on hand at the time of the Joint Inspection. If an item no longer exists, the COR will line through the applicable area and initial that the item either could not be located at time of inspection or has been deleted from the inventory.

After a through inventory and account of Government furnished assets, both parties will sign the joint inventory document. The COR will forward a copy to the Contractor Site Lead and to the Chief-COR for record keeping purposes. If the Contractor wishes to turn-in any items, they will need to contact the on-site COR for disposal instructions. Once the item(s) have been properly processed, the on-site COR will update the inventory listing to the actual quantity on hand and have both parties sign the new inventory listing. Once signed the COR will notify the Chief-COR of what has been turned-in and forward a copy of the updated inventory to the Contractor and Chief-COR.

The Contractor shall be responsible for replacement of consumable along with all assets provided by the Government at time of Joint Inventory. Any questions regarding this inventory listing may be addressed to the Chief-COR
