DEFENSE INTELLIGENCE AGENCY

WASHINGTON, D.C. 20340-5100

17 June 2026

To: DORE3 Solicitation Potential Offerors
From: DIA Science and Technology Contracting, CFOAC7
Subject: DORE3 Indefinite Delivery-Indefinite Quantity Solicitation HHM40226R0007

1. The Virginia Contracting Activity has a requirement for Data Science, Operations, Requirements, Exploitation and Enhanced Engineering (DORE3) in accordance with the Statement of Work (SOW) and attachments. The SOW covers the 11 Support areas listed below:

   Support Area One: Collection Concept Development
   Support Area Two: Collection Planning and Operations Support
   Support Area Three: Data Sciences Support
   Support Area Four: Technical Exploitation Support
   Support Area Five: Internet of Things (IOT), Social Media & Open-Source Support
   Support Area Six: Application/Web/Collaboration Support
   Support Area Seven: Program/Project Support
   Support Area Eight: Rapid-Response SME Support
   Support Area Nine: Academic/Industry Outreach and Innovation
   Support Area Ten: Rapid Engineering and Prototyping Support
   Support Area Eleven: Contract Project Management and Common Tasks

2. Advisory and Assistance Services will be required for each of the above support areas. Contractor services provided under DORE3 are required by ST to sustain its mission management and execution responsibilities, including conducting capability gap analyses, rapid prototyping, test & evaluation, planning, preparing for, and enabling technical collection operations, advanced technical exploitation of multi-source data.

3. The Place of Performance varies. It will be identified in each Task Order.

4. A multiple award, Indefinite Delivery-Indefinite Quantity contract is anticipated as a result of a full-and-open competition.

5. The PSC Code for this requirement is R499 SUPPORT PROFESSIONAL – OTHER. The NAICS Code is 541990 All Other Professional, Scientific, and Technical Services.

6. The full DORE3 solicitation along with any attachments will be posted on NSA ARC at https://www.arc.org.nsa.ic.gov/dashboard/

7. This notice does not serve as the DORE3 solicitation. The full solicitation will only be disbursed via NSA ARC posting. It is the offerors responsibility to check the web site periodically for any updates.

8. All interested parties should register on Sam.gov. Offerors who submit a quote or proposal in response to a solicitation must have an active SAM.gov registration at time of proposal submission and throughout the evaluation and award phase.

9. Directions to submit any questions regarding this letter will be posted with the full solicitation on NSA ARC.

10. Amendments to the solicitation will only be announced on the NSA ARC web site. It is the offeror's responsibility to review regularly for any amendments.
