To register or update former CCR and Reps & Certs that are not current go to **https://www.sam.gov/portal/public/SAM**/ and provide mandatory information.

(End of Addendum to 52.212-1)

Addendum to **RFO 52.212-2 Evaluation – Commercial Items:**

Basis for Award: The Government intends to award one Firm Fixed Price contract for this acquisition. Award will be made to technically acceptable Offerors who are deemed responsible in accordance with RFO 9.104-1 and whose quote conforms to the solicitation requirements. The solicitation requirements include all stated terms, conditions, and all other information required by this quote. Unless specifically identified in your quote, by submission of its quote, the Offeror accedes to all solicitation requirements, including terms and conditions, and technical requirements, in addition to those identified as evaluation factors. Failure to meet a requirement may result in a quote being determined ineligible for award. This contract will be awarded as Firm Fixed Price (FFP).

Evaluation Process: The evaluation factor and process to be used is listed below.

Evaluation Factors: In evaluating quotes, the Government will select the quote that is most advantageous to the Government. To arrive at a decision, each quote will be assessed in accordance with the following evaluation factors for the award:

1. Technical Acceptability
2. Price

Evaluation Factor: As allowed by RFO 15.103-2, the Lowest Price Technically Acceptable (LPTA) approach shall be applied when it is in the Government's best interest to award to the offeror that submits a technically acceptable proposal with the lowest evaluated price. The Government shall make a determination of technical acceptability, based upon meeting requirements outlined as listed on the Performance Work Statement and this solicitation. The following factors shall be used to evaluate offers:

a. Technical Acceptability – Technical capability will be determined based on contractor's technical data as outlined within the specification details. The government's evaluation team shall evaluate the technical data on a pass/fail basis, assigning a rating of Acceptable or Unacceptable. Only those quotations determined to be technically capable of performing the required task will be evaluated on price. If the quotation received is determined to be unacceptable, the vendor will be excluded from competition and will not be considered for award.

- Submit product descriptions for each item being quoted. The offeror shall submit products that match the specifications in Attachment 1, Armory Sanitizing Service - FA301626Q0114 - Performance Work Statement.

b. Price (Total) – The total price shall include the quoted price unit and extended prices to include discounts. The total price shall include discount terms and total Firm-Fixed Price to be eligible for consideration of award. All pricing will remain valid from the date of submission for 60 days. Price will be evaluated based on LPTA. If three (3) or more quotes are received, the government will evaluate the three (3) lowest priced quotes for technical acceptability, however the government reserves the right to evaluate additional quotes for technical acceptability if deemed to be in the Government's best interest.

Options (if applicable): The Government will evaluate offers for award purposes by adding the total price for all options to the total price for the basic requirement. The Government may determine that an offer is unacceptable if the option prices are significantly unbalanced. The evaluation of options does not obligate the Government to exercise the option(s).

Notice of Award: A written notice of award or acceptance of an offer furnished to the successful Offeror within the time for acceptance specified in the offer, shall result in a binding contract without further action by either party. Before the offer's specified expiration time, the Government may accept an offer (or part of an offer), whether or not there are negotiations after its receipt, unless a written notice of withdrawal is received before award.

Quotes will be reviewed to ensure that all items have been priced. Quoters that submitted prices for ALL line items will initially be ranked based on total evaluated price (TEP). TEP will be determined by adding all the line items unit prices for an overall amount, and then all quotes will be ranked lowest to highest. Quotations should contain the offeror's best terms on a price and technical capability standpoint.

Interchanges. The government intends to award without interchanges, however, reserves the right to conduct interchanges if deemed in its best interest.

*****Only the three (3) lowest quotes deemed technically acceptable will be considered for evaluation for award*****

(End of Addendum to 52.212-2)

Addendum to **52.212-4 Terms and Conditions (NOV 2023)**

Reference RFO 52.212-4, Paragraph (d) is hereby tailored as follows:

(d) Changes. Changes in the terms and conditions of this contract may be made only by written agreement of the parties.

a) The contracting office may modify the contract unilaterally under the following circumstances:

    1. To make administrative changes that do not affect the price, or substantive terms
    2. To issue change order or direction; or
    3. To make changes authorized by clauses other than a changes clause, including but not limited to the Property clause, Options Clause, or suspension of Work clauses.

(End of Addendum to 52.212-4)

5352.201-9101 Ombudsman (Jul 2013)

(a) An ombudsman has been appointed to hear and facilitate the resolution of concerns from offerors, potential offerors, and others for this acquisition. When requested, the ombudsman will maintain strict confidentiality as to the source of the concern. The existence of the ombudsman does not affect the authority of the program manager, contracting officer, or source selection official. Further, the ombudsman does not participate in the evaluation of proposals, the source selection process, or the adjudication of protests or formal contract disputes. The ombudsman may refer the interested party to another official who can resolve the concern.

(b) Before consulting with an ombudsman, interested parties must first address their concerns, issues, disagreements, and/or recommendations to the contracting officer for resolution. Consulting an ombudsman does not alter or postpone the timelines for any other processes (e.g., agency level bid protests, GAO bid protests, requests for debriefings, employee-employer actions, contests of OMB Circular A-76 competition performance decisions).

(c) If resolution cannot be made by the contracting officer, the interested party may contact the ombudsman, <>. Concerns, issues, disagreements, and recommendations that cannot be resolved at the Center/MAJCOM/DRU/SMC ombudsman level, may be brought by the interested party for further consideration to the Air Force ombudsman, Associate Deputy Assistant Secretary (ADAS) (Contracting), SAF/AQC, 1060 Air Force Pentagon, Washington DC 20330-1060, phone number (571) 256-2395, facsimile number (571) 256-2431.

(d) The ombudsman has no authority to render a decision that binds the agency.

(e) Do not contact the ombudsman to request copies of the solicitation, verify offer due date, or clarify technical requirements. Such inquiries shall be directed to the contracting officer.

(End of clause)

5352.242-9000 Contractor Access to Air Force Installations (Jun 2024)

(a) The contractor shall obtain base identification and vehicle passes, if required, for all contractor personnel who make frequent visits to or perform work on the Department of the Air Force installation(s) cited in the contract. Contractor personnel are required to wear or prominently display installation identification badges or contractor-furnished, contractor identification badges while visiting or performing work on the installation.

(b) The contractor shall submit a written request on company letterhead to the contracting officer listing the following: contract number, location of work site, start and stop dates, and names of employees and subcontractor employees needing access to the base. The letter will also specify the individual(s) authorized to sign for a request for base identification credentials or vehicle passes. The contracting officer will endorse the request and forward it to the issuing base pass and registration office or Security Forces for processing. When reporting to the registration office, the authorized contractor individual(s) should provide a valid driver's license, current vehicle registration, valid vehicle insurance certificate, and <<1> >to obtain a vehicle pass.

(c) During performance of the contract, the contractor shall be responsible for obtaining required identification for newly assigned personnel and for prompt return of credentials and vehicle passes for any employee who no longer requires access to the work site.

(d) When work under this contract requires unescorted entry to controlled or restricted areas, the contractor shall comply with citing the appropriate paragraphs as <<2>> applicable.

(e) Upon completion or termination of the contract or expiration of the identification passes, the prime contractor shall ensure that all base identification passes issued to employees and subcontractor employees are returned to the issuing office.

(f) The contractor shall provide an after-hours contact number or after-hours email in the Emergency Mass Notification System (EMNS) for each of their personnel, whose normal place of duty is on a DoD installation or within a DoD facility. The contractor shall comply with any additional requirements in DAFMAN 10-206 for emergency operational reporting. Foreign Nationals may participate and may remove themselves from the Emergency Mass Notification System at any time. To update information, personnel can access the globe icon on their system desktop screens and choose the "Access Self-Service" option.

() Failure to comply with these requirements may result in withholding of final payment.
