Purpose: Ship maintenance and repair contractors are invited to attend the Industry Day hosted by representatives from Military Sealift Command (MSC) and Naval Supply Systems Command (NAVSUP) Fleet Logistics Centers (FLCs). The Industry Day will take place at the Grand Hotel Vanvitelli in Caserta, Italy, on July 22, 2026, 07:45 AM-16:30 PM (registration requirements and tentative agenda are provided below).

During this event, MSC and FLC will deliver brief presentations on key topics impacting the ship repair sector. A primary objective of this Industry Day is to explain ship repair and contractual requirements and processes and to assess the industry's capacity to support scheduled maintenance, routine repairs, and urgent/emergent repairs.

MSC is highly interested in understanding the regional industrial capabilities of the ship repair industry. We welcome contractors to present capability briefs and/or discuss industrial capabilities with MSC and FLC representatives. If your company is interested in this opportunity, please notify us as soon as possible, no later than July 15, 2026, 15:00 PM.

Due to time constraints on the agenda, presentation/discussion slots are limited and will be scheduled to the maximum extent possible, time permitting.
