H.16 Contractor Performance Assessment Reporting System (Dec 2015)

1) FAR 42.1502 directs all federal agencies to collect past performance information on contracts. The Department of the Interior has implemented the Contractor Performance Assessment Reporting System (CPARS) to follow this regulation. One or more past performance evaluations will be conducted to record your contract performance as FAR 42.15 requires.

2) The past performance evaluation process is a totally paperless process using CPARS. CPARS is a web-based system that allows for electronic processing of the performance evaluation report.

3) We request that you give the Contracting Officer (CO) with the name, position title, phone number, and email address for each person designated to have access to your firm's past performance evaluation(s) for the contract no later than 30 calendar days after award. Each person granted access will have the ability to provide comments in the Contractor portion of the report and state whether the Contractor agrees with the evaluation, before returning the report to the Assessing Official. The report information must be protected as source selection sensitive information not releasable to the public.

4) When your Contractor Representative(s) (Past Performance Points of Contact) are registered in CPARS, they will receive an automatically-generated email with detailed login instructions. Further details, systems requirements, and training information for CPARS is available at http://www.cpars.csd.disa.mil/. The CPARS User Manual, registration for Online Training for Contractor Representatives, and a practice application may be found at this site.

5) Within 60 days after a performance period ends, the CO will complete an interim or final past performance evaluation, and the report will be accessible at http://www.cpars.csd.disa.mil/.

   a) Contractor Representatives may then provide comments in response to the evaluation or return the evaluation without comment.

   b) Comments are limited to the space provided in Block 22. Your comments should focus on objective facts in the Assessing Official's narrative and should provide your views on the causes and ramifications of the assessed performance.

   c) In addition to the ratings and supporting narratives, blocks 1 – 17 should be reviewed for accuracy, as these include key fields that will be used by the Government to identify your firm in future source selection actions.

   d) If you elect not to provide comments, please acknowledge receipt of the evaluation by indicating "No comment" in Block 22, and then signing and dating Block 23 of the form. Without a statement in Block 22, you will be unable to sign and submit the evaluation back to the Government.

   e) If you do not sign and submit the CPARS in 30 days, it will automatically be returned to the Government and will be annotated: "The report was received by the contractor on (date). The contractor neither signed nor offered comment in response to this assessment."

   f) Your response is due within 30 calendar days after receiving the CPARS.

6) The following guidelines apply concerning your use of the past performance evaluation:

   a) Protect the evaluation as "source selection information." After review, transmit the evaluation by completing and submitting the form through CPARS. If for some reason you are unable to view and submit the form through CPARS, contact the Contracting Officer for instructions.

   b) Strictly control access to the evaluation within your organization. Ensure the evaluation is never released to persons or entities outside of your control.

   c) Prohibit the use of or reference to evaluation data for advertising, promotional material, pre-award surveys, responsibility determinations, production readiness reviews, or other similar purposes.

7) If you wish to discuss a past performance evaluation, you should request a meeting in writing to the Contracting Officer no later than 7 calendar days following your receipt of the evaluation. The meeting will be held in person or via telephone or other means during your 30- day review period.

8) A copy of the completed past performance evaluation will be available in CPARS for your viewing and for Government use supporting source selection actions after it has been finalized.

(b) Definition. Similarly situated entity, as used in this clause, means a first-tier subcontractor, including an independent contractor, that—

(2) Is considered small for the size standard under the North American Industry Classification System (NAICS) code the prime contractor assigned to the subcontract.

(c) Applicability. This clause applies only to—

(1) Contracts that have been set aside for any of the small business concerns identified in 19.000(a)(3);

(2) Part or parts of a multiple-award contract that

(4) Orders expected to exceed the simplified acquisition threshold and that are—

(i) Set aside for small business concerns under multiple-award contracts, as described in 8.405-5 and 16.505(b)(2)(i)(F); or

(ii) Issued directly to small business concerns under multiple-award contracts as described in 19.504(c)(1)(ii);

(6) Contracts using the HUBZone price evaluation preference to award to a HUBZone small business

concern unless the concern waived the evaluation preference.

(d) Independent contractors. An independent contractor shall be considered a subcontractor.

(e) Limitations on subcontracting. By submission of an offer and execution of a contract, the Contractor agrees to the following requirements in the performance of a contract assigned a North American Industry Classification System (NAICS) code applicable to this contract:

It will not pay more than 50 percent of the amount paid by the Government for contract performance, excluding certain other direct costs and certain work performed outside the United States (see paragraph (e)(1)(i)), to subcontractors that are not similarly situated entities. Any work that a similarly situated entity further subcontracts will count towards the prime contractor's 50 percent subcontract amount that cannot be exceeded. When a contract includes both services and supplies, the 50 percent limitation shall apply only to the service portion of the contract.

(i) The following services may be excluded from the 50 percent limitation:

Any work that a similarly situated entity further subcontracts will count towards the prime contractor's 50 percent subcontract amount that cannot be exceeded. When a contract includes both supplies and services, the 50 percent limitation shall apply only to the supply portion of the contract.

(3) General construction. Section K – Representation, certifications, and other statements of offerors

Contractors must have a complete and updated Online Representation and Certifications Application on SAM.gov.

K.1 52.252-1 Solicitation Provisions Incorporated by Reference (Feb 1998)

This solicitation incorporates one or more solicitation provisions by reference, with the same force and effect as if they were given in full text. Upon request, the Contracting Officer will make their full text available. The offeror is cautioned that the listed provisions may include blocks that must be completed by the offeror and submitted with its Proposal or offer. In lieu of submitting the full text of those provisions, the offeror may identify the provision by paragraph identifier and provide the appropriate information with its proposal or offer. Also, the full text of a solicitation provision may be accessed electronically at this/these address(es): http://www.acquisition.gov/far

K.2 52.209-5 Certification Regarding Responsibility Matters (Apr 2026)

(a) (1) The Offeror certifies, to the best of its knowledge and belief, that—

(i) The Offeror and/or any of its Principals–

(A) Are □ are not □ presently debarred, suspended, proposed for debarment, or declared ineligible for the award of contracts by any Federal agency;

(B) Have □ have not □, within a three-year period preceding this offer, been convicted of or had a civil judgment rendered against them for: commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (Federal, State, or local) contract or subcontract; violation of Federal or State antitrust statutes relating to the submission of offers;

or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, tax evasion, violating Federal criminal tax laws, or receiving stolen property (if offeror checks "have", the offeror shall also see 52.209-7, if included in this solicitation);

(C) Are □ are not □ presently indicted for, or otherwise criminally or civilly charged by a governmental entity with, commission of any of the offenses enumerated in paragraph (a)(1)(i)(B) of this provision;

(D) Have □, have not □, within a three-year period preceding this offer, been notified of any delinquent Federal taxes in an amount that exceeds the threshold at 9.104-5(a)(2) for which the liability remains unsatisfied.

(1) Federal taxes are considered delinquent if both of the following criteria apply:

(i) The tax liability is finally determined. The liability is finally determined if it has been assessed. A liability is not finally determined if there is a pending administrative or judicial challenge. In the case of a judicial challenge to the liability, the liability is not finally determined until all judicial appeal rights have been exhausted.

(ii) The taxpayer is delinquent in making payment. A taxpayer is delinquent if the taxpayer has failed to pay the tax liability when full payment was due and required. A taxpayer is not delinquent in cases where enforced collection action is precluded.

(2) Examples.

(i) The taxpayer has received a statutory notice of deficiency, under I.R.C. § 6212, which entitles the taxpayer to seek Tax Court review of a proposed tax deficiency. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek Tax Court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(ii) The IRS has filed a notice of Federal tax lien with respect to an assessed tax liability, and the taxpayer has been issued a notice under I.R.C. § 6320 entitling the taxpayer to request a

hearing with the IRS Office of Appeals contesting the lien filing, and to further appeal to the Tax Court if the IRS determines to sustain the lien filing. In the course of the hearing, the taxpayer

is entitled to contest the underlying tax liability because the taxpayer has had no prior opportunity to contest the liability. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek tax court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(iii) The taxpayer has entered into an installment agreement pursuant to I.R.C. § 6159. The

taxpayer is making timely payments and is in full compliance with the agreement terms. The taxpayer is not delinquent because the taxpayer is not currently required to make full payment.

(iv) The taxpayer has filed for bankruptcy protection. The taxpayer is not delinquent because enforced collection action is stayed under 11 U.S.C. 362 (the Bankruptcy Code).

(ii) The Offeror has □ has not □, within a three-year period preceding this offer, had one or more contracts terminated for default by any Federal agency.

(2) "Principal," for the purposes of this certification, means an officer, director, owner,

partner, or a person having primary management or supervisory responsibilities within a business entity (e.g., general manager; plant manager; head of a division or business segment; and similar positions).

This Certification Concerns a Matter Within the Jurisdiction of an Agency of the United States and the Making of a False, Fictitious, or Fraudulent Certification May Render the Maker Subject to Prosecution Under Section 1001, Title 18, United States Code.

(b) The Offeror shall provide immediate written notice to the Contracting Officer if, at any time prior to contract award, the Offeror learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.

(c) A certification that any of the items in paragraph (a) of this provision exists will not necessarily result in withholding of an award under this solicitation. However, the certification will be considered in connection with a determination of the Offeror's responsibility. Failure of the Offeror to furnish a certification or provide such additional information as requested by the Contracting Officer may render the Offeror non-responsible.

(d) Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render, in good faith, the certification required by paragraph (a) of this provision. The knowledge and information of an Offeror is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

(e) The certification in paragraph (a) of this provision is a material representation of fact upon which reliance was placed when making award. If it is later determined that the Offeror knowingly rendered an erroneous certification, in addition to other remedies available to the Government, the Contracting Officer may terminate the contract resulting from this solicitation for default.

(End of provision)

K.3 52.209-11 Representation by Corporations Regarding Delinquent Tax Liability or a Felony Conviction under any Federal Law (Apr 2026)

(a) As required by sections 744 and 745 of Division E of the Consolidated and Further Continuing Appropriations Act, 2015 (Pub. L. 113- 235), and similar provisions, if contained in subsequent appropriations acts, the Government will not enter into a contract with any corporation that–

(1) Has any unpaid Federal tax liability that has been assessed, for which all judicial and administrative remedies have been exhausted or have lapsed, and that is not being paid in a timely manner pursuant to an agreement with the authority responsible for collecting the tax liability, where the awarding agency is aware of the unpaid tax liability, unless an agency has considered

suspension or debarment of the corporation and made a determination that suspension or debarment is not necessary to protect the interests of the Government; or

(2) Was convicted of a felony criminal violation under any Federal law within the preceding 24 months, where the awarding agency is aware of the conviction, unless an agency has considered suspension or debarment of the corporation and made a determination that this action is not necessary to protect the interests of the Government.

(b) The Offeror represents that–

(1) It is □ is not □ a corporation that has any unpaid Federal tax liability that has been

assessed, for which all judicial and administrative remedies have been exhausted or have lapsed, and that is not being paid in a timely manner pursuant to an agreement with the authority responsible for collecting the tax liability; and

(2) It is □ is not □ a corporation that was convicted of a felony criminal violation under a Federal law within the preceding 24 months.

(End of provision)

K.4 52.209-12 Certification Regarding Tax Matters (Oct 2025)

(a) This provision implements section 523 of Division B of the Consolidated and Further Continuing Appropriations Act, 2015 (Pub. L. 113- 235), and similar provisions, if contained in subsequent appropriations acts.

(b) If the Offeror is proposing a total contract price that will exceed $7 million (including options), the Offeror shall certify that, to the best of its knowledge and belief, it

(1) Has □ filed all Federal tax returns required during the three years preceding the certification;

(2) Has not □ been convicted of a criminal offense under the Internal Revenue Code of 1986; and

(3) Has not □, more than 90 days prior to certification, been notified of any unpaid Federal tax assessment for which the liability remains unsatisfied, unless the assessment is the subject of an

installment agreement or offer in compromise that has been approved by the Internal Revenue Service and is not in default, or the assessment is the subject of a non-frivolous administrative or judicial proceedings.

(End of provision)

K.5 52.209-13 Violation of Arms Control Treaties or Agreements-Certification (Apr 2026)

(a) This provision does not apply to acquisitions at or below the simplified acquisition threshold or to acquisitions of commercial products and commercial services as defined in Federal Acquisition Regulation 2.101.

(b) Certification. [Offeror shall check either (1) or (2).]

__ (1) The Offeror certifies that–

(i) It does not engage and has not engaged in any activity that contributed to or was a significant factor in the President's or Secretary of State's determination that a foreign country is in violation of its obligations undertaken in any arms control, nonproliferation, or disarmament agreement to which the United States is a party, or is not adhering to its arms control, nonproliferation, or disarmament commitments in which the United States is a participating state. The determinations are described in the most recent unclassified annual report provided to Congress pursuant to section 403 of the Arms Control and Disarmament Act (22 U.S.C. 2593a). The report is available at https://www.state.gov/bureaus-offices/under-secretary-for-arms-control-and-international-security-affairs/bureau-of-arms-control-verification-and-compliance/; and

(ii) No entity owned or controlled by the Offeror has engaged in any activity that contributed to or was a significant factor in the President's or Secretary of State's determination that a foreign country is in violation of its obligations undertaken in any arms control, nonproliferation, or disarmament agreement to which the United States is a party, or is not adhering to its arms control, nonproliferation, or disarmament commitments in which the United States is a participating state. The determinations are described in the most recent unclassified annual report provided to Congress pursuant to section 403 of the Arms Control and Disarmament Act (22 U.S.C. 2593a). The report is available at https://www.state.gov/bureaus-offices/under-secretary-for-arms-control-and-international-security-affairs/bureau-of-arms-control-verification-and-compliance/; or

__ (2) The Offeror is providing separate information with its offer in accordance with paragraph (d)(2) of this provision.

(c) Procedures for reviewing the annual unclassified report (see paragraph (b)(1) of this provision). For clarity, references to the report in this section refer to the entirety of the annual unclassified report, including any separate reports that are incorporated by reference into the annual unclassified report.

(1) Check the table of contents of the annual unclassified report and the country section headings of the reports incorporated by reference to identify the foreign countries listed there. Determine whether the Offeror or any person owned or controlled by the Offeror may have engaged in any activity related to one or more of such foreign countries.

(2) If there may have been such activity, review all findings in the report associated with those foreign countries to determine whether or not each such foreign country was determined to be in violation of its obligations undertaken in an arms control, nonproliferation, or disarmament agreement to which the United States is a party, or to be not adhering to its arms control, nonproliferation, or disarmament commitments in which the United States is a participating state. For clarity, in the annual report an explicit certification of non-compliance is equivalent to a determination of violation. However, the following statements in the annual report are not equivalent to a determination of violation:

(i) An inability to certify compliance.

(ii) An inability to conclude compliance.

(iii) A statement about compliance concerns.

(3) If so, determine whether the Offeror or any person owned or controlled by the Offeror has engaged in any activity that contributed to or is a significant factor in the determination in the report that one or more of these foreign countries is in violation of its obligations undertaken in an arms control, nonproliferation, or disarmament agreement to which the United States is a party, or is not adhering to its arms control, nonproliferation, or disarmament commitments in which the United States is a participating state. Review the narrative for any such findings reflecting a determination of violation or non-adherence related to those foreign countries in the report, including the finding itself, and to the extent necessary, the conduct giving rise to the compliance or adherence concerns, the analysis of compliance or adherence concerns, and efforts to resolve compliance or adherence concerns.

(4) The Offeror may submit any questions with regard to this report by email to NDAA1290Cert@state.gov. To the extent feasible, the Department of State will respond to such email inquiries within 3 business days.

(d) Do not submit an offer unless—

(1) A certification is provided in paragraph (b)(1) of this provision and submitted with the offer; or

(2) In accordance with paragraph (b)(2) of this provision, the Offeror provides with its offer information that the President of the United States has

(i) Waived application under 22 U.S.C. 2593e(d) or (e); or

(ii) Determined under 22 U.S.C. 2593e(g)(2) that the entity has ceased all activities for which measures were imposed under 22 U.S.C. 2593e(b).

(e) Remedies. The certification in paragraph (b)(1) of this provision is a material representation of fact upon which reliance was placed when making award. If it is later determined that the Offeror knowingly submitted a false certification, in addition to other remedies available to the Government, such as suspension or debarment, the Contracting Officer may terminate any contract resulting from the false certification.

(b) If the offeror, or its subcontractor(s), believes that the proposal contains trade secrets or confidential commercial or financial information exempt from disclosure under the Freedom of Information Act, (5 U.S.C.552), the cover page of each copy of the proposal shall be marked with the following legend:

"The information specifically identified on pages of this proposal constitutes trade secrets or confidential commercial and financial information which the offeror believes to be exempt from disclosure under the Freedom of Information Act. The offeror requests that this information not be disclosed to the public, except as may be required by law. The offeror also requests that this information not be used in whole or part by the government for any purpose other than to evaluate the proposal, except that if a contract is awarded to the offeror as a result of

or in connection with the submission of the proposal, the Government shall have the right to use the information to the extent provided in the contract."

(c) The offeror shall also specifically identify trade secret information and confidential commercial and financial information on the pages of the proposal on which it appears and shall mark each such page with the following legend:

The offeror will also be promptly notified of the request and given an opportunity to provide additional evidence and argument in support of its position, unless administratively unfeasible to do so. Section M - Evaluation factors for award

M.1 Evaluation Factors for Award

A. General Considerations. For the evaluation, the quotes will be evaluated under the following areas of consideration: price, technical capability, past performance and experience. The Government intends to evaluate quotes and make an award on initial quotes. Therefore, the offeror's initial quote shall contain the offeror's best price. If multiple line items are priced, each line item will be evaluated to ensure that balanced pricing exists. If the line items are determined to be unbalanced for the offeror that presents the lowest priced technically acceptable quote, the Government will allow that offeror the opportunity to balance the line items before award. If the offeror cannot, or chooses not to, balance the line items, the Government shall deem the offeror's quotes unacceptable. In addition to the evaluation of the quote for award determination, the Government may consider your past performance from data obtained from other sources.

B. Basis for Award. Award will be made to the selected contractor based on the "best value" Evaluated Lowest Price Technically Acceptable quote that the Government determines can best satisfy the objectives and requirements of this Request for Quote, in a manner most advantageous to the Government. The documents that each offeror submitted in response to the instructions for preparing the quote will receive a thorough evaluation. Offeror's must convey to the Government that they are capable to accomplish the work in a coordinated and timely fashion, such that all the needs of the requirement will be accomplished.

Respondents are required to address the acceptable and unacceptable Technical Factor as follows: Lowest Price Technically Acceptable Evaluation Process.

C.. Evaluation Process. The Government will evaluate all technical quotes on an acceptable and unacceptable basis to determine all offers that meet the minimum technically acceptable requirements. Failure to meet a requirement may result in an offer being determined technically unacceptable. An unacceptable rating for any one factor makes the entire quote unacceptable. Any costs incurred by offerors in preparing or submitting offers are the offerors' sole responsibility; the United States Government will not reimburse any offeror for any quote preparation costs.

Contract will be awarded to the offeror who is deemed responsible in accordance with the FAR, as supplemented, whose quote conforms to the solicitation's requirements (to include all stated terms, conditions, representations, certifications, and all other information required by the solicitation).

(1) Evaluation criteria: The quotes will be evaluated under the following three (3) evaluation factors:

Factor 1 - Technical Approach and Capability
Factor 2 - Past Performance and Experience
Factor 3 - Price

Offerors technical approach and capability quotes shall present their management approaches to accomplish all applicable contract requirements; are realistic, appropriate, and efficient; and demonstrate logic and scope understanding that present low levels of risk, approaches not demonstrating these attributes present higher levels of risk and will be rated as unacceptable.

The offeror must present a Construction schedule **(Specific to this project and not general in nature)** and narrative descriptions, major milestones, documenting clear and efficient critical paths and logical sequencing, planning, handling resources, and equipment, storage of equipment in remote locations or sensitive areas, subcontractor and other trade coordination, mobilization and de-mobilization, resource

and time constraints, weather or other natural delays, and demonstrate risk mitigation and successful completion within the required period of performance. Schedules can be submitted in MS Project Gantt Chart or similar format; for evaluation purposes only assume the Notice to Proceed date of March 00, 2026. Schedules not demonstrating these characteristics present higher levels of risk and will be rated as unacceptable. The Government will evaluate the Offeror's ability to manage staff resources and multiple subcontractors working at the same site, and the ability to complete this project on time, using the Offeror's proposed schedule for this project and any accompanying schedule narrative.

The Primary Contractor will provide a qualifying Historic Preservation Certification.

ALABAMA CONTRACTOR LICENSE: The presence and current validity of the Offeror's and any proposed subcontractor's applicable Alabama Contractor State License will be reviewed at the website: https://www.cslb.ca.gov/onlineservices/checklicenseII/checklicense.aspx. Factor 2 – Past Performance and Experience

Submit Past Performance and Experience information using the attached Past Performance Questionnaire.

Evaluation: This factor evaluates the past performance of the Offeror to determine the offeror's recency, relevance, experience, and quality of performance on the same or similar requirements.

Acceptability Standard: Relevant Experience and Past Performance must demonstrate historical preservation repairs. The offeror's past performance experience information will be evaluated to assess the offeror's experience level on recent and relevant contracts for similar work. Submit a narrative disclosing any instances of past performance that may be considered less than fully satisfactory. Describe pertinent facts, circumstances and any remedial action taken or to be taken to correct the deficiency. Failure to disclose such instances could result in an unfavorable assessment of the offeror's past performance record.

To be recent, the effort must be ongoing or must have been performed during the past three (3) years from the date of issuance of this solicitation. Past performance information that fails to meet this condition will not be evaluated. To be relevant, the effort must be similar in nature of work, size, and scope. The Government will conduct an in-depth evaluation of all recent performance information obtained to determine if it is the same or similar in nature of work, size, and scope to the services/products being procured under this solicitation. Past performance information, not demonstrating these attributes, present higher levels of risk and will be rated as unacceptable.

Safety Record: The Government will evaluate the quoter's submitted safety information. Safety information (overview, risk assessment, and tailoring for this specific project) demonstrates a higher level of project understanding, and risk mitigation will be more favorably rated. Fewer documented OSHA 300A incidents will be more favorably rated. Additionally, submit a copy of OSHA 300A logs for the previous three (3) calendar years. If you are proposing to use a subcontractor for the

roofing work, you must additionally submit a copy of your proposed roofing subcontractor's OSHA 300A logs for the previous three (3) calendar years. Information not demonstrating these qualities or higher OHSA incidents will be rated unacceptable.

Past performance information from other sources, including Contractor Performance Assessment Reporting System (CPARS), may also be utilized in the determination of the past performance record. During proposal evaluations, limited exchanges between the Government and an offeror may occur to clarify the relevance of an offeror's past performance information and adverse past performance information to which the offeror has not previously had an opportunity to respond.

In the case of an offeror without a record of relevant past performance or for whom information on past performance is not available, the offeror may not be evaluated favorably or unfavorably on past performance as described under FAR 15.104 (3)(i).

Factor 3 – Price

Proposed pricing will be evaluated for fair and reasonableness. Reasonableness will be determined considering comparisons to competitive pricing and to the independent Government estimate (IGE). Normally competition establishes price reasonableness, but it may also be based upon comparison with previously proposed prices, comparison with competitive published price lists, comparison with the independent Government estimate, and other measures. Proposed pricing that differs significantly from the competition or IGE, as an example, will be reviewed to assess potential performance risk and the offeror's understanding of the requirements. If any price component is found to be unreasonably high, or unrealistically low, an offeror's Price Quote may be rejected. If multiple contract line items are included in the price schedule, prices will be evaluated to determine whether any line items are unbalanced. Offerors are cautioned to distribute costs appropriately.

TECHNICAL RATINGS:

Technical Acceptable and Unacceptable Ratings

Unacceptable	Quote does not clearly meet the minimum requirements of the solicitation.

PAST PERFORMANCE RATING:

Past Performance Acceptable and Unacceptable Ratings

All the above Evaluation Criteria will be evaluated on an "Acceptable and Unacceptable" basis. To receive an Acceptable for Factor 1 (Technical), offerors must meet all criteria described in the Technical Capability paragraph. To receive an Acceptable rating for Factor 2 (Past Performance), offerors must meet all criteria described in the past performance paragraph. For an offer to be rated as acceptable, an Acceptable rating must be received in both the technical and past performance evaluations.

An Offeror's quote must receive a rating of Acceptable under the evaluation factors to be considered for award. The Government reserves the right to reject any or all quotes if such action is deemed in the best interest of the Government.
