LIMITATIONS ON SUBCONTRACTING (FEB 2023) (DEVIATION 2021-O0008)

(a) This clause does not apply to the unrestricted portion of a partial set-aside.

(b) *Definition. Similarly situated entity*, as used in this clause, means a first-tier subcontractor, including an independent contractor, that--

(1) Has the same small business program status as that which qualified the prime contractor for the award (e.g., for a small business set-aside contract, any small business concern, without regard to its socioeconomic status); and

(2) Is considered small for the size standard under the North American Industry Classification System (NAICS) code the prime contractor assigned to the subcontract.

(c) *Applicability.* This clause applies only to--

(1) Contracts that have been set aside for any of the small business concerns identified in 19.000(a)(3);

(2) Part or parts of a multiple-award contract that have been set aside for any of the small business concerns identified in 19.000(a)(3);

(3) Contracts that have been awarded on a sole-source basis in accordance with subparts 19.8, 19.13, 19.14, and 19.15;

(4) Orders expected to exceed the simplified acquisition threshold and that are--

(i) Set aside for small business concerns under multiple-award contracts, as described in 8.405-5 and 16.505(b)(2)(i)(F); or

(ii) Issued directly to small business concerns under multiple-award contracts as described in 19.504(c)(1)(ii);

Any work that a similarly situated entity further subcontracts will count towards the prime contractor's 50 percent subcontract amount that cannot be exceeded. When a contract includes both services and supplies, the 50 percent limitation shall apply only to the service portion of the contract. The following services may be excluded from the 50 percent limitation:

(b) For item(s) identified in paragraph (a) of this clause, the Contractor agrees to perform up to the point at which the total amount payable by the Government, including reimbursement in the event of termination of those item(s) for the Government's convenience, approximates the total amount currently allotted to the contract. The Contractor is not authorized to continue work on those item(s) beyond that point. The Government will not be obligated in any event to reimburse the Contractor in excess of the amount allotted to the contract for those item(s) regardless of anything to the contrary in the clause entitled "Termination for Convenience of the Government." As used in this clause, the total amount payable by the Government in the event of termination of applicable contract line item(s) for convenience includes costs, profit, and estimated termination settlement costs for those item(s).

The techniques and procedures described under FAR Part 15.404-1(b) will be the primary means of assessing Price analysis to determine price reasonableness. The be viable for award, an Offerors price must be determined fair and reasonable, balanced, complete and accurate. Addendum to Evaluation - Commercial Product and Commercial Services

Addendum to FAR 52.212-2 Evaluation Commercial Items

(a) The Government will use a Lowest Price Technically Acceptable (LPTA) evaluation method for this requirement. The Government intends to award a single contract resulting from the solicitation, to the Offeror who is deemed responsible in accordance with the FAR, as supplemented, whose proposal conforms to the solicitation requirements (to include all stated terms, conditions, and all other information required by the solicitation), provides the lowest priced, technically acceptable response to satisfy the requirements of the solicitation and the PWS. The following factors shall be used to evaluate offers:

Factor 1: Mission Capability

Factor 2: Price

Factor 3: Past Performance

Basis for award - Lowest Price Technically Acceptable (LPTA):

a. The Government will evaluate the Offeror's proposals strictly in accordance with this solicitation and will not assume that performance will include areas not specified in the Offeror's submission. The Government intends to evaluate proposals and award one (1) contract without negotiations; therefore, the offeror's initial proposal should contain its best terms from a technical standpoint. However, in accordance with (IAW) FAR Part 15.203, should discussion become necessary, the Government reserves the right to hold them. If this occurs, a competitive range will be determined and competitive range "comprised of all the most highly rated proposals, unless the range is further reduced for purposes of efficiency pursuant to FAR Part 15.204-1(b).

b. The Contracting Officer shall make a determination of responsibility in accordance with the standards of FAR 9.104. In order to be determined responsible, a prospective contractor must meet all standards of FAR 9.104. Award shall be made to the responsible offeror whose proposal is deemed Technically Acceptable and offers the lowest price which the Contracting Officer determined to be reasonable.

1.0. Evaluation Criteria:

1. The Government will use the criteria set forth below to evaluate and select the awardee. The Offeror's proposals will be evaluated under the following evaluation factors:

Factor 1: Mission Capability

Subfactor 1a: Phase-in Approach

Subfactor 1b: Management Approach

Subfactor 1c: Staffing Approach

Factor 2: Price

Factor 3: Past Performance

1.1. Volume I - Factor 1 - Mission Capability: The Government's technical evaluation team will evaluate the technical capability subfactors on an acceptable or unacceptable basis. Offerors must receive Acceptable ratings in each subfactor and any subfactor that is rated unacceptable will result in the overall Mission Capability factor being determined Unacceptable. Factor 1 and subfactors a, b, and c will receive one of the adjectival ratings defined in the table below.

Non-Price Factor Acceptable/Unacceptable Ratings

Rating	Description
Acceptable	Proposal meets the requirements of the solicitation and the PWS.
Unacceptable	Proposal does not meet the requirements of the solicitation and the PWS.

The Offeror's Mission Capability provided a sound and feasible Mission Capability Approach that addressed all applicable requirements which include the following:

a. Phase-in Plan. i. The Offeror provided a realistic phase-in plan that satisfies the phase-in requirements of the PWS, which ensures the Offeror is able to successfully execute the tasks in the PWS at the completion of the thirty (30) day phase-in period.

b. Management Approach. The Offeror proposed an acceptable management plan that included the following:

i. The Offeror provided an organizational chart which identifies the management structure, roles, and responsibilities of the proposed management team. The management plan adequately identifies all members of its team, to include management, key personnel, and any utilization of subcontractors.

ii. The management plan ensures adequate management and oversight of contract performance at both locations on Fort Bragg.

iii. The management plan ensures the Offeror's ability to successfully accommodate fluctuating workloads, minimize personnel turnover, and recruit and retain qualified and experienced personnel.

iv. Mission-Essential Contractor Services Plan addressed the following: Challenges associated with maintaining essential contractor services during an extended event, such as a pandemic that occurs in repeated waves; The time lapse associated with the initiation of the acquisition of essential personnel and resources and their actual availability on site; The components, processes, and requirements for the identification, training, and preparedness of personnel who are capable of relocating to alternate facilities or performing work from home; Any established alert and notification procedures for mobilizing identified "essential contractor service" personnel; and The approach for communicating expectations to contractor employees regarding their roles and responsibilities during a crisis.

c. Staffing Approach. The Government will evaluate the Offeror's staffing approach on an acceptable or unacceptable basis. To be rated acceptable, the Offeror must submit an Un-priced Staffing Matrix that clearly demonstrates how the proposed staffing plan will meet all performance requirements and hours of operation identified in TE3 for each location. The staffing plan must show that the Offeror's proposed labor categories, qualifications, labor hours, and coverage methods are sufficient to perform the ID Card services, including how the Offeror will maintain performance during absences such as leave, training or illness. A proposal will be rated unacceptable if the staffing plan fails to show how the Offeror will maintain continuous performance in accordance with the PWS.

1.2. Volume II - Factor 2 - Price. The price submission will not be scored or rated. The techniques and procedures described in FAR Part 15.404-1(b) are the primary means by which the Government will assess price reasonableness. To be eligible for award, an Offeror's price proposal must be complete, and its price must be determined fair and reasonable, balanced, and complete and accurate.

a. Reasonableness. The existence of adequate price competition is expected to support a determination of reasonableness. Other price analysis techniques in accordance with FAR 15.404-1(b) may be used to further validate price reasonableness. If adequate price competition is not obtained or if price reasonableness cannot be determined using price analysis of Government-obtained information, additional information in accordance with FAR 15.402(a)(2) may be required from the Offeror to support the proposed price.

b. Unbalanced Pricing will be evaluated in accordance with RFO FAR 15.404-6, as applicable, to assess potential performance risk which could result in unreasonably high prices. Unbalanced pricing exists when, despite an acceptable total evaluated price, the price of one or more contract line items is significantly overstated or understated as indicated by the application of price analysis techniques. Offers that are determined to be unbalanced may be rejected if the lack of balance poses an unacceptable risk to the Government.

c. Complete/Accurate. The Government will evaluate offerors price proposals to ensure that they are compliant with the price volume submission instructions in the solicitation and that they are mathematically accurate. The Government will evaluate whether the Offeror provided the proposed prices for all CLINs in the Pricing Schedule for the Phase-In, Base Period, Option Period 1, Option Period 2, Option Period 3, and Option Period 4, and whether the Offeror provided the total price for the phase-in and base period plus (4) option periods (CLIN Totals table). The Government will cross-walk the Offeror's proposed priced labor matrix with its un-priced labor matrix submitted in support of Factor 4, to ensure correlation between the two matrices. When evaluating price, the Government reserves the right, without entering discussions, to de-conflict or correct situations involving clerical errors, minor mathematical errors, rounding discrepancies or obvious misplacement of decimal points where there is a negligible impact on price.

d. The price evaluation will include the optional six (6) month extension in accordance with FAR 52.217-8, Option to Extend Services. The Government will evaluate this option by adding one-half of the Offeror's final option period price to the Offeror's total price. Evaluation of options does not obligate the Government to exercise the option(s).

e. The Total Evaluated Price. The total evaluated price will include the price of the phase-in period, base period, and all option periods (to include the option to extend services in accordance with FAR 52.217-8). (b) Options. The Government will evaluate offers for award purposes by adding the total price for all options to the total price for the basic requirement. The Government may determine that an offer is unacceptable if the option prices are significantly unbalanced. Evaluation of options shall not obligate the Government to exercise the option(s). As part of price evaluation, the government will evaluate its option to extend services (see FAR Clause 52.217-8) by adding one-half of the offeror's final option period price to the offeror's total price. Thus, the Offeror's total price for the purpose of evaluation will include the phase in and base period, 1st option, 2nd option, 3rd option and 4th option and 1/2 of the 4th option. Offerors are not required to enter a price for the six-month period. Unbalanced Pricing may be evaluated in accordance with FAR 15.404-6(a), as applicable, to assess potential performance risk for unreasonably high prices. The total evaluated price will include the price of the phase-in period, base period, and all option periods (to include the option to extend services in accordance with FAR 52.217-8).

A written notice of award or acceptance of an offer, mailed or otherwise furnished to the successful offeror within the time for acceptance specified in the offer, shall result in a binding contract without further action by either party. Before the offer's specified expiration time, the Government may accept an offer (or part of an offer), whether or not there are negotiations after its receipt, unless a written notice of withdrawal is received before award.

1.3. Volume III - Factor 3 - Past Performance. The Offeror must provide documentation for a minimum of three (3) years relevant work experience in awarded Government or commercial contracts that are the same or similar nature of work, size, magnitude, complexity and scope. The Government reserves the right to use independent sources to evaluate past performance, such as information obtained from sources such as the Contractor Performance Assessment Reporting

System (CPARS) or similar systems, Defense Contract Management Agency (DCMA) and commercial sources. In the case of an offeror for whom information on past performance is not available or so sparse that no meaningful past performance rating can be reasonably assigned, the offeror may not be evaluated favorably or unfavorably on past performance (see FAR RFO 15.202(c)(1)). In the context of acceptability/unacceptability, a neutral rating shall be considered "acceptable."

Performance Confidence Assessments

Adjectival Rating	Description
Acceptable	Offeror provided relevant past performance in accordance with the solicitation instructions. No negative past performance. In the context of acceptability /unacceptability, a neutral rating shall be considered "acceptable".
Unacceptable	Offeror did not provide relevant past performance in accordance with the solicitation instructions. Negative Past Performance.
