PROCUREMENT REQUEST NO. _____

FAR 11.002(c) requires the establishment of statements of work and specification requirements for the procurement of products containing recovered materials and environmentally preferable and energy-efficient products and services.

If no EPA designated items were checked on page 1, than check box A:

☒	A.	I hereby certify that no EPA designated guideline items are included in this procurement action
		If any EPA designated items are checked on page 1, than mark box B or C:
☐	B.	I hereby certify that the EPA recycled content requirements have been specified for all of the designated guideline items in this procurement action
OR		
☐	C.	I hereby certify that the EPA recycled content requirements have been specified for all but the following designated guideline items for which compliance with EPA standards is not attainable

If Box C is checked, list each designated item and the corresponding justification number from the list below for each exemption being claimed. Attach the supporting documentation for each waiver.

The exemption being claimed for this purchase is:

1. The product is not available competitively (from two or more sources) within a reasonable time frame;
2. The product is only available at an unreasonable price (based on a life-cycle cost analysis);
3. The product does not meet appropriate performance standards (in accordance with National Institute of Standards and Technology (NIST) guidelines.)

PROCUREMENT TITLE: Demolition IDIQ CCSFS/PSFB & Annexes
PROCUREMENT REQUEST NO. _____

The technical authority shall prepare a separate justification for each designated item purchased that does not meet EPA standards as part of this procurement action:

The following item does not comply with EPA standards for recycled/recovered materials:

The exemption being claimed for this purchase is:

- ☐ The product is not available competitively (from two or more sources) within a reasonable time frame;
- ☐ The product does not meet appropriate performance standards (in accordance with National Institute of Standards and Technology (NIST) guidelines);
- ☐ The product is only available at an unreasonable price (based on a price analysis that considers life-cycle cost). The recycled-content product costs $ per and the non-recycled-content product costs $ per .

This written justification is made in accordance with 42USC 6962(c)(1):
