RE: DHR Project File No.: 2014-3041, Received by DHR: July 15, 2014
*Demolition of Facility 49800-Heavy Equipment Shop (BR2480)*
Cape Canaveral Air Force Station, Brevard County, Florida

Dear Mr. Blaylock:

This office reviewed the referenced project for possible effects on historic properties listed, or eligible for listing, on the *National Register of Historic Places.* The review was conducted in accordance with Section 106 of the *National Historic Preservation Act of 1966*, as amended, and its implementing regulations in *36 CFR Part 800: Protection of Historic Properties.*

We note that Facility 49800 (BR2480) was previously determined by this office to meet the criteria for listing in the *National Register* and may also be a contributing resource to the potential historic district known as the Cape Canaveral Air Force Station Industrial Area.

We have reviewed the *Case Study for the Demolition of Facility 49800-Heavy Equipment Shop* and found that it satisfies the requirements of 36 CFR Part 800.6, *Resolution of Adverse Effects*. While the proposed demolition will have an adverse effect on the historic facility and potential Cape Canaveral Air Force Station Industrial Area historic district, we note that Facility 49800 has been previously documented and the adverse effect of the proposed demolition has been adequately mitigated.

If you have any questions, please contact Jason Aldridge, Historic Sites Specialist, by email at *Jason.Aldridge@dos.myflorida.com*, or by telephone at 850.245.6333 or 800.847.7278.

Sincerely

for

Robert F. Bendus, Director
Division of Historical Resources
& State Historic Preservation Officer

PC: Tom Penders
