Economic Price Adjustment-Standard Supplies (Nov 2021)

(a) The Contractor warrants that the unit price stated in the Schedule for ____ [offeror insert Schedule line item number] is not in excess of the Contractor's applicable established price in effect on the contract date for like quantities of the same item. The term "unit price" excludes any part of the price directly resulting from requirements for preservation, packaging, or packing beyond standard commercial practice. The term "established price" means a price that-

(1) Is an established catalog or market price for a commercial product sold in substantial quantities to the general public; and

Each corresponding contract unit price shall be decreased by the same percentage that the established price is decreased. The decrease shall apply to those items delivered on and after the effective date of the decrease in the Contractor's established price, and this contract shall be modified accordingly.

(c) If the Contractor's applicable established price is increased after the contract date, the corresponding contract unit price shall be increased, upon the Contractor's written request to the Contracting Officer, by the same percentage that the established price is increased, and the contract shall be modified accordingly, subject to the following limitations:

(1) The aggregate of the increases in any contract unit price under this clause shall not exceed 10 percent of the original contract unit price.

(2) The increased contract unit price shall be effective-

(i) On the effective date of the increase in the applicable established price if the Contracting Officer receives the Contractor's written request within 10 days thereafter; or

(ii) If the written request is received later, on the date the Contracting Officer receives the request.

(3) The increased contract unit price shall not apply to quantities scheduled under the contract for delivery before the effective date of the increased contract unit price, unless failure to deliver before that date results from causes beyond the control and without the fault or negligence of the Contractor, within the meaning of the Default clause.

(4) No modification increasing a contract unit price shall be executed under this paragraph (c) until the Contracting Officer verifies the increase in the applicable established price.

(5) Within 30 days after receipt of the Contractor's written request, the Contracting Officer may cancel, without liability to either party, any undelivered portion of the contract items affected by the requested increase.

(d) During the time allowed for the cancellation provided for in paragraph (c)(5) of this clause, and thereafter if there is no cancellation, the Contractor shall continue deliveries according to the contract delivery schedule, and the Government shall pay for such deliveries at the contract unit price, increased to the extent provided by paragraph (c) of this clause.

Evaluation-Commercial Products and Commercial Services (Feb 2026) (Deviation 2026-O0038)

(a) Evaluation factors. The Government will award a contract resulting from this solicitation to the responsible Offeror whose offer conforming to the solicitation will be most advantageous to the Government, price and other factors considered. The following factors will be used to evaluate offers:

[Insert evaluation factors in the relative order of importance. For requests for proposals, state: Evaluation factors other than price when combined are [significantly more important than price/approximately equal to price/significantly less important] than price. For invitations for bids, list only price and price-related factors.]

___

___

___

___

(b) *Options (if applicable).* The Government will evaluate offers for award purposes by adding the total price for all options to the total price for the basic requirement. The Government may determine that an offer is unacceptable if the option prices are significantly unbalanced. The evaluation of options does not obligate the Government to exercise the option(s).

(c) *Notice of award.* A written notice of award or acceptance of an offer furnished to the successful Offeror within the time for acceptance specified in the offer, shall result in a binding contract without further action by either party. Before the offer's specified expiration time, the Government may accept an offer (or part of an offer), whether or not there are negotiations after its receipt, unless a written notice of withdrawal is received before award.

Addendum to FAR 52.212-2 -- Evaluation - Commercial Items

1.0 Basis for Contract Award:

This acquisition will be conducted under the procedures of FAR Part 12 -- Commercial Items. This acquisition will utilize price as the only evaluated factor. Award will be made to the vendor with the lowest total evaluated price (TEP) and whose quotation conforms to the solicitation requirements (to include all stated terms, conditions, representations, and certifications). The Government intends to award without interchanges. However, the Government reserves the right to conduct interchanges if determined necessary by the Contracting Officer (ref. FAR 52.212-2 Addendum, section 1.3).

1.1 Solicitation Requirements (Terms and Conditions)

Vendors are required to meet all solicitation requirements, such as terms and conditions, representations and certifications, Statement of Work, and item description requirements, in addition to the price factor. Failure to comply with the terms and conditions of the solicitation may result in the vendor being ineligible for award. Vendors must clearly identify any exception to the solicitation terms and conditions and must provide complete supporting rationale. The Government reserves the right to determine any such exceptions unacceptable, and the quotation, therefore, ineligible for award.

1.2 Number of Contracts to be Awarded:

The Government intends to select one contractor for this acquisition. However, the Government reserves the right not to award a contract at all, depending on the quality of the quotation, prices submitted, and the availability of funds.

1.3 Interchanges

In accordance with FAR 1.102-2(c) the Government shall exercise discretion, use sound business judgement, and comply with applicable laws and regulations during the course of this acquisition. The Government intends to award without interchanges, but reserves the right to conduct interchanges if necessary. Therefore, it is imperative that vendors submit their best terms initially. If during the evaluation of quotations it is determined to be in the best interest of the Government to conduct interchanges, the Contracting Officer may conduct interchanges with one, some, or all vendors before issuing any purchase order.

Interchanges are information sharing between the Government and vendors after receipt of quotations which can be conducted to address any aspect of the quotation. Interchanges may be oral or written. Written interchanges take the form of Interchange Notices (IN)s. INs are used to accurately capture contemporaneous sharing of information. If interchanges are conducted, the Government may request final quotation revisions at the conclusion of interchanges.

2.0 Evaluation Factor:

2.1. Factor 1 - Price

Price quotations will be evaluated as follows:

2.1.1 Completeness

Quotations will be reviewed for completeness. Incomplete quotes will be considered ineligible for award.

2.1.2 Price Reasonableness

The proposed prices will be evaluated for reasonableness. Reasonableness must represent a price to the Government a prudent person would pay in the conduct of competitive business. Normally, price reasonableness is established through adequate price competition, but may also be determined through price analysis techniques as described in FAR 15.404-1(b).

2.1.3 Price Realism

The Government intends to determine price realism based on adequate price competition. In the event the Government cannot determine price realism based on adequate price competition, the Government reserves the right to conduct a more detailed price realism evaluation using one or more of the price analysis techniques described in FAR 15.404-1(b). The Government may also use other evaluation techniques, as needed. To be realistic, the proposed price must demonstrate an adequate understanding of the requirement. Quoted prices that are determined to be unrealistically low due to an inadequate understanding of the requirement will make the quotation ineligible for award.

2.1.4 Unbalanced Pricing

Vendors' quotations will be reviewed for unbalanced pricing. The Government will evaluate any supporting information provided by the vendor explaining variances that appear unbalanced. Evaluated quotes that are determined to be unbalanced may be deemed ineligible for award by the Contracting Officer if a determination is made that lack of balance poses an unacceptable risk to the Government. Unbalanced pricing exists when, despite an acceptable total price, the price of one or more line items (including sub line items) is significantly over or understated as demonstrated by application of price analysis techniques, such that:

a) There is reasonable doubt the quote would result in the lowest overall cost to the Government, even though it is the lowest priced quote; or

b) The quote is so grossly unbalanced; its acceptance would be tantamount to allowing an advanced payment.

2.1.5 Total Evaluated Price (TEP)

The TEP will be calculated as the sum of the total proposed prices for all separately priced line items (including sub line items). The total proposed price for each separately priced line item shall be calculated as the proposed unit price multiplied by the corresponding quantity.

The total proposed price for all line items will be added together as part of the TEP calculation.

The TEP will be used for evaluation purposes only.

The TEP will be calculated as the sum of the vendor's proposed prices.

52.219-2 Equal Low Bids. (Deviation 2026-O0038) (Feb 2026)

Equal Low Bids (Feb 2026) (Deviation 2026-O0038)

(a) This provision applies to small business concerns only.

(b) The bidder's status as a labor surplus area (LSA) concern may affect entitlement to award in case of tie bids. If the bidder wishes to be considered for this priority, the bidder must identify, in the following space, the LSA in which the costs to be incurred on account of manufacturing or production (by the bidder or the first-tier subcontractors) amount to more than 50 percent of the contract price.

_____ _____

(c) Failure to identify the labor surplus areas as specified in paragraph (b) of this provision will preclude the bidder from receiving priority consideration. If the bidder is awarded a contract as a result of receiving priority consideration under this provision and would not have otherwise received award, the bidder shall perform the contract or cause the contract to be performed in accordance with the obligations of an LSA concern.
