EVALUATION FACTORS FOR AWARD

The Government will award a contract resulting from this solicitation to the lowest price responsible offeror that meets the technical requirement.

1. Basis for Award

1.1. The Government intends to award a single Firm-Fixed Price (FFP) Contract from this solicitation.

1.2. Per FAR 9.103, the contract will be placed only with an offeror that the Contracting Officer determines to be responsible, that is, those who can satisfactorily perform the necessary tasks and deliver the required product on time. Prospective offerors, to qualify as sources for this acquisition, must be able to demonstrate that they meet standards of responsibility set forth in FAR 9.104. In addition, the Government may assess the offeror's financial ability to meet the solicitation requirements. No award can be made to an offeror who has been determined to be not responsible by the Contracting Officer.

1.3. Completeness. The Government's ability to evaluate a quote may depend on the level of detail and supporting documentation provided. Insufficient supporting documentation or detail in a quote may prevent the Government from evaluating a quote.

1.4. The Government will assess the offeror's quote on 2 factors: <u>Price and Technical</u>

1.4.1. Price is equal to technical evaluation.

2. EVALUATION OF PRICE FACTOR

2.1. Evaluation of price will be performed IAW RFO FAR 12.203(a)(3). Price analysis techniques will be used to determine whether prices are reasonable, complete, and are not unbalanced.

2.2. Reasonableness. The Government will evaluate the price reasonableness of the offerors' proposed prices to ensure that in its nature and amount, it does not exceed what would be incurred by a prudent person in the conduct of competitive business.

2.3. Completeness. The Government reserves the right to conduct discussions with offerors, but discussions are not anticipated or intended. Since discussions are not anticipated or intended, the Government requires complete quotes with respect to price. A complete quote will include all information required by this solicitation.

3. EVALUATION OF TECHNICAL FACTOR

3.1. This factor will be evaluated based on how an offeror’s proposed product meets the government requirement.
