52.212-2 Evaluation—Commercial Products and Commercial Services

(a) Evaluation factors. The Government will award a contract resulting from this solicitation to the responsible Offeror whose offer conforming to the solicitation will be most advantageous to the Government, price and other factors considered. The following factors will be used to evaluate offers:

Technical, Past Performance, and Price

(b) Options (if applicable). The Government will evaluate offers for award purposes by adding the total price for all options to the total price for the basic requirement. The Government may determine that an offer is unacceptable if the option prices are significantly unbalanced. The evaluation of options does not obligate the Government to exercise the option(s).

(c) Notice of award. A written notice of award or acceptance of an offer furnished to the successful Offeror within the time for acceptance specified in the offer, shall result in a binding contract without further action by either party. Before the offer's specified expiration time, the Government may accept an offer (or part of an offer), whether or not there are negotiations after its receipt, unless a written notice of withdrawal is received before award.

Addendum to 52.212-2 Evaluation—Commercial Products and Commercial Services

a. The Government will award a contract resulting from this solicitation to the responsible quoter, whose quote confirming the solicitation will be most advantageous to the Government, price and other factors considered. The following factors shall be used to evaluate quotes:

Evaluation Factors

This evaluation will utilize comparative analysis to provide the best value to the Government. Award may be made to other than the lowest priced quote, if the Government determines that a price premium is warranted due to technical merit.

However, the closer the merits of the technical quote are to one another, the greater will be the importance of price in making the award determination. In the event that

two or more technical quotes are determined technically equivalent, award may be made to the lower priced quote provided the price is reasonable. Responses to this solicitation will be evaluated against the following factors:

Factor 1: Technical
Factor 2: Past Performance
Factor 3: Price

FACTOR 1: Technical.

The quoter shall provide technical information based off the requirements of the drawings. The information shall provide, at a minimum, the following information:

a) Manufacturing Plan: A detailed summary of the manufacturing processes to be utilized to fabricate the door subassemblies in accordance with Government-provided drawings. This must specifically address the offeror's approach to:
    - Precision CNC machining and aluminum fabrication.
    - Application of chemical conversion coatings (MIL-DTL-5541) and primers.
    - Execution of two-part epoxy adhesive bonding (e.g., MIS-21030).

b) Quality Assurance: Evidence of an established Quality Management System (e.g., ISO 9001, AS9100 certification, or an equivalent internal quality manual).

c) Testing Strategy: A brief plan outlining how the offeror will manage or execute testing to prove compliance with MIL-STD-810 environmental and structural profiles.

d) Facility & Capacity: Evidence the offeror possesses (or has secure subcontractor access to) the necessary tooling, clean rooms, and equipment to fulfill the 5-year production quantities.

Mere re-statements, of the requirements or statements from the quoter that the quoter is compliant that do not include proof that the quoter can demonstrate the aforementioned items, are unacceptable.

If the quote is determined unacceptable in any of the technical evaluation factors or subfactors, the quote may not be considered for award.

In addition to the information submitted by offerors, the Contracting Officer may

consider other information reasonably related to the evaluation factors, to include the personal knowledge of the competitor's commercial and Government customers and past performance databases. The Government may consider any other value-added benefit offered in its best value determination.

The Contracting Officer is not obligated to evaluate all information submitted by each offeror. For example, the Contracting Officer may curtail evaluation of an offeror's submission if at any point the Contracting Officer determines the competitor is unlikely to provide best value.

The Contracting Officer may communicate with an offeror at any time during the evaluation without regard to the FAR 15 rules concerning competitive range determinations and discussions. The Contracting Officer may also identify the offeror most likely to provide best value and negotiate solely with that offeror to finalize the order and/or negotiate more favorable terms for the Government.

FACTOR 2: Past Performance

a. The Government will evaluate the quoter's record of past and current performance to ascertain the probability of successfully performing the required efforts of the PWS.

b. Quoters shall submit all relevant information on Government and/or commercial contracts for the prime offeror and each major subcontractor, those subcontractors expected to perform twenty (20) percent or more of the effort, in performance or awarded during the past three (3) years, from the issue date of this Request for Quote (RFQ), which are relevant to the efforts required by this RFQ. The Government may consider a wide array of information from a variety of sources but is not compelled to rely on all the information available.

c. Quoters shall include three (3) of the most recent and relevant efforts (with in the past three years) in their quote. Absent any recent and relevant past performance history or when the performance record is so spare that no meaningful confidence assessment rating can be reasonably assigned, the quoter will be assigned an "unknown confidence rating" and its quote will not be evaluated either favorably or unfavorably on past performance. The Government may use data provided by the quoter in its quote and data obtained from other sources, including data in Government files or data obtained through interviews with personnel familiar with

the contractor and their current and past performance under Federal, State or Local government or commercial contracts for the same or similar services as compared to the North American Industry Classification System (NAICS) 332999. Data used in conducting performance risk assessments shall not extend past three (3) years prior to the issue date of the RFQ but may include performance data generated during the past three (3) years without regard to the contract award date.

Factor 3: Price.

Quoters shall complete the pricing schedule with pricing for each Contract Line-Item Number (CLIN).

52.229-11 Tax on Certain Foreign Procurements-Notice and Representation (Jun 2020)

(a) *Definitions*. As used in this provision-

Foreign person means any person other than a United States person.

Specified Federal procurement payment means any payment made pursuant to a contract with a foreign contracting party that is for goods, manufactured or produced, or services provided in a foreign country that is not a party to an international procurement agreement with the United States. For purposes of the prior sentence, a foreign country does not include an outlying area of the United States.

United States person as defined in 26 U.S.C. 7701(a)(30) means

(1) A citizen or resident of the United States;

(2) A domestic partnership;

(3) A domestic corporation;

(4) Any estate (other than a foreign estate, within the meaning of 26 U.S.C. 701(a)(31)); and

(5) Any trust if-

(i) A court within the United States is able to exercise primary supervision over the administration of the trust; and

(ii) One or more United States persons have the authority to control all substantial decisions of the trust.

(b) Unless exempted, there is a 2 percent tax of the amount of a specified Federal procurement payment on any foreign person receiving such payment. See 26 U.S.C. 5000C and its implementing regulations at 26 CFR 1.5000C-1 through 1.5000C-7.

(c) Exemptions from withholding under this provision are described at 26 CFR 1.5000C-1(d)(5) through (7). The Offeror may claim an exemption from the withholding by using the Department of the Treasury Internal Revenue Service (IRS) Form W-14, Certificate of Foreign Contracting Party Receiving Federal Procurement Payments, available at www.irs.gov/w14. Any exemption claimed and self-certified on the IRS Form W-14 is subject to audit by the IRS. Any disputes regarding the imposition and collection of the 26 U.S.C. 5000C tax are adjudicated by the IRS as the 26 U.S.C. 5000C tax is a tax matter, not a contract issue. The IRS Form W-14 is provided to the acquiring agency rather than to the IRS.

(d) For purposes of withholding under 26 U.S.C. 5000C, the Offeror represents that

(1) It ___ is ____ is not a foreign person; and

(2) If the Offeror indicates "is" in paragraph (d)(1) of this provision, then the Offeror represents that-I am claiming on the IRS Form W-14 ___ a full exemption, or ___ partial or no exemption [*Offeror must select one*] from the excise tax.

(e) If the Offeror represents it is a foreign person in paragraph (d)(1) of this provision, then-

(1) The clause at FAR 52.229-12, Tax on Certain Foreign Procurements, will be included in any resulting contract; and

(2) The Offeror shall submit with its offer the IRS Form W-14. If the IRS Form W-14 is not submitted with the offer, exemptions will not be applied to any resulting contract and the Government will withhold a full 2 percent of each payment.

(f) If the Offeror selects "is" in paragraph (d)(1) and "partial or no exemption" in paragraph (d)(2) of this provision, the Offeror will be subject to withholding in accordance with the clause at FAR 52.229-12, Tax on Certain Foreign Procurements, in any resulting contract.

(g) A taxpayer may, for a fee, seek advice from the IRS as to the proper tax treatment of a transaction. This is called a private letter ruling. Also, the IRS may publish a revenue ruling, which is an official interpretation by the IRS of the Internal Revenue Code, related statutes, tax treaties, and regulations. A revenue ruling is the conclusion of the IRS on how the law is applied to a specific set of facts. For questions relating to the interpretation of the IRS regulations go to https://www.irs.gov/help/tax-law-questions.
