Reference: In accordance with the Commercial Solutions Opportunity – Defense Commissary Agency (DeCA), dated 01.21.2026, paragraph 5.0, in support of Area of Interest (AoI) 5.5: Modernize Business.

The Opportunity

The Defense Commissary Agency (DeCA) invites industry leaders to revolutionize our **Miscellaneous Food Processing Equipment (MFP)** maintenance and support operations. We are seeking innovative commercial technologies, products, and agile service models to modernize our infrastructure across 168 commissaries within the Continental United States (CONUS). This expansive network includes critical meat department and bakery/deli equipment.

Our Objective & Partnership Vision

Our goal is to establish a robust, long-term partnership with forward-thinking providers. We are looking for industry experts whose technology, service models, and commercial terms align perfectly with DeCA's core commitment: **enhancing and improving the Patron experience**.

We encourage vendors to propose technology-enabled approaches that transcend traditional maintenance. We are specifically interested in commercially proven innovations that drive the following capabilities:

Innovation Area	Desired Capabilities & Approaches
Digital Maintenance & Tracking	Advanced asset tracking, digital maintenance toolkits, and transparent lifecycle accountability.
Data & Analytics	Automated reporting, predictive analytics, and data-driven methods to ensure maximum equipment reliability.
Operational Efficiency	Implementation of industry best practices that enhance overall service quality, modernize support operations, and reduce operational risk.

Submission Instructions & Guidelines

All solitions must align with the official procurement guidelines. Vendors are directed to review the governing document, **Commercial Solutions Opening - Defense Commissary Agency (DeCA).pdf**, for complete instructions, eligibility requirements, and evaluation criteria.

Guidance Document	Action Required	Key Section
Commercial Solutions Opening - Defense Commissary Agency (DeCA).pdf	Review thoroughly prior to drafting your solution to ensure strict compliance with DeCA acquisition protocols.	**Section 3.2** (Solutions Brief preparation and submission guidelines)

How to Access the Equipment List & Locations Attachment

The complete list of physical equipment and corresponding commissary locations is directly embedded as an attachment within this digital notice. To retrieve and view this critical technical data, please follow the steps below:

Step	Action Required	Technical Details
1	Save the Announcement	Download and save this digital announcement file to your local computer or workstation.
2	Open the Saved File	Open the saved document using a dedicated PDF reader (such as Adobe Acrobat Reader).
3	Extract the Attachment	Navigate to the **Attachments** pane (represented by the paperclip icon in your PDF viewer) to locate and open the embedded **Equipment List and Locations** file.

Contract & Submission Details

Solutions must meet all applicable security and compliance requirements while delivering modernized support operations.

Detail	Information
Period of Performance	One-year base contract, with four one-year option periods.
Submission Format	Solutions Brief (submitted in accordance with Section 3.2 of the CSO instructions).
Closing Date	This opportunity remains **open continuously** until service coverage is secured for all targeted locations.
