PROJECT DESCRIPTION

The responsibility of the contractor is to prep, paint, and replace the flooring systems in BEQ HP301 according to the general requirements. All measurements are for reference only and are to be field verified by contractor. The point of contact for access to the building is listed below in the project area descriptions.

SPECIAL SCHEDULING

The facility/activity will remain in operation during the entire construction period. The Contractor shall conduct his operations so as to cause the least possible interference with normal operations of the facility/ activity. The furniture and other objects in the room are to be moved by the contractor.

SUPERVISION

One person may fill the roles of Superintendent, Quality Control Manager, and Safety & Health Officer, if duly qualified for all three positions as defined in the project specification.
