Arlington, VA 22204-1373

## I. OVERVIEW

a. Program/Equipment Name

OMNICheck Complete SCBA Flow Test Bench

b. Amount *(Total price/cost to include options.)*

$[redacted]

c. Authority

41 USC 1901 as implemented in FAR 13.106-1(b)(1) Soliciting from a single source.

d. Technical Representative

| Name | Title | Email | Phone | Date |

# Memorandum for Record - Absence of Competition

Instructions

Local Control Number: VOLKFIELDSCBA2026

NGB Control Number *(if applicable)*:

1a. CONTRACTING ACTIVITY: VOLK FIELD CRTC/ PK

b. Requiring Activity: OMNICheck Test Bench SCBA Flow Testing Device

c. POC: [redacted]

2a. NATURE OF ACTION: Brand name request.

b. Contract Action: New Contract

c. Contract Type: Firm Fixed Price

d. Fund Type: O&M, Air

3a. ESTIMATED TOTAL PRICE OF REQUEST *(including options, if any)*: $[redacted]

b. If Applicable, Estimated Price of Supplies/Services: $[redacted]

4a. Name of Requirement

OMNICheck Complete SCBA Flow Test Bench

b. Description of Requirement

The Volk Field Fire Department requires a comprehensive, NFPA-compliant Self-Contained Breathing Apparatus (SCBA) Flow Tester package configured specifically for the MSA G1 SCBA platform. Modern emergency response operations rely on SCBA units as the primary means of respiratory protection in Immediately Dangerous to Life or Health (IDLH) environments, making the ability to verify their performance a critical life-safety function.

c. Demonstrate, in Detail, Why This Specific Item or Service, is the Only One That Meets Your Requirements

The Volk Field Fire Department requires the OMNIcheck Complete SCBA Flow Test Bench Package based on market research findings that confirm it is the only commercially available system that meets all mandatory performance, compatibility, and certification requirements for the departments self contained breathing apparatus (SCBA) program. The OMNIcheck platform is uniquely capable of performing fully automated NFPA-compliant flow testing, leak detection, pressure analysis, and integrated data capture across the departments existing SCBA inventory without additional adapters, software modifications, or proprietary interface conversions. Competing systems lack the required interoperability, do not provide end to end automated diagnostics, or fail to meet the accuracy and repeatability thresholds mandated for the life safety equipment. Because SCBA testing directly affects firefighter survivability, the Government cannot accept degraded capability, increased testing time, or the safety risks associated with potential alternatives. Therefore, based on market research and critical nature of the SCBA performance verification, the OMNIcheck Complete system is the only brand that satisfies the Governments minimum needs.

5a. HAS THIS BEEN PREVIOUSLY PROCURED?

- ○ Yes, details are below.
- ✓ No.

6a. AUTHORITY CITED

41 USC 1901 as implemented in FAR 13.106-1(b)(1) Soliciting from a single source.

b. Reason for Authority Cited

The Volk Field Fire Department requires the OMNIcheck Complete SCBA Flow Test Bench Package because market research shows it is the only commercially available system that meets all mandatory performance, compatibility, and certification requirements for the department's SCBA program.

7. POSTING REQUIREMENTS

Include MFR with solicitation (FAR 13.106-1(b)(3)).

8. CONTRACTING REQUIREMENTS

a. Efforts to Obtain Competition

For any future requirements involving the same or similar items, the Government will reassess the commercial marketplace to determine whether available products meet or exceed the Government's minimum needs. This ongoing review ensures that evolving technologies, new entrants, and updated capabilities are fully considered before any subsequent acquisition.

b. Actions to Increase Competition

A 100% Total Small Business Set-Aside solicitation will be posted on SAM.gov to ensure maximum visibility and to promote competition among qualified small businesses. This approach supports the Government's objective of expanding small-business participation while securing the required capability.

c. Market Research

Market research conducted through SAM.gov and a review of historical Government contracts demonstrates that OMNIcheck is the only manufacturer whose SCBA test equipment meets all mandatory technical, performance, and certification requirements. These findings confirm that OMNIcheck is the only brand capable of satisfying the Government's minimum standards for SCBA flow-testing and diagnostics. However, market research also identified multiple small businesses that are capable of providing and distributing the required OMNIcheck items.

d. Interested Sources

None.

e. Other Facts

None.

9. REQUIRING ACTIVITY CERTIFICATION

Technical and Requirements

I certify that the supporting data under my cognizance, which are included in the justification, are accurate and complete to the best of my knowledge and belief.

| Name | Date | Title |
|---|---|---|
| [redacted] | [redacted] | [redacted] |

| Phone | Email | |
|---|---|---|
| [redacted] | [redacted]@[redacted] | [redacted] |

11. APPROVAL

Contracting Officer (KO)

1. I hereby determine that the anticipated cost to the government for this contract action will be Fair and Reasonable.
2. I certify that this Justification is accurate and complete to the best of my knowledge and belief.

(This certification shall be made by the contracting Officer who will sign the contract resulting from this Justification and Approval.)
