NOTES:

< 1 > TO AID IN AIRCRAFT PRODUCTION, SOME PARTS WITHIN ENGINEERING ASSEMBLIES ARE MOVED TO / COMBINED WITH OTHER ASSEMBLIES. MANUFACTURING ASSEMBLIES ARE CREATED TO REPRESENT THE ACTUAL MANUFACTURING PROCESS FOR THE AIRCRAFT. THE MANUFACTURING EQUIVALENTS SHOWN ARE WHAT WOULD NEED TO BE PROCURED TO FULLY REPLACE THE ENGINEERING ASSEMBLIES, WITH THE EXCEPTION OF THE ASSEMBLY HARDWARE FOR THE LOOSE PARTS (RIVETS, PINS, COLLARS, BOLTS, SCREWS, NUTS, NUTPLATES, ...).

< 2 > PROCUREMENT LIST IS BASED ON ALL ITEMS BEING REPLACED IN THEIR ENTIRETY. BOM ADJUSTMENTS FOR SOME ITEMS MIGHT BE REQUIRED IF SOME OF THE 41 ITEMS AREN'T BEING REPLACED.

< 3 > AT PART / ASSY INTERFACES WITH EXISTING STRUCTURE, PILOT HOLE LOCATIONS IN REPLACEMENT PARTS MIGHT DIFFER FROM FASTENER HOLE LOCATIONS IN EXISTING STRUCTURE, WHICH IS CONSIDERED ACCEPTABLE FOR THE PURPOSES OF THE TEST AND EVALUATION EFFORT. PILOT HOLES TO BE REMOVED FROM PARTS FOR FUTURE RECURRING INSTALLATIONS.
