Attachment 2-Pricing Spreadsheet

NOTE: For materials testing CLINs, the FAA anticipates awarding a maximum of one CLIN for each test type/CLIN series, e.g 001, 002A, 003A, 004, etc. based on the number of fuels determined to be tested. One or more Labor CLINS (022-027) may be awarded at FAA discretion.

CLIN	MATERIAL TEST	UNIT	QTY	FULLY LOADED PRICE EA. UNIT	EXTENSION	MAXIMUM CLIN SERIES PRICE
001	Fuel-Wetted Metallic Materials: single unleaded fuel and baseline fluid/fuel, including all testing, management, and reporting	FFP	1			
001A	Fuel-Wetted Metallic Materials: two unleaded fuels and baseline fluid/fuel, including all testing, management, and reporting	FFP	1			
002	Fuel Wetted Non-Metallic Materials, Slab Stock Flat Stock: single unleaded fuel and baseline fluid/fuel, including all testing, management, and reporting	FFP	1			
002A	Fuel Wetted Non-Metallic Materials, Slab Stock Flat Stock: two unleaded fuels and baseline fluid/fuel, including all testing, management, and reporting	FFP	1			
003	Fuel Wetted Non-Metallic Finished Parts: single unleaded fuel and baseline fluid/fuel, including all testing, management, and reporting	FFP	1			
003A	Fuel Wetted Non-Metallic Finished Parts: two unleaded fuels and baseline fluid/fuel, including all testing, management, and reporting	FFP	1			
004	Paint Systems : single unleaded fuel and baseline fluid/fuel, including all testing, management, and reporting	FFP	1			
004A	Paint Systems : two unleaded fuels and baseline fluid/fuel, including all testing, management, and reporting	FFP	1			
005	Polysulfide Sealants: single unleaded fuel and baseline fluid/fuel, including all testing, management, and reporting	FFP	1			
005A	Polysulfide Sealants: two unleaded fuels and baseline fluid/fuel, including all testing, management, and reporting	FFP	1			
006	Fabric Systems : single unleaded fuel and baseline fluid/fuel, including all testing, management, and reporting	FFP	1			
006A	Fabric Systems : two unleaded fuels and baseline fluid/fuel, including all testing, management, and reporting	FFP	1			
007	O-Rings: single unleaded fuel and baseline fluid/fuel, including all testing, management, and reporting	FFP	1			
007A	O-Rings: two unleaded fuels and baseline fluid/fuel, including all testing, management, and reporting	FFP	1			
008	Aircraft Hoses: single unleaded fuel and baseline fluid/fuel, including all testing, management, and reporting	FFP	1			
008A	Aircraft Hoses: two unleaded fuels and baseline fluid/fuel, including all testing, management, and reporting	FFP	1			

CLIN	MATERIAL TEST	UNIT	QTY	FULLY LOADED PRICE EA. UNIT	EXTENSION	MAXIMUM CLIN SERIES PRICE
009	Distribution Hoses: single unleaded fuel and baseline fluid/fuel, including all testing, management, and reporting	FFP	1			
009A	Distribution Hoses: two unleaded fuels and baseline fluid/fuel, including all testing, management, and reporting	FFP	1			
010	Lining: single unleaded fuel and baseline fluid/fuel, including all testing, management, and reporting	FFP	1			
010A	Lining: two unleaded fuels and baseline fluid/fuel, including all testing, management, and reporting	FFP	1			
011	Filters/Coalescers: single unleaded fuel and baseline fluid/fuel, including all testing, management, and reporting	FFP	1			
011A	Filters/Coalescers: two unleaded fuels and baseline fluid/fuel, including all testing, management, and reporting	FFP	1			
012	Fuel Bladders: single unleaded fuel and baseline fluid/fuel, including all testing, management, and reporting	FFP	1			
012A	Fuel Bladders: two unleaded fuels and baseline fluid/fuel, including all testing, management, and reporting	FFP	1			
013	Resin Pre-Screening: single unleaded fuel and baseline fluid/fuel, including all testing, management, and reporting	FFP	1			
013A	Resin Pre-Screening: two unleaded fuels and baseline fluid/fuel, including all testing, management, and reporting	FFP	1			
014	Finished Composites Property Testing. Performed only on resins that demonstrated unacceptable performance during pre-screening: single unleaded fuel and baseline fluid/fuel, including all testing, management, and reporting	ea. resin	22			
014A	Finished Composites Property Testing. Performed only on resins that demonstrated unacceptable performance during pre-screening: two unleaded fuels and baseline fluid/fuel, including all testing, management, and reporting	ea. resin	22			
015	Vendor Supplied Material Tests: single unleaded fuel and baseline fluid/fuel, including all testing, management, and reporting	FFP	1			
015A	Vendor Supplied Material Tests: two unleaded fuels and baseline fluid/fuel, including all testing, management, and reporting	FFP	1			
016	RTP-001 Cold Flow Rig Testing: single unleaded fuel and baseline fluid/fuel, including all testing, management, and reporting	FFP	1			
016A	RTP-001 Cold Flow Rig Testing: two unleaded fuels and baseline fluid/fuel, including all testing, management, and reporting	FFP	1			
017	RTP-004 Storage Stability Rig Testing: single unleaded fuel and baseline fluid/fuel, including all testing, management, and reporting	FFP	1			
017A	RTP-004 Storage Stability Rig Testing: two unleaded fuels and baseline fluid/fuel, including all testing, management, and reporting	FFP	1			

CLIN	MATERIAL TEST	UNIT	QTY	FULLY LOADED PRICE EA. UNIT	EXTENSION	MAXIMUM CLIN SERIES PRICE
017B	RTP-004 Storage Stability Rig Testing: three unleaded fuels and baseline fluid/fuel, including all testing, management, and reporting	FFP	1			
018	RTP-005 Cold Storage Freezer Test: single unleaded fuel and baseline fluid/fuel, including all testing, management, and reporting	FFP	1			
018A	RTP-005 Cold Storage Freezer Test: two unleaded fuels and baseline fluid/fuel, including all testing, management, and reporting	FFP	1			
018B	RTP-005 Cold Storage Freezer Test: three unleaded fuels and baseline fluid/fuel, including all testing, management, and reporting	FFP	1			
019	RTP-009 Dynamic Diaphragm Test- single unleaded fuel and baseline fluid/fuel, including all testing, management, and reporting	FFP	1			
019A	RTP-009 Dynamic Diaphragm Test: two unleaded fuels and baseline fluid/fuel, including all testing, management, and reporting	FFP	1			
020	RTP-010 Sump Drain Valve Test- single unleaded fuel and baseline fluid/fuel, including all testing, management, and reporting	FFP	1			
020A	RTP-010 Sump Drain Valve Test: two unleaded fuels and baseline fluid/fuel, including all testing, management, and reporting	FFP	1			
021	Polysulfide Sealants Validation List: single unleaded fuel and baseline fluid/fuel, including all testing, management, and reporting	FFP	1			
021A	Polysulfide Sealants Validation List: two unleaded fuels and baseline fluid/fuel, including all testing, management, and reporting	FFP	1			
022	Add'l PAFI/EAGLE/Test support: Project Lead - rate from contract start thru 12 months	Hr.	200			
023	Add'l PAFI/EAGLE/Test Support: Project Lead - rate from 13 thru 24 months from contract start	Hr.	200			
024	Add'l PAFI/EAGLE/Test Support: Project Lead - rate from 25 thru 36 months from contract start	Hr.	200			
025	Add'l PAFI/EAGLE/Test Support: Senior Researcher - rate from contract start thru 12 months	Hr.	200			
026	Add'l PAFI/EAGLE/Test Support: Senior Researcher - rate from 13 thru 24 months from contract start	Hr.	200			
027	Add'l PAFI/EAGLE/Test Support: Senior Researcher - rate from 25 thru 36 months from contract start	Hr.	200			

TOTAL MAXIMUM CONTRACT PRICE	**$0.00**
